Dear Mr. Shelton:

One of the conditions of approval of your water Permit No. 97-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Shelton:

In reviewing your application for permit, we find several items which need clarification. We have taken the liberty of re-typing your application. Please note we have reduced the quantity of water which you requested under Item #4, and we have added stockwater as a beneficial use.

Our Department feels that the 0.20 c.f.s. you have requested is an excessive amount for the purpose of a single household need. The maximum amount allowable is 0.04 c.f.s. unless we receive a justification for more. We have also included stockwater under Item #4 and the amount of water as 0.02 c.f.s., bringing the total quantity of water under Item #5 to 0.06 c.f.s. This is equivalent to 27 gallons per minute.

Please review all items on our re-typed application, and if you are in agreement, please sign at the bottom of Page 3. Return the application along with the required \$10 filing fee, and we shall begin its processing.

If you should have any questions, please feel free to contact this office.
