Preist River, Id 83856

Dear Mr Platts,

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the protestants directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

If this office can be of any further assistance, please contact us.

Sincerely,

ROBERT G. HAYNES, P.E.

Mr. Stephen Allred, Director

Reference: 97-7120 Water Rights Application  
Moore's Creek

Dear Mr. Allred:

Moore's Creek provides a popular brook trout fishery for people in the Priest River area. Angler use is high and the stream regularly yields limits of brook trout.

The referenced application for withdrawal of 3 cfs would essentially dewater Moore's Creek during the summer months. Most fishing activity takes place below the suggested point of diversion.

We urge you to deny the permit as approval would not be in the local public interest.

We learned of the subject application through an interested citizen who read the public notice in the Priest River Times. We request that in the future we be informed of applications for surface water withdrawals in Region 1.

Sincerely,

DEPARTMENT OF FISH AND GAME
