APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 24059
Permit No. 17098
District No.

1. Name of Applicant: Village of Bonners Ferry, a municipal corporation.

Postoffice address: Bonners Ferry, County: Boundary, State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors: Board of Trustees, Village of Bonners Ferry, Idaho

II. The financial resources of the applicant are:

(a) Cash on hand:

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources:

2. Quantity of water claimed: 150 cubic feet per second.

3. Source of water supply: Moyie River which is a tributary of Kootenai River

4. Location of point of diversion: N. 81° 26' E. 605 feet distant from the southwest corner of Section 11, T. 62 N., R. 2 E., B. M., and is in the SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 11, T. 62 N., R. 2 E., B. M., County of Boundary.

5. Water is to be used for: Power purposes.

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: S. 75° 28' E. ³⁴¹ feet distant from northwest corner of Section 14 T. 62 N., R. 2 E., B. M., in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 14, T. 62 N., R. 2 E., B. M.

(b) Amount of power generated: 550 H. P., under 61 feet head.

(c) Water is to be returned to Moyie River at a point S. 70° 30' E. 355 feet distant from the NW corner of Section 14, T. 62 N., R. 2 E., B. M., in the NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 14, T. 62 N., R. 2 E., B. M.

7. Estimated cost of works: \$ 75,000.00

8. Kind of works: Reinforced concrete dam, tunnel and pipe

9. Height of dam 23.68 feet; length of dam at top 44 feet; length of dam at bottom 24 feet; material used in dam: reinforced concrete

10. Size of headgate: Width 7' 5" feet; height 7 feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet; dimensions of flume (7' x 7' Tunnel)

Diameter of pipe inches; length of conduit 290 feet miles.

Average grade per mile 26 feet.

12. The time required for the completion of such work is 6 months. years.

13. The time required for the complete application of the water to the proposed use is 6 months additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? No If so, fill in (b) and (c) below.
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Village of Bonners Ferry, Idaho Applicant.

By Agent.

Date of first receipt at Department of Reclamation: 11 A. M. March 6, 1929

Returned to applicant for correction: April 5, 1929

Corrected application received: June 4, 1929

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is 17098
Recorded in Book 61 Page 17098 Approved June 7, 1929
This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:
Bond in the sum of \$ 1000.00 to be filed on or before August 6, 1929
Work to begin on or before and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.
One-fifth of the work above specified to be completed on or before September 7, 1929
The whole of said work to be completed on or before December 7, 1929
Beneficial use of water appropriated in accordance herewith, to be made on or before June 7, 1930

Witness my hand this 7th day of June, 1929.

GEO. N. CARTER
Commissioner of Reclamation.

January 12, 1983

Mr. Mike Woodward, P.E.
City Engineer
City of Bonners Ferry
P. O. Box 149
Bonners Ferry, Id. 83805

Dear Mike:

As per your request, I am writing to explain why the portions of the City's early water rights that were not being used cannot be applied to the City's new generating facility.

The explanation may be found in Section 42-222 of the Idaho Code which defines forfeiture of a water right. Forfeiture is failure to apply water to the beneficial use for which it was appropriated for a term of five years. All forfeited rights revert back to the State.

As no major changes have taken place in the generating facilities since 1958, any appropriated water in excess of that being utilized after 1958 would have been lost to forfeiture sometime in 1963.

Consequently, in order to obtain a valid water right for the water utilized in the new turbine, an additional filing for 90 cfs will be necessary.

If you have any questions, please contact me at this office.

Sincerely,

15/
LAWRENCE D. BEARD

Re: Bonners Ferry Hydroelectric Plant Water Rights

Dear Larry;

Please refer to your letter to me of November 22, 1982 concerning the above subject.

I have done some checking of records here and have some new information that indicates our two earlier water rights were actually used. The factor that influences this is the use of an earlier low head dam where more water was consumed in producing power.

To be more specific consider first the City's Water License No. 17098 (98-2036). This water was used in the first plant turbine. The turbine operated off the original low dam and consumed a relatively large amount of water for the power produced, thus a water license for 150 cfs.

Next consider the City's Water Permit No. 18713, in the amount of 160 cfs. This water is used by our two 1000 KW units.

On the basis of the previous water rights totaling 310 cfs, it was realized at the time of filing for additional water rights in 1979, that less than the anticipated consumption of the new unit was needed to bring the aggregate of our water rights to the proper total. Water Right application No. 98-7320 was filed accordingly.

Since the City's earlier water rights were put to beneficial use
I trust they are valid and this matter is in order.

Very truly yours,

Mike Woodward

UNITED STATES OF AMERICA
FEDERAL POWER COMMISSION

RECEIVED
MAY 28 1953

Before Jerome K. Kuykendall, Chairman; Dale E. Doty, Claude L.
Commissioners: Draper, Nelson Lee Smith and Harrington Wimberly.

In the Matter of

Village of Bonners Ferry

Project No. 1991

ORDER DETERMINING ACTUAL LEGITIMATE ORIGINAL COST
OF INITIAL PROJECT, NET CHANGES THEREIN, AND
PRESCRIBING ACCOUNTING THEREFOR

The license for this project, the initial portion of which was previously constructed, issued April 5, 1950 and effective as of April 1, 1948, provides for the determination of the actual legitimate original cost, accrued depreciation and net investment in the project as of the effective date thereof and the actual legitimate original cost of the portion to be thereafter constructed.

The Licensee, on March 21, 1951, filed an initial statement in which the actual legitimate original cost claimed for the entire project, as of December 31, 1950, was \$652,138.06 without any statement as to the accrued depreciation applicable to the initial project as of April 1, 1948.

The staff of the Commission made a field examination of the Licensee's claimed cost statement for the project and records and data in support of such claim. In the course of the field examination the staff computed the accrued depreciation applicable to the project as of April 1, 1948 in the amount of \$27,635.56 based upon depreciable project plant in the amount of \$146,276.60. The staff also proposed adjustments to the costs claimed for the project, as of December 31, 1950, in the net amount of \$40,553.69 which increased the claim theretofore filed in the amount of \$652,138.06 to \$692,691.75. The actual legitimate original cost of the initial project, as of April 1, 1948, was ascertained to be the amount of \$151,418.46.

Conferences were held with a representative of the Licensee and tentative agreement reached, subject to Commission approval, with respect to the adjustment of the claimed project cost, the accounting disposition of the adjustments to be recorded on Licensee's books of account and the amounts of the actual legitimate original cost and accrued depreciation of the project. Subsequent to such conferences and in harmony with agreements reached therein the Licensee on March 31, 1952, filed a revised statement of the Actual Legitimate Original Cost

17098

Claimed for the project, as of April 1, 1948 and December 31, 1950, and estimated accrued depreciation, as of the effective date of license, April 1, 1948, showing, respectively, the amounts of \$151,418.46, \$692,691.75 and \$27,635.56.

The adjustments of the claimed cost proposed by the staff resulting in the net increase of \$40,553.69 comprise items in the net amount of \$30,136.12 that were recorded on the books but erroneously omitted from the claimed cost involving no accounting entries therefor, and items in the net amount of \$10,417.57 associated with adjustment of interest costs, administrative expenses and the like which are to be recorded in project plant accounts. In addition to the entries to be made in the plant accounts in the amount of \$10,417.57, land costs in the amount of \$7,500, included in the statement of claimed cost but not recorded on the books, are to be entered in the project plant accounts resulting in net additions of \$17,917.57 to be reflected in the accounts. It was tentatively agreed that the accounting disposition of project book adjustments of \$17,917.57 should be made as follows:

Charge:

Account 110, Other Physical Property	\$1,400.00
Account 140, Unamortized Debt	
Discount and Expense	4,394.47

Credit:

Account 111, Advances to Municipality	(8,176.00)
Account 271, Earned Surplus	(15,536.04)
Total	<u>\$(17,917.57)</u>

This municipal licensee is not under the jurisdiction of any state regulatory agency.

The Commission finds:

- (1) The Licensee by its tentative agreement with the staff and its filing on March 31, 1952 of a revised statement of claimed costs for the project as of April 1, 1948 and December 31, 1950 and statement of accrued depreciation as of April 1, 1948 reflecting the adjustments proposed by the staff has waived the necessity for further notice as provided by Sections 4.4, 4.5, 4.21 and 4.23 of the Commission's General Rules and Regulations.
- (2) The adjustments tentatively agreed upon by licensee and Commission's staff are reasonable and proper.
- (3) The actual legitimate original cost of the initial project as of April 1, 1948 is \$151,418.46, the accrued depreciation is the amount of \$27,635.56 and the net investment in the project as of the effective date of the license therefor is the sum of \$123,782.90.

- (4) The net changes in the project plant accounts for the period from April 1, 1948 to December 31, 1950, inclusive, is an addition in the net amount of \$541,273.29 and the actual legitimate original cost of the project, as of December 31, 1950 is the amount of \$692,691.75.

The Commission orders:

- (A) The tentative agreement and the adjustments therein contemplated be and they hereby are approved.
- (B) Licensee dispose of the net addition of \$17,917.57 to its project plant accounts by the adjusting entries as set forth in column (10) of the tabulation, Appendix B, attached hereto.
- (C) Licensee, to the extent it has not already done so, establish and maintain control and detailed plant accounts for the project, showing debit balances of \$151,418.46, as of April 1, 1948, and \$692,691.75, as of December 31, 1950, classified as set forth in columns (2) and (4) of the attached tabulation, Appendix B.
- (D) Licensee establish and maintain a project depreciation reserve account showing a credit balance of \$27,635.56 classified by functional groups as set forth in column (3) of the tabulation, Appendix A.
- (E) Licensee shall within 60 days of the date of this order file FPC Form No. 7 showing compliance with this order.

By the Commission. Chairman Kuykendall not participating.

Leon M. Fuquay,
Secretary.

AFFIDAVIT OF PUBLICATION

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 10 o'clock a. m. on the 7th day of December, 1929, at Bonners Ferry, County of Boundary, State of Idaho, before J. H. McNally, notary public, proof will be submitted of the completion of works for the diversion of 150 cubic feet per second of the waters of Moyie River, and of the application to beneficial use of said water in accordance with the terms and conditions of Permit No. 17098, heretofore issued by the Commissioner of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit, are Village of Bonners Ferry, Boundary County, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of use, in accordance with the plans accompanying the application for such permit, is 150 cubic feet per second.

3. The use to which said water has been applied is power purposes and the amount applied to beneficial use is 150 cubic feet per second.

4. The place where said water is used is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 14, Twp. 62 N., R. 2 E., B. M.

5. The date of priority which said user is prepared to establish is March 6, 1929.

Re: Permit No. 17098.

Mr. E. E. Fry
Chairman, Board of Trustees
Bonners Ferry, Idaho

Dear Sir:-

The report of our examining engineer on completion of works and beneficial use of water under the above permit is now on file here. The fees due this office on these proofs amount to \$52.00, being \$47.00 for proof of completion of works, based on a capacity of 150 second feet, and \$5.00 for proof of beneficial use of water.

There also remains to be filed the affidavit of publication from the publisher of the Bonners Ferry Herald.

Upon receipt of the required fees together with the affidavit of publication, the certificate of completion of works and water license will be granted.

Dear Sir:

In connection with Permit #17098, Village of Bonners Ferry, Idaho, enclosed please find deposition of holder and deposition of O. F. Howe and deposition of Byron N. Hawks as to proof of completion of works; and deposition of holder and depositions of O. F. Howe and Byron N. Hawks as to proofs of application of water to beneficial use.

Trusting the same are satisfactory,
I remain

Very truly yours,

OCW:S

17098

PERMIT NO. _____

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ~~Village of Bonners Ferry, Idaho, a municipal corporation~~

E. E. Fry, Bonners Ferry, Idaho, Physician, Bonners Ferry, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting for Village of Bonners Ferry, Idaho, a municipal corporation of which I am Chairman of the Board of Trustees.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. Permit No. 17098; date of permit June 7, 1929; authorized to divert 150 cu. ft. per second from Moyie River at a point north 81° 26' east 605 feet from the southwest corner of Sec. 11-62-2E

Ques 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. For power purposes.

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. Water was turned into works of diversion and has been continuously used to fullest extent since 1921.

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. Yes.

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans.

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Reinf. Concrete Dam, Tunnel and Pipe and Power house. Height of dam 23.68 feet, length of dam at top 44 feet, length of dam at bottom 24 feet. Cost of work \$75,000.00

Permit No......

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. E. E. Fry; Bonners Ferry, Idaho; Physician; Bonners Ferry,
Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Village of Bonners Ferry, Idaho, a municipal corporation, of which
I am Chairman of the board of trustees.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 17098; dated June 7, 1929; priority of same date.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Moyie River. Point of diversion is north 81 degrees 26 ' east
605 feet from the southwest corner of Sec. 11-62-2E

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Works of diversion consist of dam and tunnel through which
water is conveyed to power plant. 150 cu. ft. per second can be
conveyed from point of diversion to place of use. No name is given
to plant except Power Plant of Village of Bonners Ferry, Idaho.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for power purposes; power is used to supply lights
and power in Village of Bonners Ferry, Idaho.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. 550 H. P. is generated in plant and the power transmitted to
power lines to place of use.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 150 cu. ft. per second

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Has been used to fullest extent since 1921.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans.

RE: Permit No. 17098.
Village of Benners Ferry.

Mr. O. C. Wilson, Attorney,
Benners Ferry, Idaho.

Dear Sir:-

In looking over the records of the above permit we find that the depositions for proof of completion of works and beneficial use of water have not yet been received here. Notice of such proofs was mailed to the Benners Ferry Herald October 25, 1929, for the required four weeks publication prior to December 7, the date specified by you in the notice of proof filed. Deposition blanks for both proof of completion of works and beneficial use of water were mailed to you November 22nd.

If these proofs were made as advertised, the depositions should be mailed to this office as soon as possible. If the proofs were not made on the date advertised and the holder desires to keep the permit in good standing, the depositions of holder and two witnesses should be taken at the earliest date possible and mailed to this office, together with an affidavit showing why said proofs were not made and that no one appeared to contest same. The proofs were advertised to be made before J. H. McMally, notary public, at Benners Ferry.

Very truly yours,
GEO. N. CARTER
Commissioner of Reclamation.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS
AND
PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO,

November 22, 1929

Mr. O. C. Wilson, Attorney,
Village of Bonners Ferry, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works and beneficial use of water under Permit No. 17098

DEPOSITION OF PERMIT HOLDER.

DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On December 7, 1929, the date set for proof, the enclosed forms (two for permit holder and two each for two disinterested witnesses) should be filled out and sworn to, at Bonners Ferry before J. H. McNally, notary public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

GEO. N. CARTER ~~W. G. SWENDSEN~~

Commissioner of Reclamation.

BONNERS FERRY HERALD
Bonners Ferry, Idaho

DEAR SIR:

Enclosed you will find notice for publication once a week for four consecutive weeks prior to December 7, 1929, the date set for proof, the expense of the publication to be paid by the applicant, by O. C. Wilson, Attorney, of Bonners Ferry, to whom you should furnish proof of publication on or prior to the date set for proof.

Please acknowledge receipt of this notice and furnish this office with a copy of the first publication.

Very truly yours,

GEO. N. CARTER

Commissioner of Reclamation.

17098

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date)

10/25/29

(P. O.)

Bonners Ferry, Idaho

TO THE COMMISSIONER OF RECLAMATION:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the

Bonners Ferry Herald of Bonners Ferry, Id., published in
the county in which the works are situated.

Village of Bonners Ferry, Id.
by E. C. Cline
Attorney

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

J. A. Carr
Engineer.

17098

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 o'clock a.m. on the 7th
day of December, 19 29, at Bonnere Ferry, County of
Boundary State of Idaho, before J. H. McNally, notary public,
proof will be submitted of the completion of works for the diversion of 150
cubic feet per second of the waters of Moyle River
and of the application to beneficial use of said water in accordance with the terms and conditions
of Permit No. 17098, heretofore issued by the Commissioner of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation, holding said permit, are

Village of Bonnere Ferry, Boundary county, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the
amount of water which said works are capable of conducting to the place of use, in accordance with
the plans accompanying the application for such permit, is 150 cubic feet per second.

3. The use to which said water has been applied is ~~irrigation and domestic~~ power
purposes and the amount applied to beneficial use is 150 cubic feet per second.

4. The place where said water is used is in the NW 1/4, Sec. 14, Twp. 62 N., R. 2 E., N.M.

5. The date of priority which said user is prepared to establish is March 6, 1929.

Geo. H. Carter,
Commissioner of Reclamation.

DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Board of Trustees
Village of Bonners Ferry, Idaho

Boise, Idaho,
September 11, 1929

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 17098.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before Dec. 7, 1929. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

GEO. N. CARTER
Commissioner of Reclamation.

17098

BOND

KNOW ALL MEN BY THESE PRESENTS, That the Village of Bonners Ferry, Idaho a municipal corporation, as principal, and MARYLAND CASUALTY COMPANY, as surety, are held and firmly bound unto the State of Idaho in the full and just sum of ONE THOUSAND (\$1,000.00) DOLLARS, lawful money of the United States, to the payment of which sum, well and truly to be made, said principal and surety bind themselves, their heirs, administrators, executors and assigns, jointly and severally, under the term and conditions hereinafter set forth.

The terms of this obligation are such that, whereas the above named principal on the 6th day of March, 1929, filed in the office of the Commissioner of Reclamation, in Boise, Idaho, a certain application for permit to appropriate the public waters of the State of Idaho, the said application being thereupon numbered No. 24059, in accordance with which said application the Commissioner of Reclamation granted and issued to the said principal herein a certain permit No. 17098, a full, true and complete copy of which application No. 24059, and permit No. 17098, is on record in the office of the Commissioner of Reclamation, in Book 61, of Permits, Page 17098.

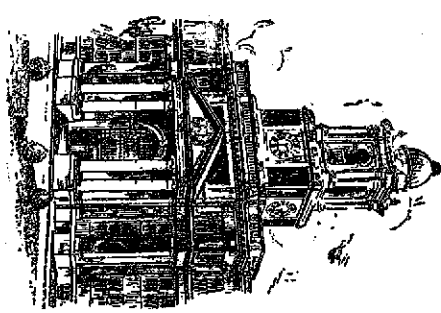

Now, if the above bounden principal shall faithfully carry to completion the said works of diversion as specified in said application No. 24059, and permit No. 17098, in the manner and form prescribed therein and within the time therein allowed, then the above obligation to be void otherwise to remain in full force and effect.

IN WITNESS WHEREOF, The said principal and sureties have hereunto set their hands and seals, this 12th day of June, 1929.
