Dear Sir:

It is rather hard for us to fill in the form sent in your letter of Oct. 31.

We thought when we received our permit at the time we applied for our water rights that that was all there was to it.

The main reason we applied for our water rights was because there was a strong rumor that one man was going to apply for water rights in our whole bay.

We could not see someone having the right to water which originates on our land which we have owned for over thirty years and water which is used exclusively by our family and for the lawn.

The water is piped from the spring to a container and then through a pump for home use. Also from the container to a pump for the lawn.

Hope this will be satisfactory to
show the beneficial use to which the
water goes. We certainly do not want to
have our permit lapse.

Yours truly
Mrs Garfield Purcott

Dear Mr. Truscott:

One of the conditions of approval of your water Permit No. 97-7010 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
