WATER RIGHT LICENSE

License of Water Right No. 97-7061 Priority June 19, 1974 Amount 0.6 cfs

THIS IS TO CERTIFY, that Paul &/or Marie Jayo

of Priest River, Idaho, has complied with the terms and conditions of Permit No. 97-7061 issued pursuant to Application for Permit dated June 19, 1974, and has submitted proof to the Department of Water Resources on November 23, 1979, that he has applied water to a beneficial use; an examination by the Department indicates that the works have a capacity for the diversion of 0.6 cfs of water from Goose Creek, tributary to Priest River, Upper West Branch, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from June 1 to October 15	at 0.6 cfs	and 163.0 acre feet
	from to	at cfs	and
	from to	at cfs	and

(both dates inclusive)

Subject, however, to the condition that no more than 0.6 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed 163.0 acre feet per year, said waters to be diverted within the NW¼SW¼, Section 22, Twp. 59N, Rge. 5W in the County of Bonner

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

I, A. KENNETH DUNN, Director of the Department of Water Resources hereby

APPROVE the above Application for Amendment of Permit No. 97-7061. OK Jmi

Witness my hand this 22 day of October, 19 81.

A. Kenneth Dunn
Director

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

In the Matter of Application for Permit No. 97-7061 in the name of PAUL &/or MARIE JAYO	MEMORANDUM DECISION AND ORDER

On June 19, 1974, Paul &/or Marie Jayo filed with the Department of Water Resources (formerly the Department of Water Administration) an application for permit to appropriate 0.70 cubic feet per second of water from Goose Creek, tributary to Upper West Branch of Priest River. The water is to be diverted within the NW¼SW¼, Section 22, Township 59 North, Range 5 West, B.M., Bonner County, to be used from June 1 to October 15 for the irrigation of 128 acres, located within the E½SE¼, Section 21; NE¼NE¼, Section 28; SE¼NW¼, N½SW¼, SW¼SW¼, Section 22, Township 59 North, Range 5 West, B.M.

Notice of this application was published in the Priest River Times, Priest River, Idaho, on June 27 and July 4, 1974. On July 8, 1974, the Department received a protest from the Bonner County Commissioners, and a protest signed by the following individuals: Zella Norton, Carol A. Norton, James Norton, Lillie L. Anderson, Archie R. Anderson, Ted D. Flesher, Deloris Flesher, Harry Drake, Dorothy Drake, Vera Turnbull, Bruce E. Wakefield, Dottie L. Wakefield, Geraldine E. Burns, and Owen H. Norton. As a result of the protests, a conference was held on November 13, 1974, in Sandpoint, Idaho.

Based upon the information in the file, the statements made at the conference, and the Department's understanding of the law, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, and Order:

Findings of Fact

(1) As determined from the conference, apparently the only claimed existing water right which could be injured belongs to the protestants, Mr. and Mrs. Anderson, who divert water from the West Branch of Priest River for domestic purposes and irrigation of approximately five acres at a location below the applicant's proposed diversion point. This claimed right was acquired by diversion and beneficial use of the water.

(2) Goose Creek was measured by the United States Geological Survey on August 18, 1973. A reading of 3.21 cubic feet per second was recorded. This measuring station was located below the applicant's existing diversion, and at the time of measurement, he was diverting approximately 1.0 cubic foot per second of water.

MICROFILMED

(3) In September of 1967, the Creek was reportedly measured at 250 miners inches (5.0 cubic feet per second) by Mr. Drake.

(4) Based upon these measurements, the Director has reason to believe that there does exist enough water to adequately supply the existing water rights and the applicant's proposed diversion, at lease during part of some years.

Conclusions of Law

(1) The applicant has met the requirements of Section 42-203, Idaho Code, and is therefore entitled to a permit as requested.

Order

IT IS, THEREFORE ORDERED and Application for Permit No. 97-7061 is hereby APPROVED subject to the following limitations and conditions:

1. That diversion and use of water under said permit shall be subject to all prior water rights, particularly those of the protestants, Archie R. and Lillie L. Anderson.
2. That proof of construction of works and application of water to beneficial use shall be submitted to the Department on or before January 1, 1980.

Dated this 20 day of January, 1975.

RE: 97-7061

Dear Mr. Jayo:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office.

Very truly yours,

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 97-7061 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE JANURARY 01, 1980. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECIEVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

SINCERELY,

Paul &/or Marie Jayo
Route 5, Box 104
Priest River, ID 83856

Dear Mr. & Mrs. Jayo:

We have enclosed a copy of the correspondence submitted against the issuance of a permit pursuant to your application No. 97-7061. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?

2. Is the proposed water supply insufficient for the purposes intended?

3. Is the application made in good faith or for delay or speculative purposes?

4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 42-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental land. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any further assistance, feel free to contact our office.

Very truly yours,

FRED EISENBARTH
Northern District Manager

Dear Mr. and Mrs. Drake:

This is to acknowledge receipt of your correspondence in connection with the issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?

2. Is the proposed water supply insufficient for the purposes intended?

3. Is the application made in good faith or for delay or speculative purposes?

4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of any further assistance, feel free to contact our office.

Very truly yours,

Dear Sir;

In regard to Application # 97-7061, for water permit by Paul and/or Marie Jaye, dated June 19, 1974, published in the Priest River Times on June 27, 1974.

This permit is asking for 0.7 cubic feet per second of water from Geese Creek. Mr. and Mrs. Jaye already have two pumps, 10 horse-power each, on Geese Creek, pumping approximately 4 quarters of sprinkler pipe, each. They also have one larger pump on the Upper West Branch of Priest River, pumping more than 4 quarters, across the County Road, to the same ground.

We wish to express ourselves on the impact of this, as they have already pumped Geese Creek nearly dry, as of last year, during the months of July, August and September, and Upper West Branch was left with little water, leaving it in a messy, sluggish condition.

Both of these creeks were excellent fishing streams before, and they also provided us with underground water supply for domestic and livestock use.

We also refer you to the Forest Service tests on the water conditions of these creeks and their tributaries, taken last summer by Ann Poe of the Sandpoint Office.

Addresses are all Route 5 Priest River, Idaho 83856

In reference to the application for water permits, that was published in The Times, Priest River, Idaho dated Thursday, June 27, 1974.

We, as a Board of County Commissioners, would certainly urge a complete survey before a permit is issued.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

In the Matter of Protests Against Approval of Application for Permit No. 97-7061 in the name of PAUL &/OR MARIE JAYO	NOTICE OF CONFERENCE AND/OR HEARING

On June 19, 1974, Paul &/or Marie Jayo filed with the Department of Water Resources (formerly the Department of Water Administration) an application to appropriate the public waters of the State of Idaho. On July 8, 1974, the Department received a protest from the Bonner County Commissioners and a protest signed by the following individuals: Zella Norton, Carol A. Norton, James Norton, Lillie L. Anderson, Archie R. Anderson, Ted D. Flesher, Deloris Flesher, Harry Drake, Dorothy Drake, Vera Turnbull, Bruce E. Wakefield, Dottie L. Wakefield, Geraldine E. Burns, and Owen H. Norton.

The Department has set the matter of protests for conference and/or hearing for Wednesday, November 13, 1974, at 9:00 a.m., in the Conference Room of the Bonner County Courthouse, Sandpoint, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicants or the protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 8th day of October, 1974.

Paul &/or Marie Jayo
Route 5, Box 104
Priest River, ID 83856

Dear Mr. & Mrs. Jayo:

We have enclosed a copy of the correspondence submitted against the issuance of a permit pursuant to your application No. 97-7061. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?

2. Is the proposed water supply insufficient for the purposes intended?

3. Is the application made in good faith or for delay or speculative purposes?

4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 42-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental land. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

MICROFILMED

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any further assistance, feel free to contact our office.

Very truly yours,

FRED EISENBARTH

Dear Mr. and Mrs. Drake:

This is to acknowledge receipt of your correspondence in connection with the issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?

2. Is the proposed water supply insufficient for the purposes intended?

3. Is the application made in good faith or for delay or speculative purposes?

4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

Dear Sir;

In regard to Application # 97-7061, for water permit by Paul and/or Marie Jaye, dated June 19, 1974, published in the Priest River Times on June 27, 1974.

This permit is asking for 0.7 cubic feet per second of water from Goose Creek. Mr. and Mrs. Jaye already have two pumps, 10 horse-power each, on Goose Creek, pumping approximately 4 quarters of sprinkler pipe, each. They also have one larger pump on the Upper West Branch of Priest River, pumping more than 4 quarters, across the County Road, to the same ground.

We wish to express ourselves on the impact of this, as they have already pumped Goose Creek nearly dry, as of last year, during the months of July, August and September, and Upper West Branch was left with little water, leaving it in a messy, sluggish condition.

Both of these creeks were excellent fishing streams before, and they also provided us with underground water supply for domestic and livestock use.

We also refer you to the Forest Service tests on the water conditions of these creeks and their tributaries, taken last summer by Ann Pee of the Sandpoint Office.

Gentlemen:

Enclosed is a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to our office along with the publication bill. Your cooperation in this matter is appreciated.

Very truly yours,

FRED EISENBARTH
Northern District Manager
