REPORT OF ENGINEER

This proof is for.....

In Water District No.....

1. State name of applicant and number of permit: *Gustav Bartels 13681*
2. State source of water supply: *Rutledge Creek*
3. Location of point of diversion: *N. 68° 20' W. 1/4 from the 1/4 sec. Cor. on the east side of Sec. 26 T. 64 N. R. 2 E. B. M.*
4. Describe works as they exist, giving dimensions and capacities of same: *a timber, rock and earth dam 44' crest and 4 ft height. Headgate is a box 1' x 1' set about 6 inches or half its depth into the water capacity about 1 cu ft per sec. Ditches are about 1 ft wide (average) and from 6 in to 18" deep capacity approx 1/2 cu ft per sec.*
5. State whether or not water has been turned into works of diversion: *yes*
6. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): *Water is used for irrigation and domestic use. Land irrigated is approximately 10 acres in the N.W. 1/4 of the N.E. 1/4 and 15 acres in the S.W. 1/4 of the N.E. 1/4 of Sec. 26 T. 64 N. R. 2 E. B. M. About 10 acres of the 15 acres is in uncultivated state and used thus far only for pasture and has not been in need of irrigation. However the main ditch is able to convey water to the latter.*
7. Submit map on enclosed plat, showing location and details of above description.
8. How many parties conduct water in this system? *One*
9. Give names and amount of each right: *Gustav Bartels 0.5 cu ft per sec.*
10. What large stream would the water here appropriated finally reach? *Kootenai River.*
11. Describe the various tributaries en route, from point of diversion to the principal drainage stream: *Rutledge Creek, Morris River, Kootenai River.*

Remarks: *The creek at present has only about 1/4 cu ft per sec. all of which is turned into ditches. Earlier in season the creek has perhaps 1 cu ft to 1.5 cu ft per sec maximum.*

This examination was made on the *11th* day of *October* 19*20*.

Instructions to Examiners

1. Examiners will not be permitted to examine any of the receipts in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own right in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

Re: Permit 13681.

Mr. Gustav Bartels,
Sinclair, Idaho.

Dear Sir:--

In checking over the depositions and report of the examining engineer for proof of use of water under the above permit I find that the description of the lands to be irrigated does not agree with the permit, neither does the report agree with the depositions. The land described in the permit is as follows: NW¹/₄ & SW¹/₄ Sec. 26--34N--2E. This, as you will readily see, does not agree with either the depositions of yourself and witnesses or with the report of the engineer, which are herewith returned for correction in this particular. Upon return of the corrected report and depositions, together with fees in the sum of \$4.00, being \$2.00 for each forty acre tract, or fraction, under cultivation and irrigation, license will be issued.

Very truly yours,

W. G. SWENDBERG,

One copy will be mailed to the Bonners Ferry Herald for the required four weeks publication prior to November 18th, the date set for proof, and deposition blanks, one for holder and one each for two witnesses, will be mailed to J. C. Bush, notary public.

It will also be necessary for us to have a report made by an engineer, or some one familiar with such work— one who can give a measurement of the water and the approximate amount used, allowing an inch to the acre for the land actually cultivated and irrigated. If you can give us the name of some one near you who can do this work for you, we will authorize him to do the work and will furnish report and map blanks. You should arrange with him for his fees for such services.

Very truly yours,

W. G. SWENDSEN,

Commissioner of Reclamation.

In re: Permit #13681

Gustav Bartels,
Sinclair, Idaho.

Dear Sir:

I am returning herewith, your proof of completion of works submitted under the above numbered permit for the following reasons: Under statement 6, it will be necessary for you to cross out the phrase not appertaining, as to whether or not the works were completed by July 31, 1919. Under statement 7, it will be necessary for you to indicate the carrying capacity of the works.

Our records show that the land to be irrigated, is described as the NW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 26, T. 64 N., R. 2 E., S. E., while your proof describes the land as the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 26, said township and range. If your proof is correct and our records are in error, as to the description of lands to be irrigated, it will be necessary for you to submit to this Department an application for amendment upon a blank furnished by us on request. If our records are correct in this particular and your proof is wrong, kindly correct your proof before the notary subscribing to your name, showing the correct description of the lands to be irrigated. I am also returning herewith money order in the sum of \$5.00 to be re-submitted to this Department with corrected proof.

Yours very truly,

W. G. SWERDSEN

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,
April 4, 1919

Gustav Bartels
SirClair, Idaho

Dear Sir:—

Under the terms of your permit No. ~~13681~~-----, you are required to complete your diversion works on or before-----~~July 31, 1919~~--- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. Swendsen

Dear Sir:

Mr. Bartels, for whom I recently received Water Permit No. 13681 informed me of an error in the way his name is spelled in said permit.

The permit in two places has the name written, "August Bartle". The correct way is Gustav Bartels.

Can you write in your record, the name Gustav Bartels, in parenthesis, to indicate the error, to correspond with a like change on the permit issued? If so I shall be glad to receive instructions to make the correction on the permit issued.
