Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each
sub-division in which water has been used and number of acres irrigated in each subdivision.) State
whether cultivated or natural meadow land and the nature of all improvements which have been made
as a direct result of said use.

Ans. The water is conveyed from the point of diversion to the
Kootenai River and used for the transportation of logs and other
forest products and for domestic purposes.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. The full capacity of the flume has been used for transporting forest products.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. In June 1924, and in July and August 1926, on several occasions, I personally saw the full capacity of the flume being used for the transportation of logs.

R. H. McCoy, Gen. Agr.,
Bonnars Ferry, Idaho

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 15794

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before June 9, 1926. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
