MEMORANDUM

To: File 97-7147
From: L. Glen Saxton *LS*
RE: FILING PROOF OF BENEFICIAL USE ON THE PERMIT
Date: February 4, 1991

On this date, I discussed with the permit holder's son, John McCormick, options which the permit holder can pursue. The permit holder was out of town until about mid-March according to his son.

I advised that the proof of beneficial use should probably be filed on the portion of this permit which has been developed. With respect to the time in which the proof would be acceptable, we discussed the following dates:

Dec 6, 1990 - Lapse notice sent
Dec 10, 1990 - Extension request received
Jan 30, 1991 - Denial of extension sent to permit holder

Generally a permit is only valid 60 days after a lapse notice is sent. However, the permit holder has no control over the length of time it takes for the department to act on a pending extension request. Hence, the time by which the proof should be submitted is approximately 56 days after Jan 30, 1991. The 56 days was determined by subtracting the days between Dec 6 and Dec 10, 1990 from the 60 days allowable.

I advised John McCormick that I would put this kind of note in this water right file. The proof likely will be filed in Coeur d' Alene.

Dear Mr. McCormick:

Re: Permit No 97-7147

Enclosed is a copy of the request for extension of time which you submitted to the department in connection with the above referenced permit. Provisions of Sec. 42-204, Idaho Code, provide that the department can only grant one extension of time. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest that you file the enclosed proof of beneficial use form for that portion of the development completed. Then, you can file a new application within one year of the time you actually intend to develop the remainder of the water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact any of our regional offices if you wish assistance in completion of the new application.

Sincerely,

L. GLEN SAXTON

LAPSE NOTICE

RE: PERMIT NO. 97-07147

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated September 30, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 97-07147

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Permit Holder:

Your water right permit(s) may be affected by a change made in Section 42-204, Idaho Code, by the 1982 Idaho Legislature.

Because of the change, you must commence the excavation and construction of the diverting works for your permit(s) no later than July 1, 1983. The statute further requires that you then proceed with due diligence in completing the diverting works and applying the water to beneficial use.

Permits in the following three categories are not subject to this requirement:

1. Rate of flow is greater than 25 cubic feet per second.
2. Proof of Beneficial Use has already been submitted.
3. Proof of Beneficial Use is required on or before July 1, 1983.

To maintain the validity of your permit(s) you must return one Commencement of Works postcard for each permit subject to the requirement. Note that on the card you can indicate that either (1) you have commenced construction or (2) you have been prevented from initiating development due to a factor beyond your control, such as the Idaho Power Moratorium, a required approval of the federal government, or litigation which prevents development of the project.

Enclosed you will find the number of cards that our records indicate you will need. Note that the card(s) should be returned to this office by July 1, 1983. If you have further questions, please contact the regional office shown below that is nearest you.

Sincerely,
