Dear Mr. Benfield:

One of the conditions of approval of your water Permit No. 97-7034, 97-7035 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Ervin E Ballou
401 Front Ave., Rm 209
Coeur D'Alene, Ida. 83814

Dear Mr. Ballou:

Thank you for your reply to my request for information about water rights.

This letter refers to the 2nd and 3rd paragraphs of your letter.

I feel certain a water right for this piece of property has never been applied for in the past. The only other owner, besides myself, was Mr. Thomas Kerr who homesteaded this acreage in 1910. I understand he hand pumped water from a small Lake that lies within the confines of the property. The property is located in Bonner County; 42 1/2 acres in Section 12, T.61 N, R.5W, B.M.

I would like to drill a well for household use and install a moveable 3 sprinkler surface irrigation line for a 5 acre pasture. The irrigation water would also come from the well. Two or three horses would also be watered. A 1 hp, 2-stage pump would be used in the well with a pumping capacity of 960 gallons per hour---using your conversion factors on the instruction sheet, I determine the cubic feet per second to be .0360.

Enclosed is my application for a permit with the information supplied that seems pertinent to this situation.

Thank you for your attention.

Sincerely,

G.G. Benfield

Dear Mr. Benfield:

We have enclosed our application for permit form and set of instructions for your use.

Through the application and permit system, an individual may develop a new water right or expand an existing system. If you have a developed water right and wish only to record the right, you may do so by filing a Claim to a Water Right with our Department. These forms will be furnished upon request.

We cannot determine if there are any existing water rights recorded by your predecessors without a more complete property description, including section, township, range, and 40-acre tract, and also the names of previous owners.

If you have any questions if this matter, or if we may be of any assistance, please contact us.
