Dear Mr. Gregory:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Very truly yours,

WATER RIGHT LICENSE

License of Water Right No. 97-7172 Priority December 9, 1981 Amount 0.05 cfs

THIS IS TO CERTIFY, that Roger Gregory
of Priest River, ID, has complied with the terms and conditions of Permit
No. 97-7172 issued pursuant to Application for Permit dated December 9, 1981,
and has submitted proof to the Department of Water Resources on January 19, 1983,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.05 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Domestic	from January 1 to December 31	at 0.04 cfs and	1.2 Acre Feet
Stockwater	from January 1 to December 31	at 0.01 cfs and	0.2 Acre Feet
	from _____ to _____ at _____ cfs and		
(both dates inclusive)			

Subject, however, to the condition that no more than 0.05 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1.4 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22,

Dear Mr. Gregory:

Since March 25, 1963, one of the criteria for developing a ground water right for irrigation of more than $\frac{1}{2}$ acre of land is to file an Application for Permit with this Department. The enclosed Claim, which you submitted would therefore be invalid and is being returned to you at this time.

I have taken the liberty of making some changes and additions to the Application which you also submitted and have enclosed it for your approval and a \$30.00 filing fee.

In Item No. 2, I have listed the source as groundwater (well) to coincide with the statutory definition of subterranean water.

In Item Nos. 4 and 5.a., I have reduced the diversion rate for irrigation from 0.10 cfs to 0.09 cfs. The maximum rate of diversion for irrigation of five acres or less is 0.03 cfs per acre, unless it can be shown to the satisfaction of the Director of this Department that a larger rate of diversion is necessary.

In Item No. 6.a., I have listed a brief description of your water system.

In Item No. 7, I have listed one year for completion to allow this Department time to meet the statutory time frame for the processing of permits.

In Item No. 8.a.1., I have listed the legal description of the home(s) according to the map and legal description listed on the claim.

In Item No. 8.a.4., please list the number of homes you plan to service with water within the next five years. If you plan to add to your present useage, you should change Item No. 7 from one year to five years.

Dear Mr. Gregory:

Since March 25, 1963, one of the criteria for developing a ground water right for irrigation of more than $\frac{1}{2}$ acre of land is to file an Application for Permit with this Department. The enclosed Claim, which you submitted would therefore be invalid and is being returned to you at this time.

I have taken the liberty of making some changes and additions to the Application which you also submitted and have enclosed it for your approval and a \$30.00 filing fee.

In Item No. 2, I have listed the source as groundwater (well) to coincide with the statutory definition of subterranean water.

In Item Nos. 4 and 5.a., I have reduced the diversion rate for irrigation from 0.10 cfs to 0.09 cfs. The maximum rate of diversion for irrigation of five acres or less is 0.03 cfs per acre, unless it can be shown to the satisfaction of the Director of this Department that a larger rate of diversion is necessary.

In Item No. 6.a., I have listed a brief description of your water system.

In Item No. 7, I have listed one year for completion to allow this Department time to meet the statutory time frame for the processing of permits.

In Item No. 8.a.1., I have listed the legal description of the home(s) according to the map and legal description listed on the claim.

In Item No. 8.a.4., please list the number of homes you plan to service with water within the next five years. If you plan to add to your present useage, you should change Item No. 7 from one year to five years.
