Dear Sirs,

We would like to bring to your attention, that on the original application we asked for 45 acres to irrigate and 50 head of stock. We now would like to lower the irrigation to 25 acres and increase the stock to 150 head. We would appreciate you considering this change. If there are any problems concerning this matter, please let us know. I spoke to Bob Haines about this & he thought it would be alright.

Sincerely,

Mrs. Raymond Harrell

PROOF DUE NOTICE

RE: PERMIT NO. 97-07309

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

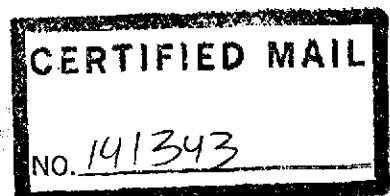

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary
