Dear Mr. and Mrs. Riley:

Thank you for your response to our correspondence of 4/10/86.

In answer to your question as to why the amount recommended for license is less than the amount on the permit, the amount shown on the proposed license was recommended by the Department's field examiner. His recommendation is based upon estimated use of water for the two houses connected to the 6" well.

If you believe that your system diverts more than 0.06 cfs and is needed to meet your water requirements, you can request a re-exam. If we do not hear from you by May 30, 1986, we will assume you have no objections to the issuance of a license as identified in our 4/10/86 correspondence.

If you have any further questions, please feel free to contact our office.

RE: 97-7215

Gentlemen:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.
