CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 6th day of December, 1996.

RE: Recommendation Adjustment(s)

The final license recommendations for Right 97-07362 are based on the following:

C. DIVERSION AND DELIVERY SYSTEM

1. Point(s) of Diversion:

NESWSW, S29, T57N, R4W

H. RECOMMENDATIONS

Domestic	1/1 - 12/31	0.04 cfs	1.2 afa
----------	-------------	----------	---------

The 10-acre description required for a point of diversion from a spring is the NESWSW, S29.

The examiner has made a theoretical calculation based upon 60 psi and states that there was no way to measure what was actually flowing into the spring development. It is not unreasonable to allow the standard 0.04 cfs for domestic use under this right taking into consideration typical spring flow fluctuations and the high psi used in the calculation.

Dear Permit Holder:

I have returned a copy of the Proof of Beneficial Use form submitted in connection with the above referenced water right. You state on the proof form that you are diverting 0.04 cfs for domestic purposes. Before the department can process the proof, it must be accompanied by the appropriate license examination fee. The license examination fee for a rate of 0.04 cfs from a surface water source is \$50.00.

Additionally, you state on the proof that you have previously paid the fee. You did submit \$50.00 to file the application for permit, however, the license examination fee associated with the proof is a separate fee.

Please return the copy of the proof along with the \$50.00 license examination fee within thirty (30) days of receipt of this letter. Please address your correspondence to my attention.

If you have any questions or if I can be of any assistance, please feel free to contact me at (208)327-7900.

Subject: Water Appropriation Application for Permit Number 97-07362

Dear Ms. Daniels:

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N009201. To assist us in providing you with prompt, accurate service, please refer to the above Application for Permit Number in all future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resource Agent
