Dear Mr. Bryant:

Thank you for your letter dated February 15, 1983. Our examiner made the field examination of your property on April 13, 1979. In his report he states that the legal description of the point of diversion and place of use is different than that which is set forth on the permit. Your permit identifies the point of diversion and place of use in the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 15, Twp. 61N, Rge. 4W. Our examiner found the point of diversion and place of use within Government Lot 4(SE $\frac{1}{4}$ NE $\frac{1}{4}$), of Section 16, Twp. 61N, Rge. 4W.

A government lot is identified when a mountain or river goes through a quarter-quarter tract creating more or less than a standard 40 acre quarter-quarter tract. In your case the lake creates the government lot. I have enclosed a copy of the plat in your area. A subdivision lot and block is a description which further describes land within the quarter-quarter tract.

Today I called the Bonner County Assessor's office to verify the legal description of your property. They told me that your property is in Government Lot 4(SE $\frac{1}{4}$ NE $\frac{1}{4}$), Section 16, Twp. 61N, Rge. 4W.

Our office also recommends 0.04 cfs for one domestic house. This is approximately 18 gallons per minute.

Before we can issue a license you must first amend the legal description on the permit. I have therefore enclosed another partially completed amendment form for your use. Please complete and return along with a \$20.00 filing fee within 30 days. If you have any other questions, please contact me at 334-4123.

RECEIVED

FEB 18 1983

DEPARTMENT OF WATER RESOURCES

Dear Sir:

Received your letter with the inclusion of a Form for "Application for Amendment of a Permit." After reading both several times, I'm quite mystified - to say the least.

Our "point of diversion and/or the place of use" hasn't been changed since building here in 1977. The water from Priest Lake is solely for domestic use in our home and I'm certain it is well below the maximum annual quantity allowed.

In your letter and on the Form you allude to "Gov. Lot 4" as the place of use. To my knowledge there is no Government property on the East side of Priest Lake.

II

Our property is located on the East $\frac{1}{2}$ of Lot 21, Paradise Point, Bear Creek Bay and is deeded land.

I don't know when your field examiner made his examination, but we are here all of the time and did not see him. As to his "findings"; they make absolutely no sense to me, as our usage has increased not one iota through the years.

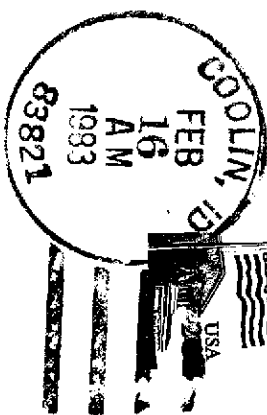

I would appreciate enlightenment as to why I have a need for "Application for Amendment of a Permit to change the point of diversion and/or the place of use".

Thank You.

Dear Mr. Bryant:

A representative of this Department made an examination of the works covered by your Permit No. 97-7107 and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.04 cfs Source: Priest Lake

The maximum quantity diverted shall not exceed 1.2 acre feet
per year.

Point of diversion: Gov. Lot 4(SE $\frac{1}{4}$ NE $\frac{1}{4}$), Sec. 16, Twp. 61N, Rge. 4W, Bonner
County

Beneficial use: Domestic use for one unit within the Gov. Lot 4(SE $\frac{1}{4}$ NE $\frac{1}{4}$),
Sec. 16, Twp. 61N, Rge. 4W

Priority date established: August 31, 1977

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.
