Mr. Roy Cowley
Route No. 1
Bonners Ferry, Idaho

Dear Mr. Cowley:

Re: 18311.

A short time ago we received the report of our field engineer on examination for Beneficial Use under the above numbered permit.

This report shows that you are irrigating 5 acres of SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 31, Township 62 North, Range 2 East.

Therefore your fee will be \$2.00, upon receipt of which a license will be issued on 0.1 of a second foot.

Very truly yours,

E. V. BERG,
Commissioner of Reclamation.

Dear Sir:-

This will acknowledge receipt of the deposition of the holder, the deposition of two witnesses, and the affidavit of publication from the Bonners Ferry Herald, all in connection with beneficial use proof under the above numbered permit.

We also acknowledge receipt of your affidavit, to the effect that the proper description of the land should be Range 2 East, instead of Range 1 East, as shown in the original application.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination, so that you may show him over the grounds. After his report is on file in this office, you will be further notified as to fees before the issuance of your license.

Mr. Solon B. Clark,
Attorney at Law,
Bonners Ferry, Idaho.

Dear Sir:-

We are writing you in regard to the proofs of beneficial use under the above numbered permit, in the name of Roy Cowley, inasmuch as you addressed us in regard to these proofs on August 3rd.

We are in receipt of the depositions of the holder and two witnesses, also affidavit in regard to the continuance of the depositions, and affidavit of publication from the Bonners Ferry Herald, all of which we find to be in order, with the one exception.

Both the point of diversion and the land irrigated are described as being in Township 62 North, Range 2 East and this is the way it was advertised, but the original application and permit—also the proof of completion of works gives this as Range 1 East.

We took this matter up with Mr. A. J. Kent prior to the publication, and he informed us that Range 2 East was the proper description, and we wrote him as follows:

"Since this seems to have been a typographical error, which has been carried right down through the permit, it will be necessary for you to furnish this department with an affidavit to the effect that both the point of diversion, and the land to be irrigated, were incorrectly described in the original application and permit, and that the actual location of both is in Township 62 North, Range 2 East."

Will you please see that such an affidavit is sent this department?

ready to depose at the office of A.J. Kent, a Notary Public
in Bonners Ferry, Boundary County, Idaho in reference and to make
make proof in accordance with the affidavit of publication
to which this affidavit is hereto attached and made a part
hereof; That affiant again appeared at the office of said A.J.
Kent upon said date at numerous times; That said A.J. Kent did
not appear at his office and to the best of affiants
information and belief no person, firm or corporation
appeared upon said date to protest the affiants claim herein.
That your affiant is informed by the members of the family
of said A.J. Kent that the reason for the non appearance of
said A.J. Kent upon said 28th day of July, 1939 was on account
of serious illness in a hospital in Spokane Washington,

Re: Permit No. 18311

Mr. Solon B. Clark,
Attorney at Law,
Bonners Ferry, Idaho

Dear Sir:-

We are in receipt of your letter of August 3rd, in reference to beneficial use proof under the above numbered permit in the name of Roy Cowley.

Inasmuch as the publication was made, and the applicant and witnesses appeared in accordance therewith, and no protest was filed, we believe that the following would be the proper procedure.

Have the applicant and witnesses appear before another Notary Public and execute the depositions; and in returning same to this office, with the affidavit of publication, also submit an affidavit to the effect that the parties appeared for the purpose of making the proof at the time specified in the notice, but because of the absence of the Notary on account of illness, the hearing was postponed until the later date.

We are enclosing a set of depositions that may be used in this connection, inasmuch as the ones sent Mr. Kent may not be available at the present time.

Very truly yours,

JAMES SPOFFORD

Hon. James H. Spofford,

RE. Roy Cowley, Bonner Ferry.
Permit 18311.

Dear Sir;

Notice of final application of the water to beneficial use has been duly published and the hearing was set for July, 28th at 10 A.M. before A.J. Kent; Cowley was present at that time but Kent did not appear. Cowley is now advised that Kent is in a Portland hospital and does not know when he will return.

No one appeared at that time to contest the application. Is there any way under your rules that this showing could be made and the proof submitted before another Notary.

I would very much appreciate your advise.

Yours truly

PROOF OF BENEFICIAL USE OF WATER

Boise, Idaho, July 18, 1939

Re: Permit No. 18311
Roy Cowley

Mr. A. J. Kent,
Notary Public,
Bonners Ferry, Idaho

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 18311.

Deposition of Permit Holder,
Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On July 28, 1939, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Bonners Ferry, Idaho before A. J. Kent, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

JAMES SPORFORD
Commissioner of Reclamation.

Re: Permit No. 18311

Mr. A. J. Kent,
Bonners Ferry, Idaho.

Dear Sir:-

We are in receipt of your letter of June 28th, and have changed the notice of beneficial use proof under the above numbered permit in accordance therewith, making the time for making such proof at 10:00 o'clock A.M. of July 28th, 1939.

We also note your statement that the land irrigated is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 31, Township 62 North, Range 2 East, B.M., and not Range 1 East, as described in the Permit.

Reference to the records of this permit shows that the original application and map show the point of diversion, and land to be irrigated, as in Section 31, Township 62 North, Range 1 East; and your Certificate of Completion of Works also gives the same description.

Since this seems to have been a typographical error, which has been carried right down through the permit, it will be necessary for you to furnish this department with an affidavit, to the effect that both the point of diversion, and land to be irrigated, were incorrectly described in the original application and permit, and that the actual location of both is in Township 62 North, Range 2 East.

The notice has been sent to the Bonners Ferry Herald, with instructions to publish it once a week for four consecutive weeks prior to July 28th; and about ten days prior to that time depositions, consisting of one for the holder and one for each of two witnesses, will be sent to you, as Notary Public, so that you will have them in ample time for the proof.

Very truly yours,

Dear Sir:-

We acknowledge receipt of Notice in duplicate in connection with proof of beneficial use under your Permit No. 18311; also your authorization to have same published in the Bonners Ferry Herald.

However, we note that you have set the time for the hearing at 10:00 A.M. of July 30th. No doubt you have overlooked the fact that July 30th falls on Sunday.

Please advise us whether you wish this changed to July 29th, or any other date prior thereto, as the proof must be made not later than July 30th.

We also note that you describe the five acres to be irrigated as being in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 31, Twp. 62 North, Range 2 East; whereas your permit describes it as being in Range 1 East. We assume that it is an error in the notice, but should like to have you advise us accordingly.

Bonners Ferry, Idaho

Boise, Idaho, **May 10, 1938**

Dear Sir:—

Under the terms of your permit No. 18311 you are required to complete your diversion works on or before July 30, 1938. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Mr. Cowley:

We are in receipt of your notation on the bottom of our letter dated July 11th.

An examination of the records reveals no water filings in good standing on Cow Creek in Boundary County, nor do we find any permit has ever been issued to Fitzpatrick Brothers. It would therefore seem that any filing which you might make would be the first right of record on this stream.

We are enclosing herewith, our regular form of application to appropriate the public waters of the State of Idaho, together with a pamphlet of instructions. It is suggested that you read this pamphlet carefully before attempting to make out the application, as it contains detailed information as to the necessary land descriptions, maps required, etc.

If you are unfamiliar with legal descriptions, it might be well for you to contact some local engineer with a view of having him make out your application and maps for you. This would probably save both yourself and this office much time and trouble, and would eliminate the possibility of having to return the application to you for correction or additional information.

Dear Mr. Cowley:

I have your letter of June 30th in which you ask a number of questions pertaining to the appropriation of the waters of a small creek that runs through your farm, for various usages.

You have a perfect right to the use of this water for any beneficial purpose, providing any prior rights are not using it. The chances are that there has been a filing, although if the party holding such filing has not used the water for the past four years, the right has more than likely been cancelled. However, I can not definitely say, not knowing to whom the permit might have been issued, or the stream from which the water is to be taken.

One is entitled to use water for domestic purposes to the extent of his actual needs. The statutes define domestic use as the quantity required for household needs and the actual number of stock required to operate the place.

If you will kindly advise us the stream to which you refer and the name of the party or parties who might have filed upon it, we shall be glad to answer the rest of your questions. We shall likewise be glad to furnish the necessary blanks if you care to make a filing.

Have I any right to use this creek for a small truck patch irrigation?

How much can I use for domestic purpose?

Can I place a ram in it?
