CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.
6. Point of diversion and place of use are located within Lots 5 & 6 Blk. B, El Rio Estates Subdivision.

BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 97-7300

Name(s) of Permit Holder: James F. Campbell

Mailing Address: 1721 S. Liberty Dr., Liberty Lake, Wa. 99019

Date Proof is Due June 1, 1992 Telephone No. 509 255-6642

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Purchased pipeline, pump and entire sprinkler system. Cleared 4 acres of land and have
a dry-farm garden, installed orchard, purchased 500 feet of hose for sprinkling, purchased
pvc for emergency fire protection. Installed access ladders to get to pump in river.

Costing \$3885.00 (approx.)

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Applicant was going to do labor himself and he has emphysema which has slowed his ability to
accomplish the work in the time required. The recession has reduced his retirement income
causing him not to complete his project in time.

Permit holder(s) request an extension to June 1, 19 94.

FEE: \$15.00

E. NARRATIVE/REMARKS/COMMENTS

Mr. Ralph Bertelson explained to me that James Campbell is ill and won't be up at this property very often. The irrigation that is done now is just the lawn and gardens. The old pump & motor needs to be replaced soon. Ralph told me that he is going to do that by next year or so. He said he would refile when he buys a new system and ups the horse power and pump size.

- Ralph claims that they are using less than 1 gpm as of right now. I told him that I'm going to approve this application for permit for .01 cfs. He said that would be fine.

RE: PERMIT NO. 97-07300

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

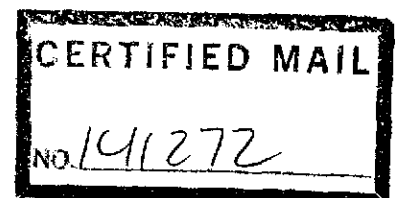

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

the Public Waters of the State of Idaho

This department has no objection to the application for a permit filed by Mr. Campbell. However, if the pump and/or pipeline are to be installed below the ordinary high water mark, they should file for a **stream alteration permit**. The stream alteration permit, when issued, should contain a term that says, "This permit also constitutes a permit from the Department of Lands".
