MEMORANDUM

TO: Bob Haynes
FROM: Jim Johnson *QW*
DATE: August 12, 1986
RE: Permit 97-7157

RECEIVED
AUG 22 1986
Department of Water Resources
Northern District Office

I have reviewed the recommendation to cancel this permit per memo dated 6/10/86.

In the past, Section 42-311 was used when situations like this occurred. However, on July 1, 1986 the amended section went into effect and it no longer can be used.

It now appears that unless the Department has actually conducted the examination and based the recommendation on the fact that no beneficial use of water was found, we cannot cancel this permit.

Section 42-217 requires the Department to "examine or cause to be examined ... the place where the water is diverted and used". There are no known statutes that, in certain circumstances, relieve the Department of this responsibility.

Section 42-219 allows the Department to void a permit if it is found that the permit holder has failed to fully comply with the law and conditions of the permit. If water has not been put to beneficial use as determined by the field examination, then the permit can be voided for non-compliance with this section.

If the water has been put to beneficial use, regardless of the owner of the property, the field exam should reflect such use. If no amendment of p/d or p/u is required, a license will be issued as described by the field exam and the right becomes appurtenant to the property.

An attempt should be made to complete the examination, then we can proceed with appropriate action.

Dear Mr. Weyant:

The former owner of your home, Mr. Clarence Veteto, made Application for a Permit to appropriate water from a spring for the purpose of developing a domestic water right for one home.

When he sold the home to you, this water right had not been perfected nor was the permit for the water conveyed to you. In an effort to rectify this situation, I am enclosing an assignment form which must be completed by Mr. Veteto and returned to this office.

Dear Mr. Veteto:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.
