Dear Mr. Juntilla:

Enclosed is an Order which extends the time within which to submit proof of beneficial use on the above referenced permit to August 1, 1977.

One of the conditions of approval of your water Permit No. 97-7023 was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time (excluding the extension of time the Department has made extending your proof of beneficial use of water to August 1, 1977 from June 1, 1977) you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the abovementioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Higginson:

Enclosed find Offitovit
which is not completed as
there has been no charges since
I received my permit.

Because of the lack of
rain last year, and very little
snow during the winter, which
froze the soil quite deep, has
created problems. The creek
is almost dry now, so there
is almost no water going
through.

I am retired and on Social
Security, as many of my

Neighbors are retired and
we don't have the funds to
drill well for our water.

This water in a pond
is very essential to all of
us, as a reserve of water
to supplement our springs
for domestic use.

Thus far I have done all
the work myself by hand.

I do hope that you
will consider these setbacks
and give me an extension
till next year.

Thank you.
