One of the conditions of approval of your water Permit No. 97-7048 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Mr. Robert Savage
Route 6
Priest River, ID 83856

Dear Mr. Savage:

With reference to your letter of January 26, 1974, we would like to mention that any permit issued by our Department to appropriate water always lists a condition that it be subject to all prior water rights which have been established from the same source.

If you have established valid rights for stockwatering purposes from Prater Creek, those rights would be both prior and superior to the rights of Mr. Weidner. However, if you believe your rights will be injured, you may request a conference and/or hearing to determine if our Department should approve or deny Mr. Weidner's application.

The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

Dear Sir,

I am writing in regard to the application for a water permit by S.L. Weidner of Rte 2 Box 357-D Evans Daleton, Ida.

I lease the state land for grazing in Section 5 - T 57 - R 4 W B M. and prater creek is the only water I have for my Livestock. I water about 50 cows plus their calves and from 500 to 800 sheep.

I also Lease land in Section 4 & 9 T 57 R 4 W B M and own land in S 8 T 57 R 4 W B M and depend on prater creek for water for the Livestock on all this land.

The flow on this creek gets pretty small in the summer and fall.

I ask that the livestock water be given 1st consideration.

prater creek has been used to water Livestock on this place for more than 30 years.
