TWN RGE SEC

61N 04W 9 Lot 1 (SENE)

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Place of use is located within Lot 27, Diamond Park Addition.
6. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 20th day of JUNE, 1995.

=====

The following adjustments were made on the field exam to the total rate of diversion and to the legal descriptions of the point of diversion and place of use.

1. The point of diversion and place of use are identified in the permit and verified by the examiner and county assessor as being within government lot 1 of Section 09. However, as verified by the Bonner County assessor, Government Lot 1 ~~is~~ corresponds to ~~located within~~ SENE, S09, T61N, R04W not NESE, S09, T61N, R04W as permitted and recommended by examiner. The legal description of the point of diversion and place of use have been modified to reflect this clarification.
2. Rate of diversion for domestic use for 1 home is limited to the permitted rate of 0.03 cfs.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 97-07328

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Karen L. Gustafson

Re: Permit No. 97-07328

Dear Permit Holder:

On December 4, 1992, the Department corresponded with you (copy enclosed) and explained the need to submit a \$50 license exam fee and return the original proof of beneficial use submitted in connection with the above referenced permit. As of this date, we have received neither the original proof or \$50 fee.

Since you are not technically required to submit either the proof or fee until December 1, 1993, the Department will assume that this is what you wish to do. Therefore, your file will be placed back on the shelves. We will notify you 60 days prior to your proof due date that you need to submit the proof and fee. The Department does want to inform you, however, that we cannot conduct a field exam and continue with the licensing process until the proof of beneficial use and license exam fee have been properly submitted.

In the mean time, if you have any questions or if we can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

Re: Permit No. 97-0732865-11918

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. Unfortunately, it is unacceptable as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater (well) source.
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

As you can see, you do not meet requirement #1 since you use Priest Lake (surface) for your source. Therefore, a license examination fee of \$50 applies to your permit. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson

Re: 97-7328

Dear Mr. and Mrs. Bryant:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application For Permit To appropriate the Public Waters Of The State Of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Allen Beardslee
Sr. Water Resource Agent

RE: Application for Permit.

Dear Sir:

We are returning your Application for Permit along with Receipt Number N005717 for the amount of \$30.00.

Your Application for Permit is not acceptable. Please add or correct the following items:

ITEM NUMBER 3. (POINT OF DIVERSION)

I have enclosed a USGS topographical map with your Application for Permit. The legal description for the point of diversion must be listed to the nearest 10-acre tract (for example: SE1/4 NE1/4 SW1/4) Section, Township and Range as established by the Public Land Survey. The Point of Diversion description should reflect the same location as marked on the map.

ITEM NUMBER 4. (PURPOSES AND AMOUNTS)

If you are irrigating more than 1/2 acre or more of lawn and garden, the purposes is considered IRRIGATION, if you are irrigating 1/2 acre or less the use should be listed as DOMESTIC. twelve gallons per minute converts to 0.03 CFS this amount should be added to Item Number 4. This rate is acceptable for either domestic or irrigation uses.

ITEM NUMBER 9. (PLACE OF USE)

Depending on the use, you will either place a "D" for domestic purposes, or list 1.0 acres for irrigation uses, in the appropriate 40 acre tract tabulation. Also, please list the Place of Use on the map. The map and the 40 acre tract description on Item Number 9 must match.

Upon your request, we can assist you in determining the 40 acre tract from your mark on the USGS map.

If I can be of further assistance, please feel free to contact me at this office.

Thank you,

ALLEN BEARDSLEE

RE: NOTICE OF APPLICATION - L-97-S-939 - BRYANT, E.

Enclosed is an application and plats requesting permission to install domestic waterline and dock w/ two 2' x 4' cement piers in Priest Lake.

Please submit your recommendations to me by August 7, 1992, regarding the likely effect of the proposed encroachment upon adjacent property, lake, and streambed value factors of navigation, fish and wildlife habitat, aquatic life, recreation, aesthetic beauty, or water quality. If you have concerns or are opposed to the project as proposed, please list your specific reasons for concern or opposition and any facts or documentation to support your position.

You should recommend alternate plans if they are economically feasible to accomplish the purpose of the proposed encroachment. You should also recommend any mitigation measures or special restrictions/provisions you would like included as part of the permit if one is issued.

If you do not submit a comment, I will assume you have no objections to the application. If you have questions concerning the application, I suggest you contact the applicant. If the applicant cannot answer your questions, please contact me at 208/765-5235.
