WATER RIGHT LICENSE

License of Water Right No. 97-7096 Priority March 29, 1977 Amount 0.02 cfs

THIS IS TO CERTIFY, that HELEN E. SPRACKLEN
of Sandpoint, Idaho, has complied with the terms and conditions of Permit
No. 97-7096 issued pursuant to Application for Permit dated March 29, 1977,
and has submitted proof to the Department of Water Resources on May 24, 1978,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.02 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Dear Ms. Spracklen:

One of the conditions of approval of your water Permit No. ~~97-7095, 97-7096~~ (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Ms. Spracklen:

We are returning your Application for Permit to appropriate water and also two Applications for Permits which we have taken the liberty of preparing. The reason for the two Applications for Permits is that you indicate two sources of water on the form which you sent to us, namely a well and a creek which is tributary of Pend Oreille Lake. Since the sources of water are different, separate water rights will exist from each source and separate applications are necessary.

From the information on your application, it would appear that the irrigation mentioned is for your lawn and garden. That useage is considered to be a domestic useage of water outside the household. Under Item 4 of the applications, if domestic is the appropriate use, please so indicate along with a period of use. The amount of water used would probably be in the vicinity of 0.02 cubic feet per second (9 gallons per minute) for inside the house and about the same amount outside the house. If you are irrigating more than one-half acre, the number of acres must be indicated under the 40-acre tract in Item 8b of the form. On the maps on the third page of the applications, we have indicated where the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 36, Township 56 North, Range 4 West, B.M. would be. If that is not the correct 40-acre tract, please change it on the map and on Items 3 and 8a(1) of the applications.

Each application must be accompanied by a \$10 filing fee when it is returned to our office (a total fee of \$20). Please make sure each application is signed at the bottom of Page 3 before submitting them to our office for processing.

If there are any questions in this matter, feel free to contact us.

Very truly yours,

Sandpoint, ID 83864

Dear Ms. Spracklen:

An Application for Permit must be filed to develop a legal water right on any water diverted from a groundwater source after March 25, 1963 (excepting a well drilled for a single household). Any surface water diverted after May 20, 1971, must also be preceded by a permit from this Department. The above includes proposed new systems and enlargements of existing systems for development of larger quantities of water (Section 42-201 through Section 42-229, Idaho Code).

Existing water rights developed through diversion and application of water to a beneficial use prior to the above dates may be recorded by filing a Claim to a Water Right with our Department; however, it is not mandatory to do so (Section 42-225b, Idaho Code).

Please let us know which of the above forms you require and we will forward it to you. Feel free to contact us if we may be of any further assistance.

Very truly yours,

ROBERT G. HAYNES, P.E.
