Dear Mr. Buxton:

In reply to your letter of February 18th, in regard to a proposed timber sale on the N $\frac{1}{2}$, SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 8; Lots 1 and 2, (W $\frac{1}{2}$ NW $\frac{1}{4}$), E $\frac{1}{2}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$, Lot 3 (NW $\frac{1}{2}$ SW $\frac{1}{4}$), E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 18, all in Twp. 61 N., Rge. 3 W., E. M., located in Boundary County,

The location of the above application is an area where conservation of water for reclamation is not a primary consideration, however the holder of licensed water rights has been notified, but do not see any objection to the sale of the timber. Best logging practices should be followed, however to prevent erosion, with sufficient inspection to insure that such practice is followed in all cases.

This proof is for Beneficial Use In Water District No.

1. Name of applicant Diamond Hatch Co., C/o H. A. Sewell, Newport, Washington

2. Source of water supply: Unnamed tributary No. fork Indian Creek

3. Location of point of diversion: Is in the SE 1/4 NW 1/4 of Section 18

T. 61 N. R. 3 W. County of Bonner

4. Describe works as they exist, giving dimensions and capacities of same. This is the first place where additional water is put into the flume. A pool is by a rock dam and a smaller square type flume extends down stream approx. 200' from the pool to where it joins the main flume. Cross section of this flume is 1' deep x 56" w. It extends under the large flume and then down stream between the large flume and the roadway.

5. Water is used for: Transportation of logs, poles and other timber products in main 48" flume known as Indian Creek Logging Flume.

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Point of diversion is in the SW 1/4 NW 1/4 of Section 18

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Priest Lake

Remarks: This is additional water for carrying the logs.

Stations for putting the logs into the flume are constructed at all vantage points along the main flume.

Gentlemen:

We are today in receipt of a copy of your issue of July 28, 1949, containing fourteen notices in connection with Diamond Match Company proofs.

We find these to be letter perfect, but there is one correction which we will ask you to make in your subsequent editions, which is not a fault of yours, but rather an error in the copy sent you.

This is in the notice on Permit No. 19725, the third to last line- which should read "unnamed tributary of North fork", instead of unnamed territory.

We thank you for your cooperation in this matter.

Very truly yours,

MARK R. KULP
