Mr. Ray Troudt

Dear Mr. Toudt:

Since your claim was incomplete and not notarized, I have taken the liberty of preparing a new claim and have enclosed it along with your Check No. 92-27 in the amount of \$30.00 and your incomplete claim. I have listed below the changes and additions to your claim with the reason for the difference. I have not listed information that was changed due to a matter of semantics.

Item No. 3 - Since it appears you have not actually measured the water, I have used a diversion rate of 0.16 cfs (72 gpm). This estimated rate is undoubtedly higher than your actual diversation rate, but it is more reasonable than your original claim of 0.64 cfs (287 gpm), since we are speaking of a 1½" gravity-flow line.

Item Nos. 5a and 6a - In Item No. 6a, you listed a description of a 20-acre parcel of land and a 10-acre parcel of land, both within the SESE, Sec. 20, T56N, R5W. Since I am not sure in which of these parcels the spring and trailers are located, and since both parcels are within the SESE, Sec. 20, I have simply used the SESE as the legal description.

These changes are intended as an aid to you in identifying your water right. If you do not concur with any change I have made, please feel free to change that item. If you do change any items, please initial the changes.

Before you resubmit the claim, please have it notarized. If I can be of any further assistance, please contact me at this office.
