PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 97-07342

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating the permit since proof was submitted after the proof due date. Please note that the priority date has been advanced to December 29, 1993, pursuant to Section 42-218a, Idaho Code.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, please contact the **NORTHERN** Regional Office of the department in Coeur d' Alene at (208) 769-1450.

LAPSE NOTICE

RE: PERMIT NO. 97-07342

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated September 30, 1999. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: Permit No. 97-07342

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 7, 1999. (See Order Extending Proof of Beneficial Use dated September 7, 1999.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 7, 1999. (See Order Extending Proof of Beneficial Use dated September 7, 1999.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

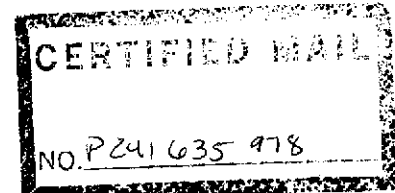

Sincerely,

JULIE L. YARBROUGH, Administrative Assistant

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 97-07342

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Sincerely,

Shelley W. Keen

Dear Mr. Anderson:

REFERENCE: WATER RIGHT FILING FOR LAMB CREEK 97-07342

In your recent meeting with Chip Corsi of my staff, you indicated you could modify your proposed diversion from Lamb Creek downward to 0.79 cfs, with water intermittently pumped from the creek into storage ponds. Since that time, we have discussed flow measurements with the Division of Environmental Quality, which is conducting a study of the lake and tributaries. Their data from 1994, a dry year, indicate base flows in lower Lamb Creek of about 3 cfs.

Based on this information, your reduction in the proposed diversion, and the plan to divert water only on an intermittent basis, we believe the potential impact to the fishery is significantly reduced. Provided your water right request is modified to meet these conditions, and the diversion intake is adequately screened (1/4 inch or smaller mesh, approach velocities less than 0.5 ft/sec), we will have no objection to the water right.

We appreciate your willingness to work with us to reduce potential impacts to fish. Please contact Chip Corsi of my staff if you would like to discuss any of this further.

Sincerely,

David W. Ortmann

Gentlemen:

Your protest against the approval of the above-referenced application has been received and a copy has been sent to the applicant. The Department suggests that you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the Application for Permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculation?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?
6. Will the proposed use be contrary to the conservation of water resources within the State of Idaho?

You will be notified at a later date of the time and place of the conference and/or hearing. If we can be of any assistance, please contact us.

Dear Bob:

REFERENCE: 97-07342 PRIEST LAKE GOLF CLUB/LAMB CREEK

We have reviewed the Priest Lake Golf Club's application to divert 1.12 cfs from Lamb Creek to irrigate the Priest Lake Golf Club development.

Lamb Creek currently supports both cutthroat trout and brook trout and provides a good local fishery. Diversion of 1.12 cfs would result in a substantial reduction in flow in this small stream. Substantial flow reductions, particularly from small streams during low flow periods, create a corresponding loss of fish habitat. Fish populations and public fishing opportunity would be reduced. Because of the potential impacts to the fishery from this proposed diversion, we are protesting this application.

We invite the applicants to provide us with information regarding their project, and will attempt to find a resolution to our protest. If the applicants can demonstrate their project will have no impact on the Lamb Creek fishery, we will withdraw our protest. Chip Corsi of my staff will be the contact person.

Gentlemen:

Subject: Water Application for Permit Numbers 97-7342 & 97-7343.

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Applications for Permit to Appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N7171. Please refer to your Applications for Permit Number in future matters concerning this water right application.

Your Applications for Permit are currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your applications are not protested, they will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the applications are not protested. If your Applications for Permit are protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Applications for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Applications for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Applications for Permit are for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,
