INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: Water Right 98-2016

Dear Mr. Roady:

I received the letter you sent to notify us of problems with the place of use, point of diversion, and source descriptions for Water Right 98-2016 in our database. As you suggested, I changed the place of use and point of diversion descriptions to Range 3 West instead of Range 4 West. I also changed Kootenai Creek to Kootenai River.

I looked for a government plat or other indication that Township 65 North, Range 3 West, has been surveyed, but apparently it has not been. Therefore, I did not change the quarter-quarter designations for the place of use and point of diversion. We can continue to rely on the metes and bounds type description shown on the water right license and in the field report to define the place of use and point of diversion. The quarter-quarter designations, which are based on the field examiner's map, remain approximations.

I have enclosed a printout from our database, a copy of the license, and a copy of the examiner's report for your records.

If you have a better map or other information to submit, please send it to me for inclusion in your water right file. If you have any questions, please contact me at 208-327-7946.

Sincerely,

RE: Water Right # 98-02016

Water Rights Section:

Recently while reviewing our permit, we discovered the following typographical errors: 1) The legal description should correctly read **Twn 65N Rge 3W Sections 10 & 11**, the permit presently incorrectly reads Range 4W and only Section 11; the point of diversion is actually on or near the section line between Sections 10 & 11. 2) The subdivision breakdown within the sections should read **E1/2 Section 10 & W1/2 Section 11**; [please note these sections are not complete sections due to the proximity of the International border with Canada]. and 3) Boundary Creek is a tributary to the **Kootenai River** not Kootenai Creek . I have attached a copy of our water right profile report with the errors circled and corrections penciled adjacent. We would appreciate your help in correcting these errors. Thank You .

RE: WATER RIGHT 98-02016

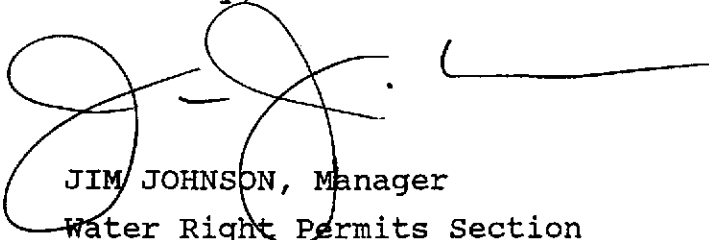

Dear Mr. Roady:

The Department is in receipt of the correspondence changing ownership of the above referenced water right to you. We have modified our records to reflect this change in ownership and a computer generated report is enclosed.

Just a reminder, because of a law that went into effect July 1, 1996, all water right owners are required to report change of address or ownership to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee to the water right owner. If you have other water rights that haven't had the ownership updated please contact the department as soon as possible.

If you have any questions regarding this matter, please feel free to contact me at (208) 327-7947.

Gentlemen:

Replying to your letter of the 5th would say that two proofs are required to be made under every permit. The first is for completion of the works and the second for use of the water. It is upon the second proof that final license is issued. In the application for permit one additional year was asked for the final proof, thus making April 5, 1915, the date for said proof. The blanks should be filled out and returned to this office in time for the required four weeks publication of the notice, the same as in the first instance.

Permit 9192-Idaho Continental Co.

Mr. C. J. Chaffins,
Sandpoint, Idaho.

Sir:

On April 1st, the Idaho Continental Company is to make proof of completion of works for the diversion of 50 second feet of the waters of Boundary creek, in Bonner county, Idaho. Before this proof can be accepted by us, it will be necessary for the holder to have an examination made by some competent engineer. I am, therefore, enclosing you the necessary blanks for report and map and am today writing to Mr. A. Klockmann, at 718 Paulsen Bldg., Spokane, advising him that you have been authorized to do this work and asking him to arrange with you for your fees.

PROOF OF COMPLETION OF WORKS

The Idaho Continental Co.,
c/o R. S. McCrea,
Clerk of Dist. Court.,
Sandpoint, Idaho.

Boise, Idaho, March 11, 1914.

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of completion of works under your permit No. 9192.

Deposition of Permit Holder,

Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On April 1st, the date set for proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Sandpoint, before R.S. McCrea, Clerk of Dist. Court.
2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$5.00, where amount claimed does not exceed 10 second feet. Where more than 10 second feet is claimed, the fee required is 30 cents per second foot. When these have been received, together with report of the examining engineer, if everything is properly executed, Certificate of Completion of Works will issue.

Yours truly,

F.P. KING, ~~A. E. ROBINSON~~

Dear Sir:

On January 28th you wrote to us with regard to our Permit 9192, and on receipt of your instructions I returned the papers to you on the 30th.

I have been watching the Pend d'Oreille Review of Sandpoint since, looking for the publication in connection with our proof, but in the issue of February 20th, just received here, I find nothing yet.

Kindly let me know, if the matter has been overlooked on either end, or if you intend to set a new date for the hearing, so that I can set my dates accordingly.

Sir:

Am just in receipt of your letter enclosing notices for proof of completion of works under above permit. In reply would say that Form 11 should be signed by a competent engineer and I accordingly return same herewith. If these notices are returned to us at once, there will still be time for the required publication.

We cannot advise you as to the publication fees as these are paid direct to the publisher of the paper. After the notice has been sent to the Pend d'Oreille Review, you will receive notice from the publisher as to the fees.

The fees due this office should not be sent until the depositions have been received and accepted at this office, at which time you will be notified.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Idaho Continental Co.

A. Klockman,
Port Hill, Idaho.
Dear Sir:

Boise Idaho, Jan. 1, 1914.

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 9192.

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which it is to be submitted, which proof MUST be made on or before April 5, 1914.

Upon receipt of this blank properly filled out, notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

F. P. KING,

State Engineer

Bond.

KNOW ALL MEN BY THESE PRESENTS, That The Idaho-Continental Company,
inc. under the laws of the State of Washington and Reg. in the State
of Idaho, as principal, and

of Ignatz Weil and F. E. Catlin

of Sandpoint, Idaho, as sureties, are held and firmly bound unto the State of Idaho in
the full and just sum of One Thousand (\$1000.00) Dollars,
lawful money of the United States, to the payment of which sum, well and truly to be made, said
principal and sureties bind themselves, their heirs, administrators, executors and assigns, jointly and
severally, under the terms and conditions hereinafter set forth.

The terms of this obligation are such that, whereas the above named principal on the thir-
teenth day of February, 1913, filed in the office of the State Engi-
neer in Boise, Idaho, a certain application for permit to appropriate the public waters of the State
of Idaho, the said application being thereupon numbered No. 9192, in accordance with which
said application the State Engineer granted and issued to the said principal herein a certain permit
numbered No. 9192, a full, true and complete copy of which application No. 9192 and permit
No. 9192, is of record in the office of the State Engineer, in Book 30 of Permits, at page 9192

Now, if the above bounden principal shall faithfully carry to completion the said works of diver-
sion as specified in said application No. 9192 and permit No. 9192, in the manner and form
prescribed therein and within the time therein allowed, then the above obligation to be void, other-
wise to remain in full force and effect.

IN WITNESS WHEREOF, The said principal and sureties have hereunto set their hands and
seals, this 19th day of April, 1913.

WITNESSES:
