Dear Mr. Nett:

One of the conditions of approval of your water Permit No. 97-7025 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Nett:

We are returning your application for permit and check #28-71, for \$10.00, in order that you may supply us with some additional information.

Please indicate the 40 acre tract that your well is located within under item #3a. We cannot accept the block number and lot number from your subdivision plat, as this information is not readily available to the public. There is no law regulating the proximity of one well to another. Normally, domestic wells do not interfere with each other.

Once your permit has been approved, you can submit the proof of beneficial use form stating that your project is complete and is ready for examination by this Department. Upon completion of the examination, a water license will be issued, verifying your water right.

If we can be of further assistance to you in this matter, please feel free to contact this Department.
