WATER RIGHT LICENSE

License of Water Right No. 97-7018 Priority Nov. 15, 1971 Amount 0.04 cfs

THIS IS TO CERTIFY, that CARRELL O. TURNER  
of Priest River, Idaho, has complied with the terms and conditions of Permit  
No. 97-7018 issued pursuant to Application for Permit dated November 15, 1971,  
and has submitted proof to the Department of Water Resources on July 18, 1975,  
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a  
capacity for the diversion of 0.04 cfs of water from an unnamed spring,  
tributary to \_\_\_\_\_, and that the permit holder has applied to a beneficial use and  
established a right to use water as follows:

| Beneficial Use                                                                                     | Period of Use | Rate of Diversion | Annual Volume |
|----------------------------------------------------------------------------------------------------|---------------|-------------------|---------------|
| <u>Domestic</u> from <u>Jan. 1</u> to <u>Dec. 31</u> at <u>0.02</u> cfs and <u>0.6</u> acre feet   |               |                   |               |
| <u>Stockwater</u> from <u>Jan. 1</u> to <u>Dec. 31</u> at <u>0.02</u> cfs and <u>1.4</u> acre feet |               |                   |               |
| _____ from _____ to _____ at _____ cfs and _____                                                   |               |                   |               |

(both dates inclusive)

Subject, however, to the condition that no more than 0.04 cfs of water be diverted at any one time, and  
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose  
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed  
2.0 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ SE $\frac{1}{4}$  of Sec. 34,

ORDER

WHEREAS, on November 15, 1971, Carrell O. Turner applied to the Department of Water Resources (formerly the Department of Water Administration) for a permit to appropriate .04 cubic feet per second of water from an unnamed spring, within the SE $\frac{1}{4}$  Sec. 34, Twp. 57N, Rge. 5W, B.M., Bonner County, to be used for domestic and stockwater purposes; and,

WHEREAS, on February 18, 1972, the Department approved said application and issued Permit No. 97-7018 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before March 1, 1975; and,

WHEREAS, on January 17, 1975, the Department received a request for an extension of time for said permit; and,

WHEREAS, it appears that under the circumstances the permit holder has been proceeding with reasonable diligence and has given good cause for delay;

IT IS, THEREFORE, HEREBY ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 97-7018 be extended to March 1, 1976.

Dated this 27 day of January, 1975.

Dear Mr. Turner:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our District Office in **Coeur d'Alene.**

Re: Permit No. 97-7018

1. Request is hereby made for extension of time to complete development of "Spring" water resource applying to above permit No. 97-7018.

2. Delay on this project was due to access road permit thru the National Forest to the property. Primary cause of the delay was the reorganization of the local USFS in 1972 and the very heavy work load in the summer of 1973. The Road Permit was granted in Nov. 1973. The road was completed June 23, 1974.

3. Development of SPRING

a. Spring has been captured and now discharges into a galvanized tank.

b. Waterline route has been surveyed to a suitable grade and 60% cleared.

c. Spring flow has been gauged at 12 gal/min max.

4. Work to be done

a. Test water for purity

b. Install 900 ft. of 1½ in. pipe.

c. Install air pressure chamber, relief valve and use storage tank.

5. Request extension to Sept 1, 1975.

Proof of use form is retained for later submission if extension is granted.

Dear Mr. Turner:

One of the conditions of approval of your water Permit No. 97-7018 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

4. Development plans; layout plans; construction, reconstruction, or alteration of improvements; or revision of layout or construction plans for this area must be approved in advance and in writing by the forest supervisor. Trees or shrubbery on the permitted area may be removed or destroyed only after the forest officer in charge has approved, and has marked or otherwise designated that which may be removed or destroyed. Timber cut or destroyed will be paid for by the permittee as follows: Merchantable timber at appraised value; young-growth timber below merchantable size at current damage appraisal value; *provided* that the Forest Service reserves the right to dispose of the merchantable timber to others than the permittee at no stumpage cost to the permittee. Trees, shrubs, and other plants may be planted in such manner and in such places about the premises as may be approved by the forest officer in charge.

5. The permittee shall maintain the improvements and premises to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the forest officer in charge.

6. This permit is subject to all valid claims.

7. The permittee, in exercising the privileges granted by this permit, shall comply with the regulations of the Department of Agriculture and all Federal, State, county, and municipal laws, ordinances, or regulations which are applicable to the area or operations covered by this permit.

8. The permittee shall take all reasonable precautions to prevent and suppress forest fires. No material shall be disposed of by burning in open fires during the closed season established by law or regulation without a written permit from the forest officer in charge or his authorized agent.

9. The permittee shall exercise diligence in protecting from damage the land and property of the United States covered by and used in connection with this permit, and shall pay the United States for any damage resulting from negligence or from the violation of the terms of this permit or of any law or regulation applicable to the national forests by the permittee, or by any agents or employees of the permittee acting within the scope of their agency or employment.

10. The permittee shall fully repair all damage, other than ordinary wear and tear, to national forest roads and trails caused by the permittee in the exercise of the privilege granted by this permit.

11. No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this agreement or to any benefit that may arise herefrom unless it is made with a corporation for its general benefit.

12. Upon abandonment, termination, revocation, or cancellation of this permit, the permittee shall remove within a reasonable time all structures and improvements except those owned by the United States, and shall restore the site, unless otherwise agreed upon in writing or in this permit. If the permittee fails to remove all such structures or improvements within a reasonable period, they shall become the property of the United States, but that will not relieve the permittee of liability for the cost of their removal and restoration of the site.

13. This permit is not transferable. If the permittee through voluntary sale or transfer, or through enforcement of contract, foreclosure, tax sale, or other valid legal proceeding shall cease to be the owner of the physical improvements other than those owned by the United States situated on the land described in this permit and is unable to furnish adequate proof of ability to redeem or otherwise reestablish title to said improvements, this permit shall be subject to cancellation. But if the person to whom title to said improvements shall have been transferred in either manner provided is qualified as a permittee and is willing that his future occupancy of the premises shall be subject to such new conditions and stipulations as existing or prospective circumstances may warrant, his continued occupancy of the premises may be authorized by permit to him if, in the opinion of the issuing officer or his successor, issuance of a permit is desirable and in the public interest.

14. In case of change of address, the permittee shall immediately notify the forest supervisor.

15. The temporary use and occupancy of the premises and improvements herein described may be sublet by the permittee to third parties only with the prior written approval of the forest supervisor but the permittee shall continue to be responsible for compliance with all conditions of this permit by persons to whom such premises may be sublet.

16. This permit may be terminated upon breach of any of the conditions herein or at the discretion of the regional forester or the Chief, Forest Service.

17. In the event of any conflict between any of the preceding printed clauses or any provisions thereof and any of the following clauses or any provisions thereof, the following clauses will control.

18. A service charge in addition to the regular fees shall be made for failure to meet the fee payment due date or any of the dates specified for submission of statements required for fee calculation. The service charge shall be one (1.0) percent per month of the fee from the date statement and fees were due or \$15, whichever is greater. If a due date falls on a nonworkday, the service charge will not apply until the end of the next workday.
19. The permittee shall indemnify the United States against any liability for damage to life or property arising from the occupancy or use of National Forest lands under this permit.
20. Avalanches, rising waters, high winds, falling limbs or trees, and other hazards are natural phenomena in the forest that present risks which the permittee assumes. The permittee has the responsibility of inspecting his site, lot, right-of-way, and immediate adjoining area for dangerous trees, hanging limbs, and other evidence of hazardous conditions, and after securing permission from the Forest Service, of removing such hazards.
21. This permit is granted with the express understanding that should future location of Government improvements or road rights-of-way require the relocation of the permittee's improvements, such relocation will be done by the permittee at his expense within sixty (60) days following request to relocate.
22. This permit confers no right to the use of water by the permittee.
23. This permit shall not be exclusive. The Forest Service reserves the right to use or permit others to use any part of the permitted area for any purpose, provided such use does not interfere with the rights and privileges hereby authorized.
24. When surface water sources are used for domestic purposes, the water system shall meet the standards for individual water supply systems as prescribed by the State in which the facility is located.
25. Unless sooner terminated or revoked by the Regional Forester, in accordance with the provisions of the permit, this permit shall expire and become void on December 31, 1982, but a new permit to occupy and use the same National Forest land may be granted provided the permittee will comply with the then-existing laws and regulations governing the occupancy and use of National Forest lands and shall have notified the Regional Forester not less than three (3) months prior to said date that such new permit is desired.

In reply to your letter of Oct. 20, 1971 the situation is as follows:- On receipt of your letter of Sept 22 1971 a copy was made and attached to a request for a Special Use Permit and submitted to the Kaniksu National Forest Ranger at the Falls Ranger Station. I was informed that it would require 60 days or more to process this application. After the request was approved some time would elapse before I would receive a bill for the fee. After the fee was paid I would eventually receive a receipt for the payment.

I am enclosing a check for the filing fee for the water use permit.

Please advise me as to what else I should or can do in this matter. I actually will not start work on the project until April of next year.

Yours truly
