MEMORANDUM

TO: Bob Haynes

FROM: Dave Tuthill **DRT**

DATE: December 20, 1984

RE: Water Rights in the Name of the City of Priest River

We have noticed an unusual situation regarding water rights in the name of the City of Priest River. At least two of the water rights in the name of the city are in different basins. Water Right Nos. 96-4145 and 97-7066 are both for municipal uses within the City of Priest River.

Based on the information in the files, it appears that there is a valid reason that the two water rights are in different basins. Water Right No. 96-4145 is a claim to a point of diversion on the south side of the river in basin 96, and Water Right No. 97-7066 is a license for which the file indicates that the old point of diversion was on the south side of the river in basin 96 and the new point of diversion is on the north side of the river in basin 97. At this point, it appears that although the water rights are correctly recorded, there is a good chance that the claimed water right should be transferred to reflect a point of diversion on the north side of the river if, in fact, the entire municipal diversion is located on the north side of the river.

The purpose of this memorandum is to suggest that your office contact the City of Priest River to review the water rights in the name of the city, and perhaps solicit a transfer for the claim. Although this action is not urgent, it would serve as an additional step in clarifying and correcting the water right data base.

Re: Permit No. 97-7066

City of Priest River
Priest River,
Idaho 83856

Gentlemen:

One of the conditions of approval of your water Permit No. 97-7066 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
