WATER RIGHT LICENSE

WATER RIGHT NO. 97-07292

Priority: May 26, 1989

Maximum Diversion Rate:
Maximum Diversion Volume:

0.02 CFS
6.1 AF

This is to certify, that MARY LOU WHITNEY LARD
3464 CHECKMATE DR
ANCHORAGE AK 99508

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated May 26, 1989; and
has submitted Proof of Beneficial Use on September 18, 1989. An examination indicates
that the works have a diversion capacity of .300 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	05/01 to 10/01	0.02 CFS	6.1 AF

LOCATION OF POINT(S) OF DIVERSION: NWNE , Sec. 19, Township 56N, Range 04W
BONNER County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
56N	04W	19	NWNE 4	SWNE 13		17
Total number of acres irrigated:						17

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Two points of diversion are located within the NWNE, Sec. 19, Twp 56N, Rge 4W.

Permit To Appropriate Water

NO. 97-07292

Proposed Priority: May 26, 1989

Maximum Diversion Rate:

0.02 CFS

This is to certify, that **MARY LOU WHITNEY LARD**
P.O. BOX 395
PRIEST RIVER, ID 83856

has applied for a permit to appropriate water from: **GROUNDWATER**
and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	05/01 to 10/01	0.02 CFS

LOCATION OF POINT(S) OF DIVERSION: SENWNE Sec. 19, Township 56N, Range 04W
BONNER County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
56N	04W	19	NWNE 6	SWNE 11		17
Total number of acres irrigated:						17

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **September 1, 1991**.
2. Subject to all prior water rights.
3. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
4. Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
5. The rate of diversion of water for irrigation under this permit and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this

23rd day of August, 1989.

MEMORANDUM

TO: File 97-07292

FROM: Sharla

DATE: November 24, 1992

RE: License Recommendations

I reviewed this file for licensing quite some time ago. After my telephone conversation in February with Wendy Secora, I thought perhaps this could be identified under the permissible place of use concept. However, rights identified with a permissible place of use are limited (by remark) to the irrigation of a certain number of acres within the entire land base in any irrigation season. With this right, the entire 17 acres are irrigated each season, just not at the same time.

It is reasonable to issue the license for the entire 17 acres with the low rate of diversion and a volume which is limited by the rate of diversion.

MICROFILMED

JUL 07 1993

MEMORANDUM

TO: File 97-07292
FROM: Sharla
DATE: February 20, 1992
RE: Telecon

On this date, I spoke with Wendy Secora (manager of the landscape facility). They have two fields which total 17 acres that they irrigate. Both fields are never irrigated at the same time.

They water the upper field once a week, then water the lower field once the next week. This is all the water that is needed because they have sub-irrigation. However, it's necessary for them to supplement the sub-irrigation for the plant's first two years.

The lower field is watered with one line (23 heads). The upper field is watered with two lines (5 heads each).

RE: Permit No. 97-7292

Mary Lou Whitney Lard
3464 Checkmate Dr.
Anchorage, AK 99508

Dear Ms. Lard:

I am currently reviewing the above referenced permit for license issuance. I have a few questions that I need to have you answer for me.

I have taken the information collected by the field examiner at the time of his inspection and made some calculations. The water collected in the concrete vaults is piped to a 20,000 gallon storage tank at a rate of 9 gallons/minute. At this rate, it takes 36 hours to fill the storage tank. The tank is emptied at a rate of 135 gallon/minute, which means the tank is drained in 2.5 hrs.

Further, calculations show that 8/10 of an acre is irrigated with the sprinklers at a time. After reviewing the small amount of acres irrigated per setting vs. the amount of time required to store the water needed to operate the system, I am unable to make a recommendation for a license showing that 17 acres of land are beneficially irrigated with this system. Here's where I need some input from you.

1) How many sprinkler lines are operated at a time and how many acres are irrigated by the line(s) per setting?

2) What kind of crop is irrigated? Is it simply pasture grass or is it a cash crop?

MICROFILMED

JUL 07 1993

Page 2

3) How many days per year is the system used?

If you can send me this information, I can then use it to further evaluate the right and prepare my license recommendations. If you have any questions, let me know.

Sincerely,

SHARLA CURTIS

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 97-07292

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P97-07292

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

MicroFILMED

MAR 29 1990

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

Re: Application for Permit No. 97-7292

Dear Applicant:

The Department of Water Resources herewith acknowledges receipt of your application for a permit to appropriate a portion of the public water of the State of Idaho as well as the appropriate filing fee, for which a receipt is enclosed. The appropriation application has been assigned the above-referenced number. To assist us in providing you with accurate, speedy service, please refer to this number in all future correspondence.

Your appropriation application is currently in the process of being advertised in the county newspaper. The advertisement will be published for two weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the appropriation application is protested, you will be sent a copy of the protest. All protests must be resolved before the appropriation application can be approved or denied. If the protestant does not voluntarily withdraw the protest, this Department will conduct a conference and/or hearing on the matter.

If the appropriation application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will then conduct a complete review prior to the final processing of the appropriation application and notify you of the outcome of this review. If the appropriation application is approved, a copy of your appropriation permit (bearing the reference number) will be sent to you.

If your source of water is a well (unless you are using a well that is already in existence), you will also have to apply for a permit to construct the well. These drilling permits can be obtained from this office, but can only be issued to holders of valid ground water rights or approved appropriation permits.

If you have any questions or if I can be of any further assistance, please feel to contact me at this office.

Sincerely,

TOM D. KING
Senior Water Resource Agent

Re: Appropriate Application for Mary Lou Whitney Lard

Dear Mr. King:

I have had an opportunity to confer with my clients in the above-referenced matter. They have no U.S.G.S. Quad of their specific irrigated area. However, the outlining area is the approximate area in which they will irrigate. Within the Southwest Quarter of the Northeast Quarter of Section 19, there is approximately 11 acres. Within the Northwest Quarter of the Northeast Quarter of Section 19, there is approximately 6 acres.

Your assistance was very helpful.

Very truly yours,

COOKE, LAMANNA, SMITH & COGSWELL

Re: Appropriation Application of Mary Lard

Dear Sirs:

I regret to inform you that the application of Mary Lard, for a permit to appropriate a portion of the public waters of The state of Idaho, is not complete, so I am returning it to you for completion and clarification of the following:

Item #2 The source is listed as "Underground", I assume this means that the source is groundwater.

Item #6: You must describe the method you plan to use to appropriate the water. Describe how the water will get into the 20,000 gal storage tank, and how it will then be removed and applied to the irrigation use.

Item #9 You have indicated three acres of irrigation within the NW NE and eight acres within the SW NE for a total of 20 acres, please clarify.

An application to appropriate 0.02 c.f.s. requires a filing fee of \$30.00. If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent

Re: Appropriation Application

Dear Sir:

I regret to inform you that the application of Mary Lard, for a permit to appropriate a portion of the public waters of the state of Idaho, is still not clear, so I am returning it to you to clarify the place of use. This can be accomplished by insuring that item #9 and the map agree on the land to be irrigated.

These items must be clarified and the application returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King

Re: Appropriation Application of May Lard

Dear Mr. King:

I thank you for your recent letter of May 3, 1989. My apologies for not completing Items 2, 6, and 9. Hopefully, it did not take up a significant amount of your time to discover these omissions.

I have had the opportunity to resolve those items and have had them typed on the original Application for Permit. Also, I have included a filing fee of \$30.00.

Thank you for your assistance. It has been extremely helpful and I appreciate you taking the time and itemizing specifically what it is that you were looking for. That is always very helpful to me.

Very truly yours,

COOKE, LAMANNA, SMITH & COGSWELL
