License of Water Right No. 97-7054 Priority May 8, 1974 Amount 0.27 cfs

THIS IS TO CERTIFY, that WEST BONNER WATER DISTRICT NUMBER 1
of Newport, Washington, has complied with the terms and conditions of Permit
No. 97-7054 issued pursuant to Application for Permit dated May 8, 1974,
and has submitted proof to the Department of Water Resources on June 4, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.29 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 97-7054 and found the following:

Quantity of water diverted: 0.289 cfs Source: ground water
Amount of water that can be recognized as beneficially used under
Idaho law: 0.2676 cfs
Point of diversion: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 24, Twp. 56 N, Rge. 6 W,
B. M., Bonner County
Beneficial use: Municipal purposes for the Cities of Newport,
Idaho & Newport, Washington and areas served by the District
Priority date established: May 8, 1974

Our examiner's report indicates that the point of diversion is in Rge. 6 W, whereas, your permit lists Rge. 5 W. Therefore, it will be necessary to amend the permit before a license is issued. Enclosed is a partially completed application for amendment for your use in this matter.

Please sign the amendment application and return it to this office along with a \$10.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Gentlemen:

One of the conditions of approval of your water Permit No. 97-7054 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

This is one you're going to have to figure out for yourself, as I don't know what the gentleman wanted.

Mr. Matt Rougle was in the office and said that since he needed a measuring device for his system, he wanted us to send him a letter stating such. He filed on a well which was drilled for the City of Newport, ID and Newport, Wash., and he said he needed a letter stating that a measuring device was required so that he could show the "Board". I asked him if he couldn't just show the "Board" a copy of the permit requirements, but he said a letter would be sufficient. ??? I think you'd better ~~call~~ call him; however, he won't be back in town until the 29th of July.

Dear Mr. Rougle:

One of the conditions of approval for the above referenced permit is that a measuring device be permanently installed and maintained as part of the diverting works. The measuring device will need to be installed prior to your making Proof of Beneficial Use which is due on July 1, 1975.

If we may be of any further assistance in this matter, feel free to contact us.

Gentlemen:

Enclosed is a copy of your approved Application for Permit No. 97-7054. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Also, please note that the present statute in the Idaho Code concerning the use in Washington of water diverted in Idaho limits the use to municipal and industrial within the City of Pullman, Washington and/or Washington State University, at Pullman, Washington.

If you have any questions concerning this matter, please let us know.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Rougle:

In reviewing the Application for Permit you submitted for the well being drilled for West Bonner Water District Number 1, we find that perhaps an error has been made concerning the quantity of water requested under Items 4 and 5a.

Under the remarks section of the form, you stated that 120 gallons per minute will be diverted. This is equivalent to 0.26 cubic feet per second rather than the 0.026 c.f.s. listed. This figure would increase the filing fee to \$25.

We will also need to know the maximum number of water users on the system under Item 8a(4).

After completing the above items, please return the application to our office with the \$25 filing fee, and we shall begin its processing. Feel free to contact us if you should have any questions.

Very truly yours,
