Dear Mr. & Mrs. Tuzil:

One of the conditions of approval of your water Permit No. ~~97-7106~~ (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before ~~December 1, 1978~~. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Mr. Tuzil:

I have forwarded your letter requesting drought related information to the drought committee representative in this office. I am sure he can give you the requested information.

Enclosed you will find your check # 92-311/1231 and your Application for a Permit. It is not possible to file on a well and spring water on the same form. If the well is used for only one household you need not file to establish water rights on the well. If the spring originates on your property and does not flow off the property when not dammed, it is considered to be private water and filing is not necessary to establish a water right on the spring.

I have taken the liberty of partially preparing an Application for a Permit to extract water from the spring in the event that it would flow from the property if undammed. The Application will not be complete until the following information has been supplied.

Item 8. a. 1. This is the location of your house.

Item 11: Please indicate where in section 30 your house is located. Your signature will complete this form.

This Department has no record of the dam to which you refer. Before your Application can be approved the "New Construction for Small Dams" form must be filed with this department. I have enclosed this form for your convenience.

Please complete the Dam and Application forms and return them to this office with a check for the \$10.00 filing fee.
