PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 97-07327 Telephone No. 208-448-1997
2. Name(s) of Permit Holder(s): MIKE BAYS D.O.A. / McABEE Falls Ranch
3. Mailing Address: P.O. Box 1855, Priest River, 83856
4. Source of Water: Priest River If GROUNDWATER (well), Date Drilled: mo. _____ / yr. _____
 - a. Well Driller: _____ Drilling Permit Number: _____ - _____ - _____
 - b. **OPTIONAL:**
Pump Horsepower: 102 Pressure (psi): 105 Dynamic pumping level (ft): _____
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
Irrigation (No. of acres): 42 Other: _____
6. Total rate of diversion and/or volume for which proof is submitted: .80 cfs OR _____ acre feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device:	Is a measuring device required?	Yes <u>X</u> or No _____
	Has the measuring device been installed?	Yes <u>X</u> or No _____
Flow Measurement Port:	Is a flow measurement port required?	Yes <u>X</u> or No _____
	Has the measurement port been installed?	Yes <u>X</u> or No _____
8. Fee Enclosed: \$ 100.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: MIKE BAYS Telephone Number: 448-1997
Address: P.O. Box 1855 Priest River
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Permit To Appropriate Water

NO. 97-07327

Proposed Priority: August 10, 1992 Maximum Diversion Rate: 0.84 CFS
This is to certify, that **MIKE BAYS**

DBA MC ABEE FALLS RANCH
HCR 6 BOX 33A
PRIEST RIVER ID 83856

has applied for a permit to appropriate water from:

PRIEST RIVER tributary of **PEND OREILLE RIVER**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	03/15 to 11/15	0.84 CFS

LOCATION OF POINT(S) OF DIVERSION: NWSESE , Sec. 18, Township 57N, Range 04W
BONNER County

<u>PLACE OF USE:</u>	<u>IRRIGATION</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
<u>TWN RGE SEC</u>					
57N 04W 18	NESE 24	SESE 18			42

Total number of acres irrigated: 42

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **March 1, 1996**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. A flow measurement port or other device as specified by the Department shall be installed by the right holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
5. The issuance of this right in no way grants any right-of-way or easement across the land of another.
6. Use of water under this right may be affected by an agreement between the protestant and the right holder.
7. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

JUL 08 1993

Permit To Appropriate Water

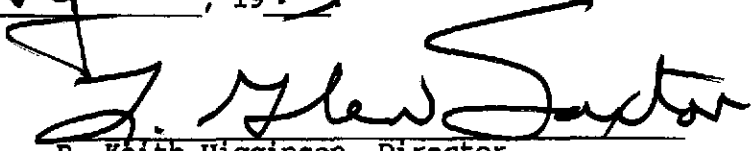

NO. 97-07327

CONDITIONS/REMARKS:

8. An intake screen of 1/4 inch or smaller mesh shall be installed at the point of diversion to prevent any negative impact on juvenile fish.
9. The approach velocity at the point of diversion shall not exceed 0.5 feet per second.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 97-07327

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning the field examination, please feel free to contact the NORTHERN Regional Office in Coeur d'Alene, at 208)769-1450.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 97-07327

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

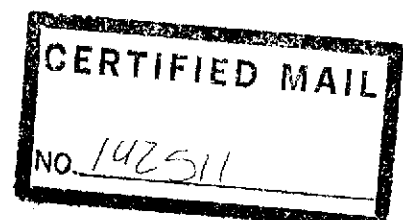

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 97-07327

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Sincerely,

BRENDA L. MILLER
Water Resource Agent

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PROTESTS AGAINST)
APPROVAL OF APPLICATIONS FOR PERMIT) NOTICE OF CONFERENCE
NO. 97-7326 AND 97-7327, BOTH IN THE)
NAME OF MIKE BAYS DBA MCABEE FALLS)
RANCH.)

On August 10, 1992, Mike Bays DBA McAbee Falls Ranch filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. The Department received protests against approval of said applications from Robert Savage on August 25, 1992, and from John F. Weyant on September 3, 1992. The protest of John F. Weyant was withdrawn on September 29, 1992.

The Department has set the matter of protest for a conference for Thursday, January 21, 1993, at 10:30 AM, in the Conference Room of the Northern Regional Office of the Idaho Department of Water Resources, 1910 Northwest Blvd. Suite 210, Coeur d'Alene, Id. 83814. The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42 and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Practice and Procedure of the Department of Water Resources, and Rules 4 and 5 of the adopted Rules and Regulations of Water Appropriation of the Department of Water Resources.

The following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use ~~reduce~~ the quantity of water under existing water rights?

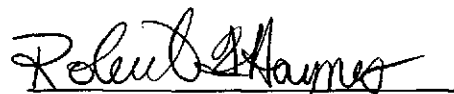

JUL 08 1993

*Original
document in
97-7326.*

2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?
6. Will the proposed use be contrary to the conservation of water resources within the state of Idaho?

Opportunity shall be afforded all parties of record to respond and present evidence and argument on all issues involved. Participants are required to furnish enough copies of exhibits for all parties of record. If anyone requires special accommodations for a disability in order to participate in or attend, please advise the department within ten (10) days prior to the conference &/or hearing.

Dated this 6th day of January, 1993.

ROBERT G. HAYNES, P. E.
REGIONAL MANAGER

I hereby certify that on the 6th day of January, 1993, I mailed a true and correct copy, postage prepaid, of this document to the applicant(s) and protestant(s) listed:

Patricia M. Stypa
Secretary/Office Coordinator

JUL 08 1993

CONFERENCE AND HEARING INFORMATION
IN THE MATTER OF APPROVAL OF AN APPLICATION FOR PERMIT

In accordance with Idaho Code, Section 42-203, the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?
6. Is the proposed use contrary to conservation of water resources within the state of Idaho?

BURDEN OF PROOF

The Applicant has the initial burden of proof on issues 1, 2, 3, 4, & 6 above; that is, the applicant has the burden of coming forward with evidence for evaluation of those criteria.

The initial burden of proof on Issue 5, local public interest, lies with both the applicant and protestant as to factors which they are most knowledgeable and cognizant of. The applicant has the ultimate burden of persuasion with respect to this issue.

PROCEDURE

The procedure normally followed by the department in arriving at a decision on the issues which must be considered to first hold a conference in the matter and then, if necessary, hold a hearing. If a hearing is held, a written decision is issued based on the hearing record.

CONFERENCE

Preliminary to holding a hearing, a pre-hearing conference is held to familiarize the department and the parties with the matter and to determine if a resolution of the protest(s) is possible without the need for a hearing.

At the conference, the department may formulate and simplify the issues, obtain admissions of fact and of documents which will avoid unnecessary proof, arrange for the exchange of proposed exhibits or prepared expert testimony prior to the hearing, limit the number of witnesses, consolidate the examination of witnesses, and advise the parties of the procedure which will be followed at any subsequent hearing.

RECEIVED

JUL 08 1993

HEARING

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be issued and the parties will be afforded an opportunity to file exceptions to the proposed decision and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 42-1701A.

The parties, by written stipulation, may waive their right to a proposed decision. The failure of either party to waive a proposed decision will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a final decision. Waiver of the Section 42-1701A proposed decision will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the district court.

Under the provisions of Idaho Code, Sections 42-1701A and 67-5215, any court review of the Department's decision on appeal shall be confined to the record created before the Department.

EFFECT OF FAILURE TO APPEAR AT A CONFERENCE OR HEARING

Failure to appear at the time and place set for conference or hearing by the applicant or protestant(s) may allow the Department to dismiss without prejudice the protest(s) or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

RE: Water Rights Application by Mr. Bays on Priest River

Mr. Weyant:

I consulted my North Idaho Regional Office (NIRO) staff in Coeur d'Alene to obtain more information about the situation described in your letter regarding the subject matter. They have been informed by the local Department of Water Resources (DWR) office that there are two application for water rights from Mr. Bays. Both have been protested by a third party in addition to your protest. No mention in the application materials was made of filling a pond or creating wetlands. NIRO staff also contacted the Army Corps of Engineers, The federal agency charged with issuing permits for encroachment activity in wetlands. The Corps has not been notified regarding this project, which is appropriate since it does not involve casting material into an existing wetlands.

Generally, DEQ does not comment on water rights applications applies for through DWR. If the permitting agency feels water quality may be impacted by the action, DEQ review of the application may be requested. Our role in the permitting process is that of comment on applications for encroachment activity into State waters. These permitting duties are assigned to the Department of Lands (IDL) for lakes and to DWR for rivers and streams. DEQ must also certify that federal applications for encroachment into navigable waters and wetlands meet State Water Quality Standards.

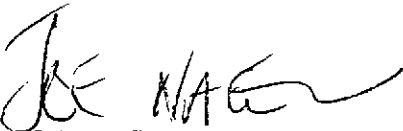

DEQ does not have an equivalent to the Nation Environmental Protection Act (NEPA) process of requiring environmental impact documents for State permitted activities. In Idaho, only federal actions (including Corps of Engineers permits) are subject to NEPA.

RECEIVED
JUL 08 1993

Mr. John F. Weyant
Page 2
September 24, 1992

DEQ is also concerned about the water quality in Priest River. We anticipate that any significant water right application will receive adequate review by DWR such that water quality is protected. We appreciate your concern in this matter.

Sincerely,

JOE NAGEL
Administrator

Re: WR No. 97-7326 and 97-7327

Dear Mr. Bays:

Enclosed are copies of protests filed against the approval of the above-referenced Applications for Permit to appropriate the public waters of the State of Idaho. The Department suggests you contact the protestants directly in an effort to determine the nature of the protests and attempt to resolve the protests.

If you do not advise us within twenty (20) days that the protests have been resolved, the matters will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the Applications for Permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculation?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?
6. Will the proposed use be contrary to the conservation of water resources within the State of Idaho?

You will be notified at a later date of the time and place of the conference and/or hearing. If we can be of any assistance, please contact us.

Sincerely,

ROBERT G. HAYNES, P.E.

[Faint handwritten notes]

541 54

Dear Mr. Young,

I am corresponding with you on the advice of State Representative Jim Stoicheff. It has come to my attention that Mike Bays of the MacAbee Falls Ranch which is located next to my property has applied for water rights on the Priest River. These water rights are supposed to be for irrigation purposes but I have my doubts.

Mr. Bays has applied for and received a permit from the State of Idaho to operate a private hunting preserve. For over a year he has had heavy equipment digging a huge pond in order to attract waterfowl. When his application went before the Bonner County zoning board I repeatedly asked if a environmental impact study had been done with out getting a satisfactory answer.

Is this pond going to be filled with water from the Priest River? I was told the whole project was tied to the federal wetlands regulations, why should he need water for irrigation? It is my understanding the State of Idaho desires to put a fish hatchery on the lower Priest River but is concerned about the water levels and temperatures will not this removal of additional water cause the water levels to drop further and the temperatures to increase? I think the whole situation needs to be reviewed!

Thank you for your cooperation,

Mr. John F. Weyant

I am writing about Mike Papp applying for water ~~and~~ rights on the Priest River.

I have the Floyd Mc Ghee place leased right across the river from Mike Papp. The river is so low I am having trouble getting enough water to the pumps. I understand that Floyd Mc Ghee has a water write for all the water he can use. If you grant Mike Papp a water Right I don't want him to pump out of the river above where my pump is set. I also think you should check the flow before you issue any more water rights on the river.

Yours Truly

REFERENCE: WATER RIGHT APPLICATIONS 97-07326 AND 97-07327 BAYS/PRIEST
RIVER

Mike Bays has requested approval for two water rights diversions amounting to 1.54 cfs from Priest River.

We have no objection to these applications provided Mr. Bays agrees to screen his diversions to prevent loss of juvenile fish and his diversion structures will not result in short or long term impacts to fish habitat. Screens should be a maximum of 1/4 inch mesh with approach velocities not to exceed 0.5 fps.

We will be happy to provide Mr. Bays with any additional information on screen design he might require.

Thanks for the opportunity to comment on these applications.

Re: 97-7326 and 97-7327

Dear Mr. Bays:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application For Permit To Appropriate the Public Waters Of The State Of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Allen Beardslee
Sr. Water Resource Agent

Attn: Trina

RE: Legal descriptions.

Dear Trina:

I am returning your two Applications for Permit for water rights, they are not acceptable in their present condition.

The legal descriptions for the points of diversion must be located to the nearest 40 acre tract 1/4 1/4 and the number of irrigated acres must be listed in the appropriate subdivision.

I have marked the SE1/4 with 10 acre grids on both maps. The marks for the Point of Diversion and the acreage listed for Place of Use must correspond with the acreage outlined on the maps. Please refer the copy of a template for determining the legal description tracts.

Example: There are sixteen squares on the grid = SE1/4 (160 acres)
The upper right 4 squares on the grid = NE1/4 SE1/4 (40 acres)
The upper left 4 squares on the grid = NW1/4 SE1/4 (40 acres)
The lower right 4 squares on the grid = SE1/4 SE1/4 (40 acres)
The lower left 4 squares on the grid = SW1/4 SE1/4 (40 acres)

If you need further assistance with determining the legal descriptions, please give me a call at this office.

Thank you,

ALLEN BEARDSLEE
SR. WATER RESOURCE AGENT

RE: Application for Permit.

Dear Trina:

We are returning your two Application for Permits along with Receipt Number N005606 for the amount of \$110.00.

In order to assure correct legal descriptions, please mark the Point of diversion and outline the place of use for each Application for Permit. The legal descriptions must be located to the nearest 40 acre tract (1/4 1/4).

We will process your Application for Permits when we receive them back at this office.

If I can be of further assistance, please feel free to contact me at this office.

Thank you,

ALLEN BEARDSLEE
SR. WATER RESOURCE AGENT
