Department of Water Resources

Paul & Marie Jayo

Dear Mr. and Mrs. Jayo:

On November 8, 1982, the Department mailed to you pre-license correspondence which summarized the water that you had put to beneficial use under water permit 97-7004 as found by the Department's field examiner. Since some of the locations of acres found irrigated were different than described on your permit, we sent you an amendment of permit which you signed and returned to us with a \$20.00 filing fee on December 20, 1982.

Since that time additional review has been made on your permit and it was found that additional land should have been included. Therefore, we are sending you another amendment of permit application which you should sign and return. You do not need to send another \$20.00 fee as the fee you already paid will be used on this new amendment.

Following is a summary of water developed under your permit:

Amount of water that can be recognized as beneficially used under Idaho law: 0.50 cfs Source: Upper West Branch and ~~Good~~ *Goose* Creek

The maximum quantity diverted shall not exceed 243.0 acre feet per year.

Point(s) of diversion: NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21; NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29;
Twp 59N, Rge 5W, Bonner County

Beneficial Use: Irrigation of 56 acres within E $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 21;

Dear Mr. & Mrs. Jayo:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

We note that in reviewing this proof affidavit you indicate that you will install measuring devices as required by the conditions of approval of your permit. These measuring devices must be installed by the time our examiner makes the exam or your water rights cannot be confirmed by the issuance of a license. We are enclosing a list of the types of measuring devices approved by this office.

Also enclosed is an application for permit form with instructions as you requested in your letter.

If you have any questions concerning this matter, please contact us.

Sincerely,

Dear Mr. & Mrs. Jayo:

One of the conditions of approval of your water Permit No. 97-7004 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
