This is to certify, that SYLVIA WELSH

RT 5 BOX 105B

PRIEST RIVER ID 838560000

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated September 28, 1982; and has submitted Proof of Beneficial Use on September 28, 1987. An examination indicates that the works have a diversion capacity of .020 cfs of water from:

UNNAMED STREAM

tributary to GOOSE CREEK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.02 CFS	3.0 AF
STOCKWATER	01/01 to 12/31	0.01 CFS	0.1 AF
	Totals	0.02 CFS	3.1 AF

LOCATION OF POINT(S) OF DIVERSION:

NESE , Sec. 28, Township 59N, Range 05W
BONNER County

PLACE OF USE: IRRIGATION

59N	05W	28	NESE	1		1

Total number of acres irrigated: 1

PLACE OF USE: STOCKWATER, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State

of Idaho No. 97-7199, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or be-

fore November 1, 19 87.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 17th day of November, 1982.

A. Allen Saylor

Tom W. King

Sr. Water Resource Agent.

In Response to your letter of April 16, my husband and I would like to request a re-examination for permit # 97-07199.

As my husband Rick runs the farm - we would like to schedule the exam during the period of June 17 → 30. We have just returned from vacation and he will be out of town with his job until about the 16th June.

Our phone # @ the farm is 208-448-1013. We appreciate your consideration for a re-exam. At present the road going into area for inspection is still quite muddy with breakup yet. We should have no problem by mid June.

Sincerely,

Sylvia Welsh-Platts

Re: Permit # 97-07199

Dear Ms. Welsh:

As you are aware, the final step in developing a water right is to have the system examined by an authorized water rights examiner. Since you were not satisfied with the previous examination, I would like to have your system re-examined. The system must be in use during the examination, so you or your representative must be on hand to demonstrate the system to the examiner.

I have been unable to contact you by telephone to schedule an appointment for the required re-examination, so please contact this office to schedule the appointment for a time which is most convenient for you.

If this contact is not made in a timely fashion the permit may be voided.

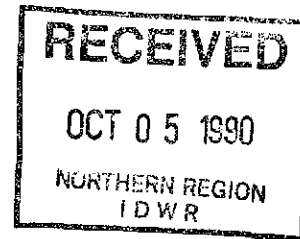

Sincerely,

Tom D. King
Sr. Water Resource Agent

MEMORANDUM

TO: Bob Haynes and Tom King
FROM: Gary Spackman *Gary*
DATE: October 2, 1990

RE: Permit to Appropriate Water No. 97-7199 in the Name of
Sylvia Welsh

In June, 1989, the Department received a field examination for use of water authorized pursuant to permit no. 97-7199. The permit authorized the development of an unnamed stream tributary to Goose Creek for irrigation, domestic and stockwater purposes. The field examination showed a ten foot deep sump with water delivered to a home, and recommends that no beneficial use had been developed from the source claim. The field examination recommended voiding of the permit.

We mailed a Notice of Pending Order Voiding Permit to Sylvia Welsh on March 2, 1990. She responded on April 1, 1990, stating that she had constructed a water pond on the stream. I sent a memo on April 9, 1990, asking you to resolve the dispute.

This memo is an inquiry asking about the status of this permit.

MEMORANDUM

TO: File No. 97-7199
FROM: Gary Spackman *Gary*
DATE: May 31, 1991

RE: Field Examination Dispute

On May 30, 1991, I called Bob Haynes to inquire about the status of a complaint sent to this office by the permit holder regarding the recommendations made by the field examiner for licensing. Bob Haynes stated that Tom King had re-examined the beneficial use, and the field examination was on his desk for review. We need to call this file up in approximately six months.

RE: Permit to Appropriate Water No. 97-7199

Dear Permit Holders:

NOTICE OF PENDING ORDER VOIDING PERMIT

On November 17, 1982 the Department of Water Resources approved an application to appropriate water, numbered 97-7199, from an unnamed stream tributary to Goose Creek, for irrigation, stockwater and domestic purposes located in the NESE, S28, T59N, R5W, Bonner County.

Based on a field inspection conducted by a representative of our Department it has come to our attention that you have not developed the system you intended under this permit.

The purpose of this letter is to request that you relinquish your permit or explain why the Department should not void the permit. Enclosed is a relinquishment form that should be signed and returned to this office, unless you have some explanation that would prevent the Department from voiding your permit.

If you fail to respond to this notice within thirty (30) days of the date of mailing of this letter, the Department will act to void your permit. The permit will be voided on the grounds that you failed to divert and beneficially use the water that you were permitted to develop.

If you have any questions in regard to this matter, please feel free to contact our office.

Respectfully,

GARY SPACKMAN, Manager
Water Right Permits Section

I hereby certify that on this 5th day of March, 1990, I sent the original copy of this letter, postage prepaid, to the person and address listed above.

Re: Permit #97-07199

Dear Ms. Welsh:

Department of Water Resources

On August 26, 1988, I conducted the required examination of your water system, as at is described in the above referenced permit, but could find no evidence that you were in fact diverting water from a stream. I did find your well, but the permit calls for a diversion of water from an unnamed stream, so the well would not be covered under this permit.

In view of the non-use of the water listed on the permit I have no recourse but to recommend that the permit be canceled. If I have overlooked some information, or if you feel that the permit should not be canceled, please contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent

PERMIT NUMBER

97-07199

✓~~5.1.2.~~ Permitted uses partially developed by the permit holder shall be described. ~~Permitted uses which were not developed by the permit holder shall be noted. Uses determined to exist which are not authorized by the permit being examined shall also be noted.~~

✓~~5.1.3.~~ A concise description of the diversion works and a general description of the distribution works shall be given. This description must trace the water from the point of diversion to and including the place of use and the return to a public water source, if any. The make, capacity, serial number and model number of all pumps, boosters or measuring devices associated with the point of diversion at the source of the water supply shall be described on the field report. ~~UNABLE TO EXAMINE PUMP~~

✓~~5.1.4.~~ Any interconnection of the water use being examined with other water rights or with other conveyance systems shall be described on the field report. Any reservoir, diversion dam, shall be included. This description shall be in the form of a concise word picture of the storage of water, if stored, its release, redirection and conveyance to the place of use. A schematic diagram of the project works shall also be provided in the field report.

✓~~5.1.5.~~ If water is returned to a public water source after use, a legal description of the point where the water is returned and source to which discharge is made shall be provided. Examples of uses which generally have an effluent discharge include fish propagation and power facilities. (MINING)

✓~~5.1.6.~~ The method of compliance with each condition of approval of a permit shall be shown on the field report by the examiner.

✓~~5.1.7.~~ If the water is used for irrigation, the boundaries of the various irrigated areas and the location of the project works providing water to each shall be platted on the proof maps and the full or partial acreage in each legal subdivision of 40 acres or government lot shall be shown.

✓~~5.1.8.~~ Irrigated acreage shall be shown on the field report to the nearest whole acre in a legal subdivision except the acreage shall be shown to the nearest one-tenth acre for permits covering land of five acres or less.

✓~~5.1.9.~~ Where a permit has been developed as separate distribution systems from more than one point of diversion, the separate areas irrigated from each point of diversion shall be shown on the proof maps as described hereinbefore and the legal subdivisions embracing the irrigated areas for each such respective point of diversion together with the total irrigated area shall be described.

✓~~5.1.10.~~ The field examiner does not need to show total volume of water for municipal and fire protection uses on the field report unless the project works provide for storage of water.

✓~~5.1.11.~~ The total number of holding/rearing ponds and the dimensions and volume of the ponds shall be shown on the field report for fish rearing or fish propagation use. The annual volume shall be calculated based on the changes of water per hour.

✓~~5.1.12.~~ Information shall be submitted concerning the beneficial use that has been made of the water unless the purpose of use is for irrigation. For example, for stockwater use, the number and type of stock watered shall be provided. Similar indications of the extent of beneficial use shall be provided for all other non-irrigation uses.

✓~~5.1.13.~~ Information on the period during each year that the water is used shall be described for each use.

✓~~5.1.14.~~ For permits having more than one use, the diversion rate measured for each use shall be described.

✓~~5.1.15.~~ The amount (rate and/or volume) of water shall be limited by the smaller of the permitted amount, the amount upon which the license examination fee is paid, the capacity of the diversion works or the amount beneficially used, including any statutory limitation of the duty of water.

✓~~5.1.16.~~ Suggested amendments shall be noted on the field report when the place of use, point of diversion, period or nature of use is different from the approved permit or from previously approved amendments.

✓~~5.1.17.~~ An aerial photo must accompany field reports involving ten (10) or more irrigated acres unless waived by the director. If existing photos are not available, the director will accept a USGS Quadrangle map at the largest scale available.

Dear Sirs

SEP 28 1987

Enclosed is proof of Verified
Department of Water Resources
Use form filled out.

Looking at the fee schedule
its statement "No fee required
for single family domestic use or
stock water use" - which is what
I am doing;

I have cleared the land
of Alder & brush, planted cabbages &
seeding to grass clover - burned
down piles; creek was ditched
& re-routed to edge of field,
Part of it is fenced - rail fence,
part - electric fence.

Now do I get someone to do
"field exam"? or can I send in
this form & be covered by fee
schedule (which says no fee due?).

MICROFILMED

APR 06 1988

Would appreciate you
helping finalize this, let
me know if I need to do
more or how to get examined
if that necessary.

Thank you -

PROOF DUE NOTICE

RE: Permit No. 97-7199

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager
