DATE: November 29, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 97-07360 are based on the following:

A. GENERAL INFORMATION

3. Source: unnamed stream tributary to Pend Oreille River

H. RECOMMENDATIONS

1. Recommended Amounts

Wildlife Storage	1/1 - 12/31	0.7 afa
Recreation Storage	1/1 - 12/31	0.7 afa
Fire Prot. Storage	1/1 - 12/31	0.7 afa

The examiner confirms that the spring runs over land into the pond, thus the source is actually an unnamed stream from the spring. After tracking the unnamed stream on the USGS map, the tributary is the Pend Oreille River (same as 97-07359). No amendment is necessary; this is only a clarification of the originally intended source.

Fire protection from storage does not need to be listed because water can only be withdrawn from the storage facility to fight or repel fire.

PROOF DUE NOTICE

RE: PERMIT NO. 97-07360

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Subject: Water Appropriation Application for Permit Numbers 97-07359
and 97-07360

Dear Mr. and Mrs. Gebhardt:

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N008927. To assist us in providing you with prompt, accurate service, please refer to the above Application for Permit Number in all future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resource Agent
