Dear Mr. Allred:

I am inquiring as to the fate of my water license. It was approved 22 September 1971. I submitted the affidavit giving proof of beneficial use prior to the deadline of 1 September 1976. It was inspected by a gentleman from the Coeur d'Alene office in the summer of 1977. Nothing has happened since.

I find it very difficult to believe that a year and a half has gone by with no results. It is my understanding that all that remains to be done is the issue of a "Water License", an administrative matter that should hardly take so long to complete. Perhaps something has happened, causing it to become lost somehow. I would appreciate it very much if my case could be checked out and the matter expedited somewhat. Looking for an early reply, I remain,

Yours Truly,

Dear Mr. Sanderson:

One of the conditions of approval of your water Permit No. 97-7015 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended.
