RE: Permit No. 97-07297

Dear Mr. Dike:

The Department is in receipt of your correspondence sent in reference to the above referenced water right permit. You indicate, in that correspondence, that the property was sold in December of 1991.

However, your water right permit is **personal property.** Just because you sell the land, does not mean that the water right goes with the land. In order for the water right to become the property of the current land owner, you need to complete the enclosed assignment form and return it to the Department.

Mr. Dike, we understand that you no longer own the property and therefore have no need for the water right. However, the new property owners do have a need for the water right. The Department sincerely hopes that you will complete the assignment form and return it as soon as possible, so that the new property owners can complete the project and obtain a license to the water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me. In the mean time, I look forward to receiving the assignment form as soon as possible.

Sincerely,

Re: Permit No. 97-07297

Dear Mr. Gustin:

The attached lapse notice was mailed to the most current owner of record displayed in our water right file. While I understand that we have discussed the fact that you purchased the property, I want to remind you once again that you do not have title to the water right permit. It still belongs to Mr. Dike. However, Mr. Dike returned the lapse notice to the Department.

As explained before, Mr. Dike needs to complete the assignment form that was previously mailed to you. Also, either you or Mr. Dike need to complete the proof of beneficial use form or request for extension of time that are also enclosed. Since the permit lapsed on January 1, 1993, it is of no further force nor effect. If you do not return both the assignment and proof form by March 1, 1993, the permit will be lost entirely and prepared for film and destroy by the Department.

If you have any questions or if the Department can be of any further assistance, please feel free to contact me.

RE: PERMIT NO. 97-07297

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated October 31, 1992. No further construction or additional development is authorized under this permit unless it is reinstated.

Re: Permit No. 97-07297

Dear Mr. Gustin:

Per our telephone conversation this morning, I am enclosing a copy of the permit that Mr. Dike received in December of 1989. You should be able to complete the proof of beneficial use form from the information on this permit. You will also need to obtain the name of the well driller and the date that it was drilled.

Also, as we discussed, Mr. Dikes will need to complete the enclosed assignment form. Since a water right permit is personal property, it will remain in his name until the assignment is complete.

In order to meet all of the required dates, you should, however, complete and mail in the proof of beneficial form on or before January 1, 1993.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

PROOF DUE NOTICE

RE: PERMIT NO. 97-07297

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P97-07297

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

Re: Water Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources acknowledges receipt of your Application For Permit To Appropriate The Public Waters Of The State Of Idaho. However I regret to inform you that the application is incomplete, so I am returning it to allow you to complete the following:

Item #3: The legal description of the point of diversion must be described by 40 acre parcel (for example ... NE¼ SW¼) Section, Township and Range as established by the public land survey.

Item #9: This item must be completed by listing the location of all water uses to the nearest 40 acre tract. This may be done by following these steps: First insert Township (Twp.) Ranges (Rge.), Sections (Sec); next, identify each use and location of that use within the section by placing the indicated symbol in the appropriate box as shown below.

STOCKWATER = S; DOMESTIC = D; COOLING = L; FISH PROPAGATION = H; RECREATION = R; COMMERCIAL = C; FIRE PROTECTION = F; INDUSTRIAL = I; MINING = X; AESTHETICS = J; GROUNDWATER RECHARGE = E; WILDLIFE = W; HEATING = G; MUNICIPAL = M; POWER = P; IRRIGATION = (NUMBER OF ACREAGE TO BE IRRIGATED IN EACH 40 ACRE TRACT);

Twp.	Rge.	Sec	NE 1/4				NW 1\4				SW 1/4				SE 1/4				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
50N	04W	3	S	D	L	I	20	10	6										

This example shows that within Township 50 North, Range 4 West, Section 3, there is Stockwater use in the NE¼NE¼; Domestic use in the NW¼NE¼; Cooling (L) in the SW¼NE¼; Industrial in the SE¼NE¼; and irrigation of 20 acres in the NE¼NW¼, 10 acres in the NW¼NW¼ and 6 acres in the SW¼NW¼.

Item #11: This item is in three parts, if the applicant does not own the property at either the point of diversion (part a.) or where the water is to be used (part b.) then part c. must be completed by explaining the arrangements made to allow the applicant to make this filing.

Item #13: You must identify the location of the point of diversion and place of use on the map provided.
