Dear Mr & Mrs Dexter,

Please find enclosed your Claim to a Water Right and your check #50-947 in the amount of \$10.00. We are returning your claim to you for clarification.

You appear to have only one house with only one pump yet you list 2 points for each of them. I assume you are doing this because you are unsure which half of the property each is on. However, I fear that this might cloud your water right in the future. To be of greatest value to you, the claim needs to be just as specific as possible. Since the claim is not required under the law, an unclear statement might prove of less value in the future than no statement.

Therefore, I would recommend determining which quarter-quarter section the house and pump each are truly in before resubmitting the claim.

Also, the standard quantity of water recognized as used by the normal household with a yard is 0.04 cfs. You would be entitled to list this quantity on your claim and might wish to since it is a greater quantity than you have listed.

If we may be of any further assistance, please do not hesitate to contact us.

Sincerely,
