	)	REINSTATEMENT

This matter having come before the Idaho Department of Water Resources (Department), the Department finds as follows:

FINDINGS OF FACT

1. On October 22, 1992, the Director of the Department of Water Resources issued permit No. 97-07321 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before November 1, 1993.
2. On August 31, 1993, the Department sent a proof due notice to the permit holder.
3. On November 4, 1993, the Department sent a lapse notice to the permit holder.
4. Section 42-218a.2., Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.
5. The permit holder has submitted evidence to confirm that water has been put to beneficial use during the authorized development period by submitting proof on January 24, 1994.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.
2. The permit holder has shown sufficient cause why the beneficial use was not submitted in a timely manner.
3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.
