Re: Herman Van Hull Claim 97-4080

Dear Mr. Ackley:

According to the sworn statement of Mr. Van Hull (Claim 97-4080) the groundwater source listed in that statement has been used at the Falls Inn for operation of a restaurant and tavern since 1940.

I have no records establishing a prior appropriation by the Falls Inn nor any record establishing the existence of the Falls Inn prior to that time. It seems, therefore, that any appropriation of water made by the Falls Inn prior to 1940 was not made under the permit system.

I hope I have answered your questions to your satisfaction. If not, please feel free to contact me at this office.

RE: Herman Van Hull Claim of Water Right  
(see attached copy of legal notice)

Dear Mr. Dunn:

In a recent issue of the Priest River Times, I noticed the publication of the attached Notice of Claim for Water Rights. I am interested in knowing whether the commercial usage outlined is for the Falls Tavern. I am also interested in knowing what the previous source of water was for the Falls Tavern, and whether it had been legally appropriated via the permit system or the so-called constitutional method. Your answers to my questions will be greatly appreciated, and I will remain,

Very truly yours

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

## GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

## SPECIFIC CONDITIONS:

Approval of this drilling permit prior to the approval of the associated application for permit to appropriate water does NOT affect the statutory obligation of the Department of Water Resources to act on the application for permit to appropriate water in accordance with applicable laws and rules and regulations. This includes but is not limited to denial of the application to appropriate water if the director determines conditions warrant that action.
