Hon. W. G. Swendsen,
Commissioner of Reclamation,
State of Idaho,
Boise,
Idaho.

Dear Sir:-

Attention: Mr. C. Brown,
Chief Clerk.

As per your instruction under date of December 14th 1922 in your communication to J. M. Schnatterly, 502 Mohawk Building, Spokane, Washington, re the correction of water license issued under permit #13226 which was corrected and returned to me, receipt of which is hereby acknowledged. And was advised in said communication from you to return to you at my earliest convenience the certificate of completion of works under said permit #13226 for correction also to correspond with the corrected license herein referred to.

You will please find enclosed said certificate of completion of works indexed under permit #13226 under date of November 15th 1922 for diversion of water from East, Middle, and West Forks of Boulder Creek, Boundary County, State of Idaho, amount of fifty-seven (57) second feet which you desire to correct to read Two Hundred (200) second feet to correspond with the proof submitted under said permit and also the permit itself which has already been corrected and forwarded to me. Said completion of works being recorded in Book 46 of permits page 13226, water district #103, under priority date of July 21st 1917, and issued upon application #18703, being water license permit #13226.

Yours truly,

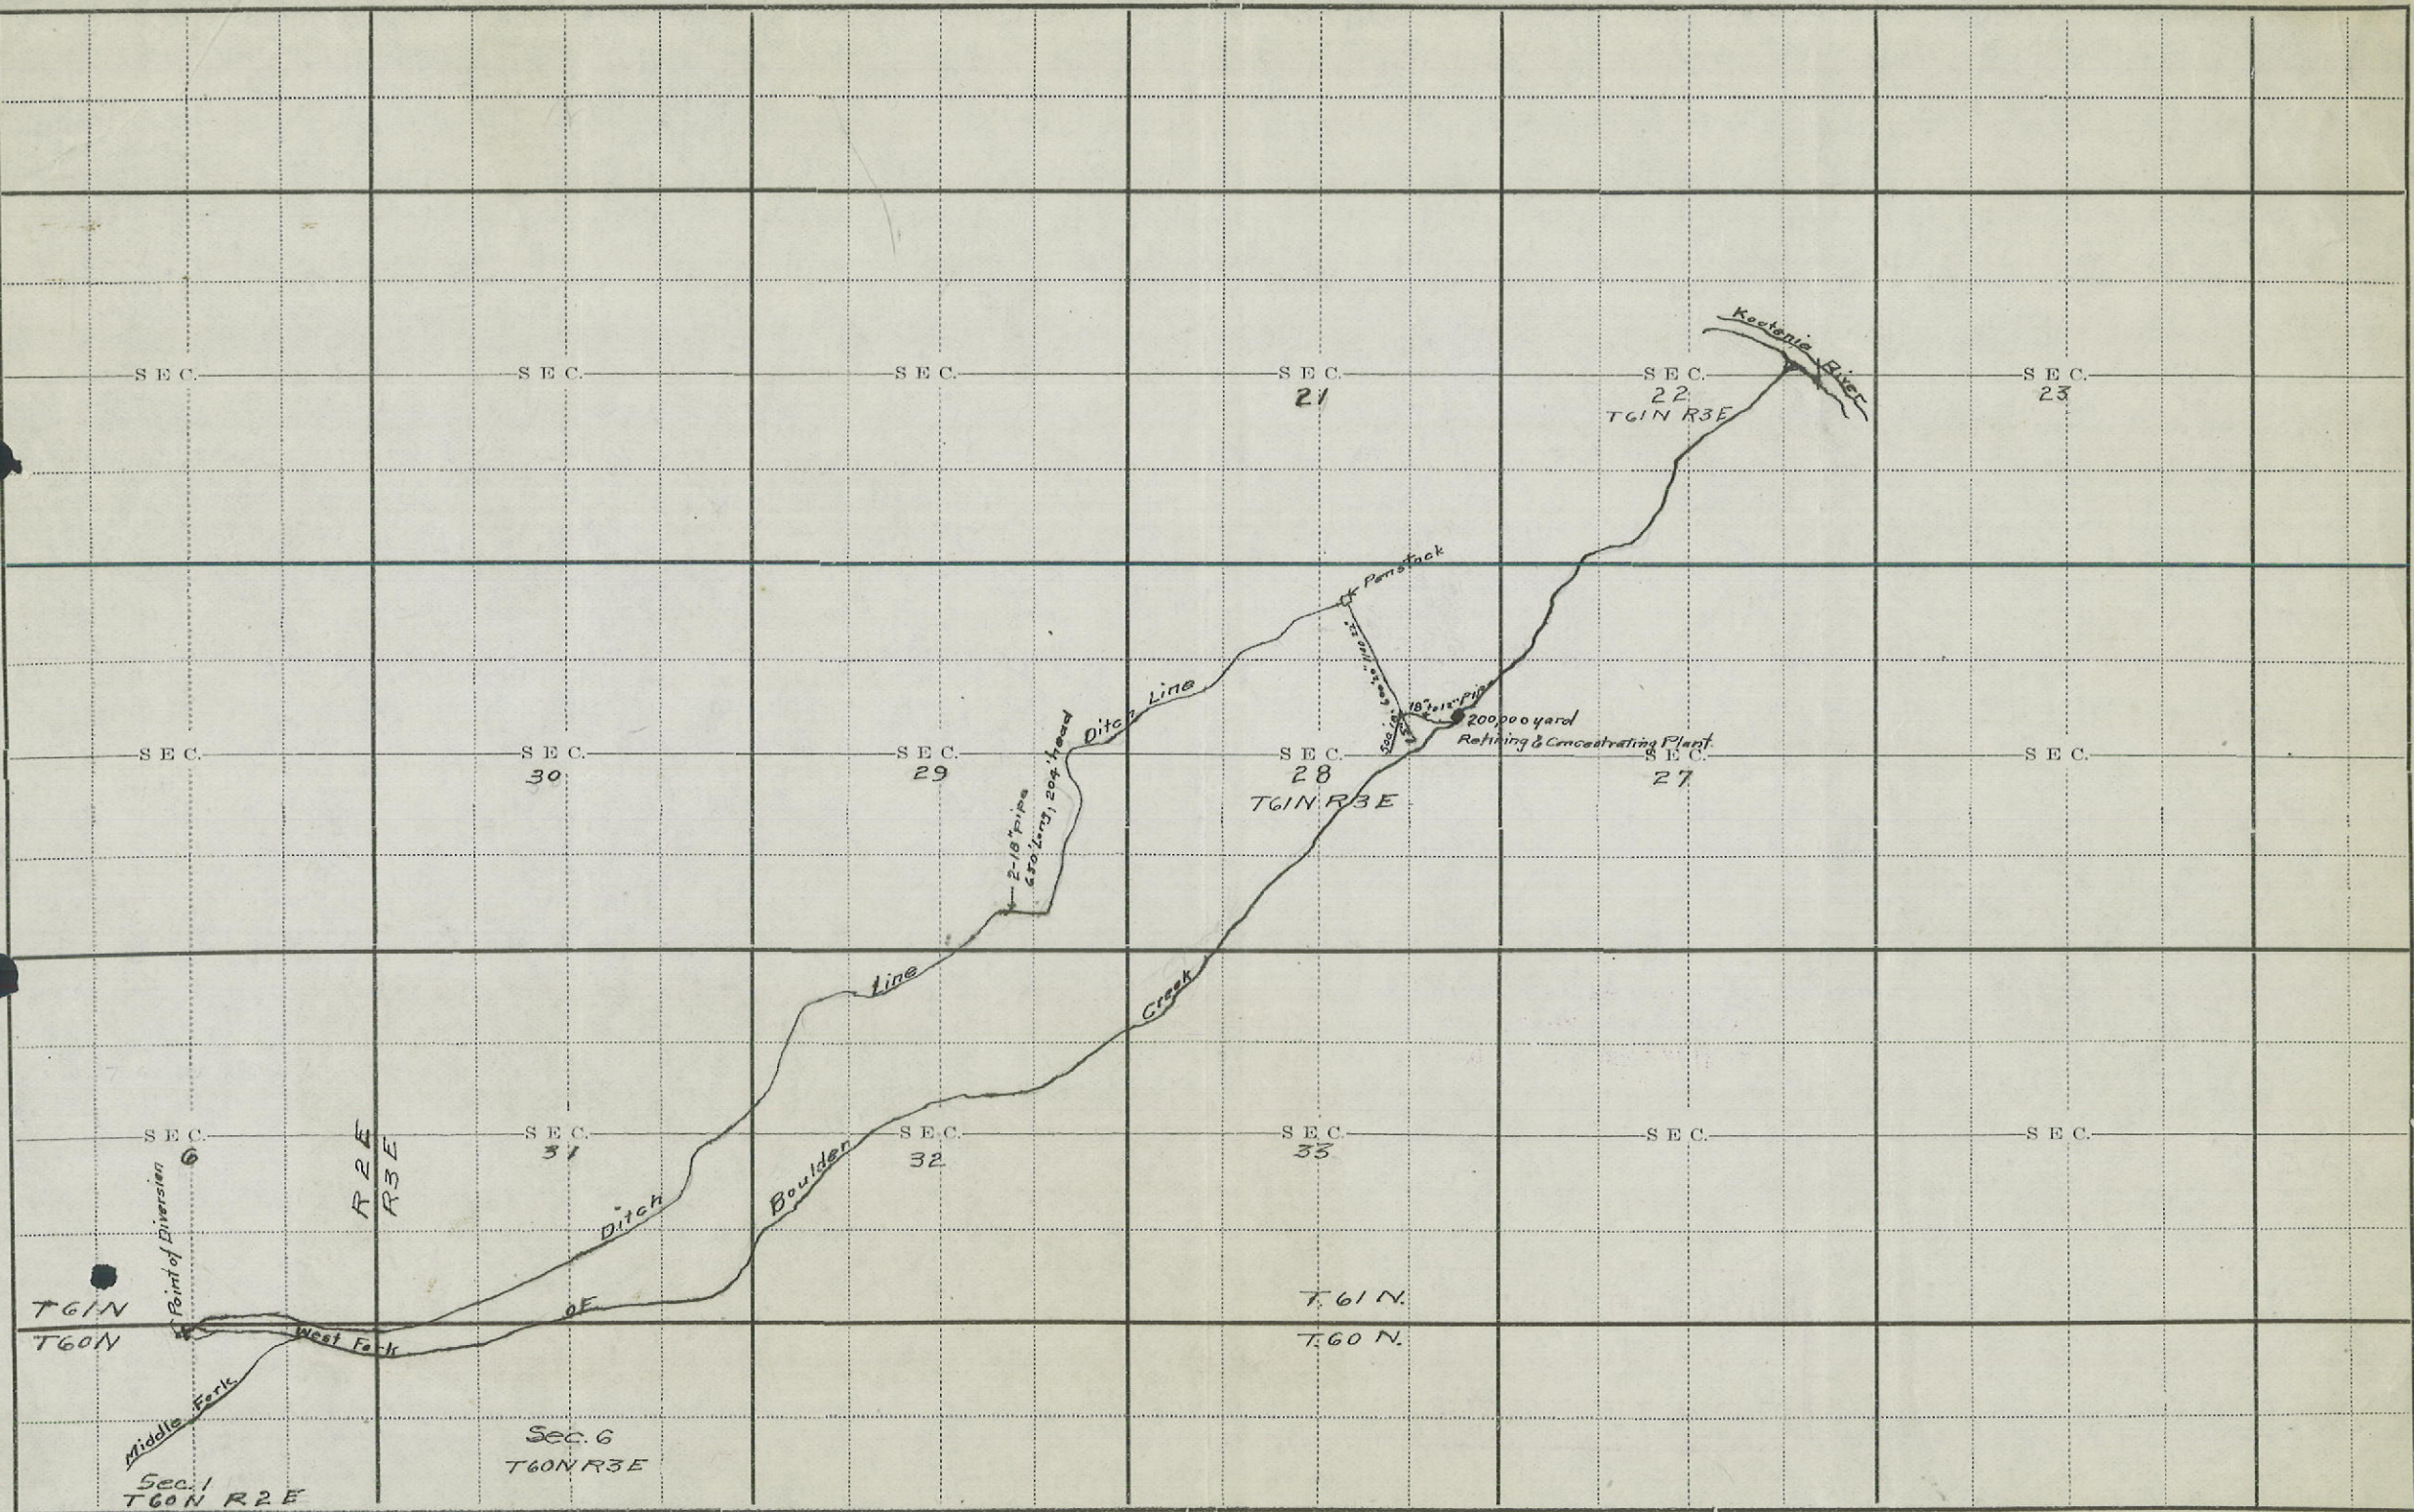

IDAHO GOLD AND RUBY MINING COMPANY,

By

Pres. & Mgr.

Re: Permits 13226-R-79

Mr. W. H. Plummer,
Attorney at law,
Mohawk Building,
Spokane, Washington.

Dear Sir:-

Per your request the 1st inst., I enclose herewith
blank notices for proof of completion of works under the above
numbered permits.

Very truly yours,

W. C. SWENDSEN,

Commissioner of Reclamation.

By

Chief Clerk.

State of Idaho
License and Certificate of Water Right

Water License No. 13226
 Water District No. 193

Amount 200 sec. ft.
 Priority 7-21-17

THIS IS TO CERTIFY that J. M. Schnatterly
 of Spokane, Washington, made application for a permit to appropriate the
 public waters of the State of Idaho, dated July 21, 19 17; that Permit No. 13226
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of
200 second feet, was issued thereunder on November 15, 19 22, showing that said works
 were completed on the 26th day of August, 19 22; and that on the 26th
 day of August, 19 22,

Idaho Gold & Ruby Mining Company

of Spokane, State of Washington, made proof to the satisfaction of the
 Commissioner of Reclamation of Idaho, of the right to use the waters of Boulder Creek &
tributaries, a tributary of Kootenai River, for the purpose of placer mining
under Use Permit No. 13226 of the State Engineer

and that said right to the use of said waters has been perfected in accordance with the laws of
 Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in
 Volume 6 of Licenses, at page 3010, on the 15th day of November, 19 22;

The right hereby confirmed dates from July 21, 19 17;

The Point of Diversion is located (See Remarks)
 in the 1/4 1/4, Sec. 36, Tp. 61 N., R. 3 E., B. M.
County of Boundary.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
 aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not
 exceed 200 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
For Placer Mining in Sec. 1, T. 60 N., R. 2 E., Sec. 6, T. 60 N., R. 3 E., Sec. 36, T. 61 N., R. 2 E., Secs. 21, 22, 27, 28, 29, 31, 32 and 33, T. 61 N., R. 3 E., B. M.					
Remarks: Points of Diversion					
(1) Gable Creek-N. 87° 59' W. 847.5' from 1/4 Sec. Cor. Secs. 28 and 29 T. 61 N., R. 3 E., B. M.					
(2) McGinty Creek-N. 18° 11' E. 1921.8' from 1/4 Sec. Cor. Secs. 31 and 32, T. 61 N., R. 3 E., B. M.

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

98-2018

Application No. 18703
Permit No. 13226
District No. 103

1. Name of Applicant: **J.M. Schnatterly,**

Postoffice address: **Spokane**

County: **Spokane**

State: **Wash.**

I. If applicant is a corporation, give: **No.**

(a) Date and place of incorporation: **No.**

(b) Amount of capital stock: **None**

(c) Amount paid in: **None**

(d) Names and addresses of directors: **None**

II. The financial resources of the applicant are:

(a) Cash on hand:

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources:

2. Quantity of water claimed: **200 (See Remarks)** cubic feet per second.

3. Source of water supply: **See Remarks** which is a tributary of

4. Location of point of diversion: feet distant from the
corner of Section , T. , R. , B. M., and is in the **(See Remarks)**
of Section , T. , R. , B. M., County of **Boundary.**

5. Water is to be used for: **Hydraulic Placer Mining and Quartz Mining and Power for Mining purposes.**

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: **See Remarks** feet distant from corner of Section
T. ; R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: **3800** H. P., under **200 ft.** feet head.

(c) Water is to be returned to **Boulder Creek** at a point **See Remarks** feet
distant from the corner of Section , T. , R. , B. M., in the
See Remarks. of Section , T. , R. , B. M.

7. Estimated cost of works: **\$10,000.00**

8. Kind of works: **Dam, ditch, flume and pipe.**

9. Height of dam **17** feet; length of dam at top **260** feet; length of dam at bottom **200**
feet; material used in dam **Timber.**

10. Size of headgate: Width **10** feet; height **5** feet.

11. Ditch: Width at bottom **12' Main ditch** feet; width at water line **Main ditch 30** feet; depth of water **Main ditch 6**
11' East Fork feet; dimensions of flume **Rectangular 8 ft. wide, 5 ft. high.**
East fork 20 feet; depth of water **East Fork 3**

Diameter of pipe **18 in. to 48 in.** inches; length of conduit **7 7/100** miles.

Average grade per mile **1.056** feet.

12. The time required for the completion of such work is **5** years.

13. The time required for the complete application of the water to the proposed use is **5** additional years.

14. The land to be irrigated is described in the following tabulation: **See Remarks.**

Schnatterly does not claim the water rights, is the point of confluence of Boulder Creek with the Kootenai River at low water, bears N. 29° 02' E. 3293 feet distant from the 1/4 section corner between sections 22 and 27, T. 61 N., R. 3 E.B.M.

(9) In addition to the main diversion dam on the West Fork of Boulder Creek, two small dams will be constructed, the dimensions of which are as follows:- Diversion Middle Fork-- Height 10', top length 50', Bottom length 30'. Diversion East Fork-- Height 10', top length 60', bottom length 35'.

C O P Y

D E E D F O R W A T E R R I G H T S.

THIS INDENTURE, made this 3rd day of July, 1922, by and between J. M. Schnatterly, of Spokane, Washington, party of the first part, and the Idaho Gold and Ruby Mining Company, a corporation, organized under the laws of the State of Washington and registered and authorized to do business in the State of Idaho party of the second part, WITNESSETH:

That the said party of the first part for and in consideration of the sum of One (\$1.00) Dollar and other valuable consideration does by this indenture grant, bargain, sell, assign and transfer unto the party of the second part its successors and assigns all of his rights, title, interest, claim and demand of, in and to, that certain water right and all rights flowing from his application for the water right, mentioned and described in his application for permit to appropriate the public waters of the State of Idaho, on file in the office of the Department of Reclamation of the State of Idaho, at Boise, Idaho, which application is numbered 18703 and filed in said office of said Department of Reclamation (or office of the State Engineer) on October 17th 1917 which permit being numbered 13226 recorded in book 46 at Page 13226 in the office of said Department of Reclamation, approved October 27th, 1917 by the then State Engineer of the State of Idaho to which reference is hereby made for greater particularity as to the waters and water rights claimed.

The said waters being the water originating and flowing within what is known as Boulder Creek, Boundary County, Idaho, and all of the tributaries thereto and sources of origin. The intent and purpose being by this conveyance to place the said second party in the same position as to all of the rights and privileges either existing or to be acquired which is now possessed or which can or could hereafter be possessed by said first party (had this conveyance not been made). Provided, however, that if for any reason the Department of Reclamation of Idaho or any court having jurisdiction of the subject matter, should hold or decide that this conveyance could not operate as a complete transfer and assignment to said second party of all of the rights herein referred to possessed and owned by said first party either past, present or to be acquired in the future, then in that event, all of the water rights and privileges hereby attempted to be transferred to said second party shall revert to and remain the property of the first party herein. The intention and purpose being to transfer said water rights to said second party if it can legally hold and possess the same, otherwise, to be retained by the said first party without prejudice, TO HAVE AND TO HOLD the said property, rights and privileges unto the said party of the second part, its successors and assigns forever.

IN WITNESS WHEREOF, the said party of the first part has hereunto set his hand and executed this deed this 3rd day of July, 1922.

Witness: (Signed) W. H. Plummer

By C. B.

Proof made August 26, 1922 and Certificate issued November 15, 1922.

Permit No. 13226

CERTIFICATE OF COMPLETION OF WORKS

To All Whom It May Concern:

This is to certify that Idaho Gold and Ruby Mining Company of Spokane, County of Spokane, and State of Washington, the holder of Permit No. 13226, issued upon Application No. 18703 bearing date of priority of July 21, 1917, authorizing the diversion of 200 second feet of the waters of East, Middle and West Forks of Boulder Creek, County of Boundary, State of Idaho, for mining and power purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 200 second feet of the waters of Boulder Creek and tributaries; that the point of diversion of said waters is about one mile southwesterly from the confluence of the east and west forks of said creek, the water being diverted from west fork, and that the water is to be used for mining and power purposes.

Witness my hand this 15th day of November, A. D. 1922.

W. G. SWENDSEN,
Commissioner of Reclamation

Hon. W. G. Swendsen,
Commissioner of Reclamation,
State of Idaho,
Boise,
Idaho.

Dear Sir:-

Attention: Mr. C. Brown,
Chief Clerk.

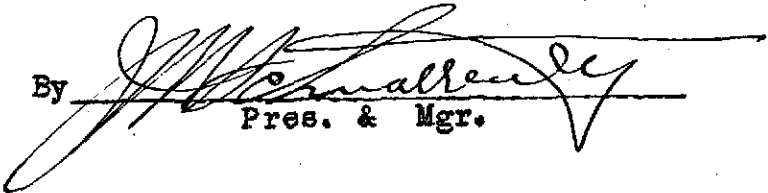

As per your instruction under date of December 14th 1932 in your communication to J. M. Schnatterly, 502 Mohawk Building, Spokane, Washington, re the correction of water license issued under permit #13226 which was corrected and returned to me, receipt of which is hereby acknowledged. And was advised in said communication from you to return to you at my earliest convenience the certificate of completion of works under said permit #13226 for correction also to correspond with the corrected license herein referred to.

You will please find enclosed said certificate of completion of works indexed under permit #13226 under date of November 15th 1932 for diversion of water from East, Middle, and West Forks of Boulder Creek, Boundary County, State of Idaho, amount of fifty-seven (57) second feet which you desire to correct to read Two Hundred (200) second feet to correspond with the proof submitted under said permit and also the permit itself which has already been corrected and forwarded to me. Said completion of works being recorded in Book 46 of permits page 13226, water district #103, under priority date of July 21st 1917, and issued upon application #18703, being water license permit #13226.

Yours truly,

IDAHO GOLD AND RUBY MINING COMPANY,

Dec. 4, 1922

Board of Reclamation.
Boise, Idaho

Attention: Commissioner of Reclamation

Gentlemen:

Referring to license and certificate of water rights, No. 13226, water district No. 103, issued to the Idaho Gold & Ruby Mining Company, and J. M. Schnatterly, covering water on Boulder Creek and tributaries, under date of 15 of November, 1922, as general counsel for said company, I have been requested to write you, so that we will understand the license and certificate of water rights.

According to the proofs made, and which are in your office, and also of the location of said water rights, 200 cubic feet for each second of time was made, claimed and proven. The license and certificate, issued by your office, only grants 57 second feet. We thought perhaps the report of the state engineer showed that this was the minimum flow of water, and perhaps the certificate was intended to cover the lowest possible flow. We would be pleased if you would advise us as to the matter herein enquired about. What we do not want is this, having expended hundreds of thousands of dollars, in developing the water of Boulder Creek, for placer mine operations, which are of vast importance to the State, to have other parties come in and locate the balance of the water flow, over and about 57 second feet, and harass and annoy us, in our extensive placer operation, when our location, claim and proof cover 200 second feet.

Will you kindly give us fully information on this subject.

Yours truly,

W. H. Plummer

Mr. J. M. Schnatterly,
308 Mohawk Building,
Spokane, Washington.

Dear Sir:

All the papers in the matter of proof of completion of works and beneficial use of water under the above numbered Permit are now on file in this office and are satisfactory. Upon receipt of fees in the sum of \$67.00, the Certificate of Completion of Works and Water License will be issued to the holder.

These fees are based upon a capacity of fifty-seven second feet. The fee for completion of works being \$5.00 for the first ten second feet and \$0.30 additional for each additional second foot or fraction, making the fee for this proof \$62.00. The fee for beneficial use of water under all permits for other than irrigation purposes is \$5.00.

Very truly yours,

W. G. SWENDSEN,
Commissioner of Reclamation

DESCRIPTION AND CAPACITY OF WORKS.

Dam 70 feet long, 15 wide and 3 feet high. A rectangular
 intake 11 feet wide. 481 feet of flume, 8 feet by 3 feet 0.2 %
 grade, capacity of 197 sec. feet. 14524 of ditch, 12 feet at
 bottom, 30 feet at 6 foot water level on a 0.02 % grade, capacity
 of 200 sec. feet. Two 18 inch iron pipe 651 feet long and 203.5
 foot head, capacity of 112 sec. feet connecting two ditches.
 From penstock at end of ditch there is 1100 feet of 20 inch
 and 600 feet of 18 inch to forks of pipe; 500 feet of 18 inch
 connecting to a 15 inch butt giant; 400 feet of 15 inch pipe
 connecting to a 12 inch butt giant; 300 feet of 18 inch, 250 feet
 of 12 inch and 200 feet of 11 inch pipe connecting with the
 concentrating and refining plant of a 200,000 cubic yard capacity.

The points of diversion on the East fork and Middle fork
 of Boulder Creek have been abandoned but the application of the
 amount of water is still applied for. The waters of these two
 tributaries are allowed to flow down their natural channels to the
 concentrating plant. This plant is built in the Boulder creek
 bed proper and in such a position that all the waters of Boulder
 Creek and tributaries must flow thru this plant. All the waters
 of the different points of diversion that are not directly diverted
 into the ditch are allowed to flow down their natural channels
 to the concentrating plant where they are used for concentrating
 purposes and carrying away wastes.

Bowl

13226

amount of water is still allotted for. The waters of these two
of Boulder Creek have been abandoned and the appropriation of the
the points of diversion on the East Fork and Middle Fork
concentrating and returning by way of a 500'000 cubic yard capacity

Permit 13226

Instructions to Examiners

1. Examiners will not be permitted to examine any of the receipts in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own right in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

13226

PERMIT NO. 13226

PROOF OF COMPLETION OF WORKS and
Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. J. M. Schnatterly- 50 yrs. Spokane, Wash. Mining Man.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Am acting on behalf of the Idaho Gold & Ruby Mining Co., a corporation of Washington, as its President. Principal place of business, Spokane, Wash.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 13226 issued Oct. 27th 1917- Date of priority proposed to be establish July 21st 1917.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water supply is provided by the East middle and west forks of Boulder Creek, establishing a confluence and the head waters of Boulder Creek proper. The point of diversion is about one (1) mile south-westerly from the confluence of the east and west forks of said creek. The water being diverted from said west fork.

Question No. 4.

Continued.

And said point of diversion being particularly described as follows: Being 557 ft. in a south-westerly direction from the quarter section corner on the south line of section 36 Township 61 North of Range 2 E. B.M. The waters of said three forks being used and diverted for the operations here ~~and~~ after mentioned in additions to the diversion by the dam on the west fork.

Question No. 5.

Timber dam 80 ft long and 6 ft. high, costing approximately \$8,000.00, diverted into a flume, 800ft long and 8 ft wide and 6 ft high, emptying into a ditch approximately 6 miles in length, 12ft wide at the bottom and 30 ft wide at the water line 6 ft above the bottom. Average depth of ditch being 9 to 10 ft. Said ditch running parallel ~~the~~ with flow of Boulder Creek at various distances there from along the mountain side. The water being used thru numerous steel pipe lines down to the level of creek approximately 6 miles from point of diversion, said water being used and intended to be used for mining operations and development of electric and hydraulic power. The amount of water capable of being converted by said works of diversion is in excess of 200 cu. ft. per second of time. Name of canal or ditch is Boulder Creek Canal

Question No. 6.

Water used and intended to be used for furnishing electric and hydraulic power in mining operations. The placer mining operations being now conducted and carried on and the quartz mining operations to be carried on in the future as fast as same can be developed and said water to be used for general mining operations as the necessity of said operations shall become apparent. The place of use is at or near Boulder Creek at all points from point of diversion and above point of diversion along both sides of said creek to the mouth thereof covering all lands from $\frac{1}{2}$ mile to one mile ~~inwidth~~ to the summit of the sub-ranges on the sides of said creek and on either side of each and all the tributaries of said creek, including the East, Middle and West forks thereof, and at such points as developments of the numerous quartz ledges existing in the vicinity of the above described lands and adjoining thereto as future developments will justify.

Question No. 7.

The manner applied has been heretofore described herein. Amount of horse power to be generated is and will be approximately 2,500 H.P.

Question No. 9.

Affiant is the person to which original permit was issued and has prior to the present application being made for taking of this proof transferred all his rights to the Idaho Gold and Ruby Mining Company. All the works and improvements for developing of said water rights and power has been handled and paid for by affiant in conjunction with said corporation, both parties having a beneficial interest therein.

Question No. 10.

All of said water and all the water of Boulder Creek and which has been supplied by its tributaries has been used in placer mining operations for at least two years and has been continuously developed for greater operations and is now being used extensively in said operations, which operations are being increased from day to day as fast as men and money can increase same. All said water during all of said time has been used continuously at both low and high water stages.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water supply is provided by the East middle and west forks of Boulder Creek, establishing a confluence and the head waters of Boulder Creek proper. The point of diversion is about one (1) mile south-westerly from the confluence of the east and west forks of said creek. The water being diverted from said west fork.

Question No. 4.

Continued.

And said point of diversion being particularly described as follows: Being 557 ft. in a south-westerly direction from the quarter section corner on the south line of section 36 Township 61 North of Range 2 E. B.M. The waters of said three forks being used and diverted for the operations here ~~and~~ after mentioned in additions to the diversion by the dam on the west fork.

Question No. 5.

Timber dam 80 ft long and 6 ft. high, costing approximately \$8,000.00, diverted into a flume, 800ft long and 8 ft wide and 6 ft high, emptying into a ditch approximately 6 miles in length, 12ft wide at the bottom and 30 ft wide at the water line 6 ft above the bottom. Average depth of ditch being 9 to 10 ft. Said ditch running parallel ~~the~~ with flow of Boulder Creek at various distances there from along the mountain side. The water being used thru numerous steel pipe lines down to the level of creek approximately 6 miles from point of diversion, said water being used and intended to be used for mining operations and development of electric and hydraulic power. The amount of water capable of being converted by said works of diversion is in excess of 200 cu. ft. per second of time. Name of canal or ditch is Boulder Creek Canal

Question No. 6.

Water used and intended to be used for furnishing electric and hydraulic power in mining operations. The placer mining operations being now conducted and carried on and the quartz mining operations to be carried on in the future as fast as same can be developed and said water to be used for general mining operations as the necessity of said operations shall become apparent. The place of use is at or near Boulder Creek at all points from point of diversion and above point of diversion along both sides of said creek to the mouth thereof covering all lands from $\frac{1}{2}$ mile to one mile in width to the summit of the sub-ranges on the sides of said creek and on either side of each and all the tributaries of said creek, including the East, Middle and West forks thereof, and at such points as developments of the numerous quartz ledges existing in the vicinity of the above described lands and adjoining thereto as future developments will justify.

Question No. 7.

The manner applied has been heretofore described herein. Amount of horse power to be generated is and will be approximately 2,500 H.P.

Question No. 9.

Affiant is the person to which original permit was issued and he has priority to the present application being made for taking of this proof transferred all his rights to the Idaho Gold and Ruby Mining Company. All the works and improvements for developing of said water rights and power has been handled and paid for by applicant in conjunction with said corporation, both parties having a beneficial interest therein.

Question No. 10.

All of said water and all the water of Boulder Creek and which has been supplied by its tributaries has been used in placer mining operations for at least two years and has been continuously developed for greater operations and is now being used extensively in said operations, which operations are being increased from day to day as fast as men and money can increase same. All said water during all of said time has been used continuously at both low and high water stages.

Question No. 11

All of said water, both at high and low stages flowing in said Boulder Creek and being supplied by all its tributaries has been used and it is necessary that the same be continued to be used in the future for the extensive mining operations carried on by said Company in addition to the water diverted by the Dam and structures here-be-fore mentioned. All the developments both prior ~~and~~ and subsequent to the appropriation herein made has been under development and improvement for period of upwards of 12 years at an expenditure of approximately \$1,000,000.00.

of diversion to place of use, and give name of canal or ditch or other works by which
of use.

Ans. See answer attached

Ques. 6. State for what purpost water is used and describe place of use. (If for irrigation, name each subdivision
in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State wheth-
er cultivate or natural meadow land and the nature of all improvement which have been made as a direct result of said
use.

Ans. See answer attached

Ques. 7. If for other than for irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. See answer Attached

Ques. 8. What is the minimum amount of water required for the specified above?

Ans. 200 cu. ft. per second of time

Ques 9. If you are not the person or representative of the corporation to whom above mentioned permit was or-
iginally issued, please state how ownership was acquired by present holder.

Ans. See answer attached

13226

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. See answer attached

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and right claimed thereunder.

Ans. See answer attached

Permit No. 13226.

PROOF OF ~~COMPLETION~~ OF WORKS AND
Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address,

Ans. James A. Welch, Age 64, Res. Bonners Ferry, Idaho.

P.O. Address, Bonners Ferry, Idaho, *County Commissioners*

John M. Schnatterly, President,

Ques. 2. Are you acquainted with *Idaho Gold and Ruby Mining Co.*, the holder of Permit No. 13226? How long have you known him and where does he reside?Ans. *I have known Mr. Schnatterly about 5 or 6 years.*
 He resides at Spokane, Washington, Place of business of said corporation is at Spokane Wash.

Ques. 3. Have you read or heard read said Permit No. 13226, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water supply conveyed by said permit are the west fork and tributaries of Boulder Creek. Headed in Boundary County, State of Idaho. The same being supplied by the water shed of the cabinet

Range of mountains, said stream flowing practically in a northeast direction. The place of diversion of water apportioned to said permit, is at a point on the west fork of said ~~Boundary~~ *Boulder* Creek about a mile from the confluence of the east and west fork of said creek in a southwesterly direction from said confluence. The works for conveying the water are from point of diversion to place of use, is by an extensive large flume 800 ft. in length, 8 ft. wide, 6 ft. high. Constructed of lumber and timber. Thence along canal approximately 6 miles in length about 12 ft. in width at the bottom, and about 50 or 60 feet wide at the top. 8 or 9 ft. in depth emptying said water into numerous steel pipe lines at the point of use, at different points along said canal.

ments which have been made as a direct result of said use.

Ans. The purpose for which this water is used. The place of use. For placer mining. Operated along and upon said Boulder Creek. Said Company owning or controlling practically all the mining ground available and which can be used as such, for the use of said water.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Said water has been diverted and structures built for the use of said water for electrical and hydraulic power, also for placer mining operation, to the full extent of the total flow of said Boulder Creek, and its tributaries

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans.

13226

Permit No. 13226.

PROOF OF ~~COMPLETION~~ OF WORKS AND
Proof of Application of Water to Beneficial Use

W. G. Swendsen,
Commissioner of Reclamation,
Boise,
Idaho.

Dear Sir:-

Returned to the city today and received your letter including notice of proof of completion of works and application of water to beneficial use as per permit #13226 as per your letter of July 10th 1922. I have filled in the time, place and name of Notary Public for State of Idaho, J. C. Bush, at his office in the court house, Bonners Ferry, Idaho, before whom proof will be made Saturday, August 26th 1922.

As the Bonners Ferry Herald published at Bonners Ferry, Idaho, is the only paper of general circulation in the County would suggest that same be published in that paper which is published on Thursday of each week and which has a large, general circulation over the entire county.

I filled in notice as I understood by your letter you desired me to do and if there is anything in connection with same that is not in keeping with your wishes, will be glad to amend same to meet your approval.

Yours truly,

IDAHO GOLD AND RUBY MINING CO.,

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2:00 O'clock P. M. on the 26th day of August, 1922, at Bonnere Ferry, County of Boundary State of Idaho, before J. C. Bush proof will be submitted of the completion of works for the diversion of 200 cubic feet per second of the waters of Boulder Creek, and tributaries, including the East, Middle and West Forks, and of the application to beneficial use of said water in accordance with the terms and conditions of Permit No. 13224, heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person or corporation, holding said permit, are Idaho Gold and Ruby Mining Company, Spokane, Washington.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of use, in accordance with the plans accompanying the application for such permit, is 200 cubic feet per second.

3. The use to which said water has been applied is ~~irrigation and domestic~~ mining purposes and the amount applied to beneficial use is 200 cubic feet per second.

4. The place where said water is used is all of the mining claims owned by the Idaho Gold and Ruby Mining Company and J. M. Schmatterly, and situated on the in Boundary County, Idaho.
~~postoffice for year of 1922~~

5. The date of priority which said user is prepared to establish is July 21, 1917.

W. G. Swendsen,
Commissioner of Reclamation.

- 103 -

13224

Re: Permit No. 13226-

Mr. J. H. Schmatterly, President,
Idaho Gold and Ruby Mining Co.,
P. O. Box 1415,
Spokane, Washington.

Dear Sir:-

Referring to yours of July 5th, would say that, in view of the fact that you are prepared to offer proof both for completion of works and beneficial use of the water, we have prepared notices for combined proof and enclose same herewith for completion as to the date, the name of the place and name of officer before whom proof will be made. The proof may be made at any place in Idaho most convenient to the holder and two witnesses and before any notary public, or other officer authorized to administer oaths in this State.

You may retain one carbon copy of the notice of proof for your own files, returning the other two to this office. The original will then be mailed to the paper designated by you for the required four weeks publication prior to the date set for proof and deposition blanks, ~~one~~ for the holder and two each for two disinterested witnesses, will be mailed to the officer before whom proof is to be made.

The deed from you to the Idaho Gold and Ruby Mining Company will be recorded and placed on file in this office. The recording fee will be seventy-five cents.

Very truly yours,

W. G. SWENDSEN,

Commissioner of Reclamation.

the application for permit for the use of these same waters heretofor made by the Idaho Gold and Radium Mining Company (a corporation which has been subsequently changed by amendments to its articles to the Idaho Gold and Ruby Mining Company) which application for permit is number 13226 and which permit is #8893 recorded in book 29, at Page 8893, approved December 14th 1912, and the purposes of said reference being made by the undersigned is to show the Department that there is no contest or controversy between the undersigned and the Idaho Gold and Ruby Mining Company and this application for final proof and for final license is made without prejudice of either party thereto for the purpose of accomplishing the objects for which said water was and is being diverted for as established in said application for permit as therein expressed.

10. Your petitioner requests that the notice of this application be published in the "Bonners Ferry Herald" a newspaper of general circulation, published at Bonners Ferry, Idaho.

J. M. Schnatterly

IDAHO GOLD AND RUBY MINING COMPANY,

By 

President.

July 5th 1922.

INDEXED

* C O P Y *

DEED FOR WATER RIGHTS.

THIS INDENTURE, made this 3rd day of July 1922,
by and between J. M. Schnatterly, of Spokane, Washington, party
of the first part, and the Idaho Gold and Ruby Mining Company,
a corporation, organized under the laws of the State of Washington
and registered and authorized to do business in the State of Idaho
party of the second part, WITNESSETH:

That the said party of the first part for and in
consideration of the sum of One (\$1.00) Dollar and other valuable
consideration does by this indenture grant, bargain, sell, assign
and transfer unto the party of the second part its successors and
assigns all of his rights, title, interest, claim and demand of,
in and to, that certain water right and all rights flowing from
his application for the water right, mentioned and described in
his application for permit to appropriate the public waters of
the State of Idaho, on file in the office of the Department of
Reclamation of the State of Idaho, at Boise, Idaho, which
application is numbered 18703 and filed in said office of said
Department of Reclamation (or office of the State Engineer) on
October 17th 1917 which permit being numbered 13226 recorded in
book 46 at Page 13226 in the office of said Department of
Reclamation, approved October 27th 1917 by the then State Engineer
of the State of Idaho to which reference is hereby made for greater
particularity as to the waters and water rights claimed.

The said waters being the water originating and
flowing within what is known as Boulder Creek, Boundary County,
Idaho, and all of the tributaries thereto and sources of origin.
The intent and purpose being by this conveyance to place the said
second party in the same position as to all of the rights and
privileges either existing or to be acquired which is now possessed

Rec'd July 10 - 1922

13226

or which can or could hereafter be possessed by said first party (Had this conveyance not been made). Provided, however, that if for any reason the Department of Reclamation of Idaho or any court having jurisdiction of the subject matter, should hold or decide that this conveyance could not operate as a complete transfer and assignment to said second party of all of the rights herein referred to possessed and owned by said first party either past, present or to be acquired in the future, then in that event, all of the water rights and privileges hereby attempted to be transferred to said second party shall revert to and remain the property of the first party herein. The intention and purpose being to transfer said water rights to said second party if it can legally hold and possess the same, otherwise, to be retained by the said first party without prejudice, TO HAVE AND TO HOLD the said property, rights and privileges unto the said party of the second part, its successors and assigns forever.

IN WITNESS WHEREOF, the said party of the first part has hereunto set his hand and executed this deed this 3rd day of July 1922.

Witness: (Signed) W. H. Plummer

(Signed) J. M. Schnatterly

PROOF OF APPLICATION TO BENEFICIAL USE OF THE WATERS OF BOULDER CREEK, SITUATED IN BOUNDARY COUNTY, STATE OF IDAHO, PERSUANT TO APPLICATION FOR PERMIT #18703 AND PERMIT #13226, RECORDED IN BOOK 46, PAGE 13226, APPROVED OCTOBER 27th 1917.

Spokane, Washington.

Department of Reclamation,
State of Idaho,
Boise,
Idaho.

Gentlemen:-

Persuant to the above numbered permit and the application and records and filings pertaining thereto on file in your office and in conformity of Section 5577 of the Idaho compiled statutes 1919, the undersigned, J. M. Schnatterly, hereby notifies the Department of Reclamation that he is prepared to prove that the waters governed by said permit and application referred to has been beneficially applied for the purpose for which it was intended and described in said application and in said permit and does hereby state:

1. The name and Post Office address of such user of said waters are J. M. Schnatterly and the Idaho Gold and Ruby Mining Company, a corporation, Post Office address: Mohawk Building, Spokane, Washington.
2. The use to which such water has been applied is for mining purposes and the operation of the necessary equipment, machinery and applications necessary therefor.
3. The amount used and to be used, two hundred (200) cubic feet per second of time and to include in any event all of the waters flowing in Boulder Creek and its tributaries.
4. The place of such use is along and parallel to said Boulder Creek and its tributaries in Boundary County, State of Idaho, covering the placer ground embraced within the legal

subdivisions described and referred to in detail in the original application for permit on file in the office of the Department of Reclamation at Boise, Idaho, being #18703 to which reference is hereby made for greater particularity.

5. The name of the canal or ditch or other works by which such water is to be and is conducted to such place of use is the "Boulder Creek Canal".

6. The relation or understanding upon which the rights to take water from such work is based, is the application for Permit #18703 and the approval thereof by the State Engineer and permit granted thereon which permit is 13226 recorded in book 46 at Page 13226, approved October 27th 1917.

7. The source of supply from which such water is diverted is, said Boulder Creek and its tributaries including the East, Middle and West Forks thereof, situated in Boundary County, State of Idaho.

8. The date of the priority which such user is prepared to establish is October 27th 1917 and for several years prior thereto. The undersigned, J. M. Schnatterly, does hereby further state that the improvements for the diversion of said water or canal and all of the appurtenance thereto has been constructed under his personal supervision and control intended for the use in said mining operations, machinery and equipment incident thereto. That said permit was taken out in his name and has been granted to him, but said waters shall be used for said mining operations, for the Idaho Gold and Ruby Mining Company, a corporation, and prior to the time of the filing of this application in the office of the Department of Reclamation said J. M. Schnatterly has by proper conveyance conveyed to said Idaho Gold and Ruby Mining Company all of his right, title and interest in and to said permit, his application and the license applied for by this petition and therefor he makes this application and petition both on his own behalf and also on the behalf of said Idaho Gold and Ruby Mining Company, the beneficial user of said waters.

9. The undersigned specially refers the Department to

PLACER MINING WITH HYDRAULIC GIANTS

Spokane, Washington, July 5th 1922.

Department of Reclamation,
Boise,
Idaho.

Gentlemen:-

Referring to your letter of June 6th 1922 which had reference to enclosing application blank forms for purpose of submitting proof of completion of work under my permit #R-79 received.

Your records will show that I not only applied for permit #R-79 for our storage purposes but also #13226 for the diversion of the waters of Boulder Creek, Boundary County, Idaho, as in said application #18703 and said permit #13226 described.

At the time these two applications were filed, on account of lack of development and impossibility of obtaining correct data and information, it was impossible to ascertain definitely the method which would be adopted for the use of the waters of Boulder Creek for the mining operations of your petitioner and the Idaho Gold and Ruby Mining Company of which he at said time had the control and was President of; therefore, two applications were made covering above methods of application of the waters.

Having completed our works for the diversion of said water by a long canal between five and six miles in length and about thirty feet in width at an expense of over Two Hundred Thousand (\$200,000.00) Dollars I have concluded to abandon so far as abandonment is necessary the permit granted #R-79 in so far as the same applies to the use and diversion of said water by reservoir storage purpose and methods. Such abandonment of said permit however, must not be construed as at all affecting or limiting or the abandonment of rights heretofor granted or applied for under Permit #13226 based on application #18703. The purpose and intention being always kept in view that we desire to use and divert said water by one method only and that

by the plan which has been developed and placed in operation.

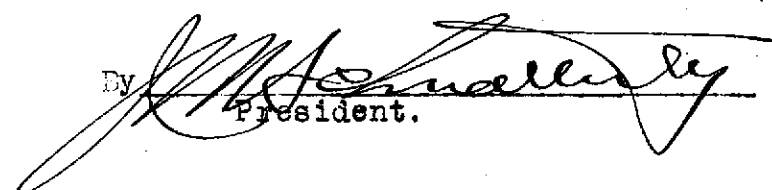

We enclose you herewith notice as provided by section 5577, Idaho compiled statutes 1919, for the purpose of making final proof of the diversion and beneficial use of the waters of Boulder Creek, Boundary County, Idaho, and we also enclose you filled out forms of notice for application to be published in the "Bonners Ferry Herald", a newspaper of general circulation of Bonners Ferry, Idaho, and we will be prepared to make proof as provided by law at the time designated therein.

Kindly notify us, or send us a copy of the notice for publication so that we can be prepared to make the proofs which you require, and the law requires, at the time designated.

Respectfully submitted,

J. M. Schnatterly

State of Idaho,
Boise, Idaho.
Gentlemen:

Please send proper blanks and blank forms necessary for final proof of the use of water, for which permit has been heretofore issued to J. M. Schnatterly and the Idaho Gold and Ruby Mining Company for mining purposes in Boundary County, Idaho, so that final proofs of the completion of the works for the appropriation of water of Boulder Creek may be made, pursuant to Section 5574 Vol. 2 of the Idaho Codes and Statutes, 1919.

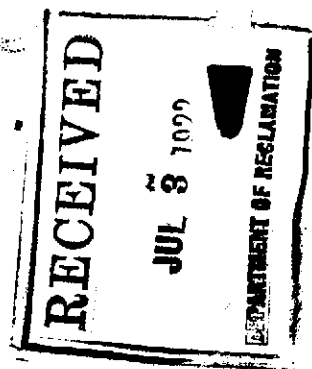

Kindly send these by return mail.

DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. J. M. Schnatterly,
Spokane, Wash.

Boise, Idaho,

July 3, 1922.

DEAR SIR:

I enclose herewith blank Form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 13226.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before Oct. 27, 1922. Upon receipt of the blank, properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

W. G. SWENDSEN.

Commissioner of Reclamation.

Dear Sir:-

Re: Application # 18703

In the matter of the correction of your application No. 18703 in accordance with the State Engineer's letter under date of Oct. 2nd. I find that the errors are due to the fact that the application was made up from the data recorded on the preliminary location maps. The maps submitted with your application show the line as located, and as the line has been shifted slightly to conform more closely with the topography of the country or to afford more stable construction, same does not agree exactly with the preliminary line.

The point of diversion of West Fork of Boulder creek has been moved down stream as you will note, thus changing the tie to the 1/4 section corner on the south line of section 36-61-2.

The point of diversion of Middle Fork is the same as on the preliminary survey but I find that the tie as previously calculated was in error, the tie having been figured to the point where the line crosses the south line of the section in place of to the 1/4 section corner on the south line of section 36-61-2.

The power plant site has been shifted to the northwest upon final location to the end that a more suitable location might be obtained.

McGinty (Pipe creek) and Gabie creeks, tributaries of Boulder creek, the waters of which have heretofore been acquired, are shown only as a part of the system and no other connection with your present application. The tie of Gabie creek is the same as the original but on account of a slight change to permit the installation of the control works at McGinty creek, the tie of that point of diversion has been shifted.

In accordance with paragraph two of Mr. Smith's letter the point of diversion of West Boulder creek has been designated upon the map.

Yours very truly,

J. M. Schnatterly
Engineer.

Re: Application No. 18703.

Mr. J. M. Schnatterly,
Box No. 1415,
Spokane, Wash.

Dear Sir:

Application No. 18703 is herewith returned again for the following corrections:

The maps and application do not agree as to the points of diversion from the West Fork and Middle Fork of Boulder Creek. Points of diversion from West Fork is not shown at all on the maps. Same should be.

Maps show points of diversion from McGinty and Gabie Creeks, yet no mention is made of these two creeks as sources of supply in Paragraph 3 of the Application.

On Sheet 2, the location of the power plant does not conform with "Remarks" in regard to same.

This corrected application should be in our hands prior to October 23rd in order to retain priority. Maps are being ~~enclosed~~ ^{sent} under separate cover.

Very truly yours,

J. H. SMITH,

State Engineer.

Dear Sir:-

Enclosed herewith application for permit #18703 returned for correction in the way of maps to conform with your department, which I am registering to you under separate cover and trust that same will be satisfactory as our engineer has prepared them off of the actual survey and he writes me that he has prepared them to comply with your instructions sent out from your office.

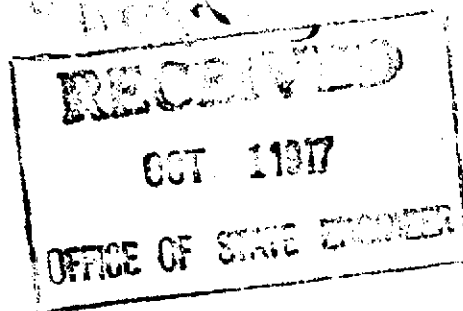

The permit covers the same work, the same survey, the same property, the same use and the same point of diversion and return as provided in the original permit taken out by Idaho Gold & Ruby Mining Company, being permit #8893.

Trusting that this complies with all the requirements.
