CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Stockwater use is for 75 range cattle.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of

Idaho No. 97-7290, and said application is hereby APPROVED

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before

April 1, 19 91

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other:

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
The issuance of this permit in no way grants any right-of-way or easement across the land of another.

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. The department provided the proper forms to you in our proof due notice dated March 31, 1992. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable Proof of Beneficial Use or an acceptable Request for Extension of Time showing reasonable cause for the delay. Either the completed Proof of Beneficial Use Submittal including the examination fee, or a completed field examination report; or the extension request form together with the \$15 fee, must be received by this department within sixty (60) days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted, unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

Re: Permit No. 97-07290

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permits. Unfortunately, it is unacceptable as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater source.
2. The rate of diversion must be .04 cfs or less.

As you can see, you do not meet requirement #1 since you use a stream (surface) for your source. Therefore, a license examination fee of \$50 applies to your permit. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

Also, for your information, our Coeur d'Alene office is located at 1910 Northwest Boulevard, Suite 210 and their phone number is 765-4639.

Please return the proof of beneficial use and the \$50 license exam fee as soon as possible. In order to meet the required dates, they must be returned no later than June 1, 1992.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE
RE: PERMIT NO. 97-07290

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

Dear Mr. Snider:

Re: Permit No. 97-7290

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to June 1, 1992.

Note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

Sincerely,

RITA I. FLECK

Dera Mr. and Mrs. Snider:

Re: Permit No. 97-7290

On March 21, 1991, the department received a letter along with \$15 extension of time fee. The extension of time form, however, was not enclosed. Enclosed is another request for extension of time form and instruction sheet. Please complete and return within ten days. I will hold the fee until then. If no form is returned by April 18, I will initiate a refund and prepare the permit for lapsing.

If you have any questions, please contact me.

Sincerely,

RITA I. FLECK

Per telephone conversation with Mrs. Snider, the request for extension of time (original) has been misplaced. I've asked her to complete and return another one.

She says she completed one and sent it with the fee. We have no record of it ever having come in. The department will give her the benefit of the doubt and will not delay the priority.

Dear Mr. Snider:

Re: Permit No. 97-7290

Returned is the request for extension of time. Note for the department to take action on this request, the \$15 filing fee is required.

If you have put the water to a beneficial use, that is, you have previously used the streams for stockwatering, then you can submit the proof of beneficial use. Especially, if cleaning the creeks is part of the year-to-year maintenance process. Should you need it, enclosed is a proof form.

If you have any questions, please contact me.

RE: PERMIT NO. 97-07290

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,
