LICENSE OF WATER RIGHT

License of Water Right No. 97-7000 Priority Dec. 4, 1967 Amount 0.10 cfs

THIS IS TO CERTIFY, that HENRY J. RICARD
of Priest River, Idaho, has complied with the terms and conditions of Permit
No. 97-7000 issued pursuant to Application for Permit dated December 4, 1967,
and has submitted proof to the Department of Water Administration on February 14, 1969,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 0.10 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from an unnamed spring
tributary of _____, is hereby confirmed in the following amounts:

Amount 0.10 cfs for Irrigation from May 1 to Oct. 31 (both dates inclusive)

Amount 0.10 cfs for Domestic from Jan. 1 to Dec. 31 (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Subject, however, to the condition that no more than 0.10 cfs of water be diverted at
any one time, said waters to be diverted within the _____

NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6, Twp. 59 N, Rge. 4 W, B. M.

in the county of Bonner; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 36 acre feet per year or _____
3.0 acre feet per acre, for irrigation use and 30.6 acre feet per year for
domestic use with the total amount not to exceed 66.6 acre feet per year.

Description and location of place of use:

County of Bonner)

Permit No. 97-700

Henry J. Ricard of Route #5, Priest River, Idaho 83856
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Waters of the State of Idaho No. 97-7000.

That under the terms and conditions of said permit, work thereunder was required to be completed by March 1, 1969.

That he has heretofore performed the following work described under said permit:
Spring flow has been entrapped in a bed of perforated 4" drainage tile and washed gravel from which it flows to the point of use through 2" plastic pipe buried underground 48" deep from where it will be pressurized for use as in the application for permit.

Costing \$ 685.54

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: Unable to install measuring device due to the heavy snowfall in this area. Also, have not as yet found a measuring device that will measure the small flow involved as noted in our letter of February 11, 1969

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the completion of obligations under said permit to June 1, 1969.

August 27, 1973

Mr. Henry J. Ricard
Route #5
Priest River, Idaho 83856

Dear Mr. Ricard:

A representative of this Department has made an examination of the works covered by your Permit No. 97-7000 and has found the following:

Quantity of water diverted: 0.10 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.10 cfs

The maximum quantity of water diverted shall not exceed 66.6 acre feet per year.

Beneficial use: Irrigation of 12 acres and domestic purposes within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 6, Twp. 59 N, Rge. 4 W, B.M.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6, Twp. 59 N, Rge. 4 W, B.M.

Source: Unnamed spring

Priority date established: December 4, 1967

Your permit lists the source of water as being subterranean, however, in reviewing your file we find that the source should be an unnamed spring. Before we can issue your water license as set forth above it will be required that the permit be amended to show the correct source of water. We have inclosed a partially completed application for amendment for your use in this matter. You will note that the \$10.00 filing fee has been waived.

Please sign the amendment application and return it to this office within 10 days in order that we may issue your water license. If you do not concur with these findings, please contact us within the 10 day period.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Re: Permit No. 97-7000

Mr. Henry J. Ricard
Route 5
Priest River, Idaho 83856

Dear Mr. Ricard:

We are in receipt of your letter of September 3, 1969. We expect to make the examination of your works sometime during the 1970 irrigation season. We are sorry we will not be able to make the examination sooner, but our staff is very limited and we have to make examinations throughout the entire state.

Our examiner will notify you in advance of his visit, in order that you can arrange to be home and show him your diversion works.

We are sorry this exam cannot be made sooner, but it is beyond our control.

Very truly yours,

Dean R. Reynolds
Field Examiner

Re: Permit #97-7000

Attention: R. Keith Higginson
State Reclamation Engineer

Gentlemen:

In your letter of April 4, 1969 you advised that a field examination would be made of our water system.

This system was completed several months ago, including installation of a commercial type measuring device, and I am wondering if an examiner has made the inspection as yet and if not just when we can expect to have this inspection and receive our license.

Very truly yours,

Henry J. Ricard

Re: Permit No. 97-7000

Henry J. Ricard
Route 5
Priest River, Idaho

Dear Mr. Ricard:

Please find enclosed a copy of the DENIED extension of time request. The Department cannot allow an extension request for the installation of a measuring device.

Please be advised that a measuring device must be installed prior to the field examination which must be made by a representative from this office before a license will be issued. We cannot tell just when this examination will take place, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than yourself should be contacted, please advise.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Re: Permit #97-7000

Gentlemen:

In reply to your letter of February 26, 1969 I would like to request an extension of time of no less than 60 days to permit acquisition and installation of a measuring device. This extension is necessary due to the heavy snowfall in this area this winter which makes it extremely difficult to get to the location for installation of this device.

Very truly yours,

Henry J. Ricard

Re: Permit No. 97-7000

Mr. Henry J. Ricard
Route #5
Priest River, Idaho 83856

Dear Mr. Ricard:

This office is in receipt of your affidavit setting forth proof of application of the water to beneficial use under permit No. 97-7000. You have stated that you have not installed a measuring device as required under your permit. As you may be aware, before we can issue a license we are required by law to conduct an inspection to determine the amount of beneficial use that has been made under the permit. To accomplish this we would require the use of the measuring device set forth under the terms of your permit.

I would appreciate hearing from you as soon as possible as to your intentions regarding the installation of a measuring device. Please indicate what type and when you intend to install that device.

In the event that we were to make the inspection, and the measuring device was not installed, our probable course would be to deny the proof of application of water to beneficial use and your permit would lapse.

If you have any questions, please contact this office.

Very truly yours,

C. STEPHEN ALLRED, Assistant
State Reclamation Engineer

Attention: Mr. R. Keith Higginson
State Reclamation Engineer

Gentlemen:

Enclosed herewith is Proof of Application of Water to Beneficial Use as requested in your letter of January 21, 1969.

After developing this spring the quantity of water was not as much as we had anticipated and requested in our permit, however, the spring has been measured by running and timing in a 500 gallon tank. It is found to run at 8 gallons per minute. I give this figure in gallons per minute since in second feet it is only approximately .13 cubic feet per second.

If any further information is needed we will be pleased to furnish it upon request.

Very truly yours,

Henry J. Ricard

Re: Permit No. 97-7000

Mr. Henry J. Ricard
Route #5
Priest River, Idaho 83856

Dear Mr. Ricard:

One of the conditions of the approval of your permit
97-7000 was that proof of application of the water to
beneficial use be submitted to this office on or before March 1
1969.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

R. Keith Higginson

State Reclamation Engineer

Priest River Times
Priest River,
Idaho 83856

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

(Do not sign letter)
