

92-2076

STATE OF IDAHO : ss
COUNTY OF BONNER)

I, ROBERT E. DOW, Notary Public for the State of Idaho
residing at Priest River, Idaho, hereby certify that on August 22, 1949
at 11:00 A.M. in the matter of Proof of Completion of Works and Proof
of Application of Water to Beneficial Use on Permits Nos. 19714 to
19727 inclusive issued by State of Idaho to The Diamond Match Company,
no protests were received, and H. A. SEWELL, Agent of Diamond Match
Company was present prepared to make the required proofs, but the
necessary forms of Affidavit not being on hand, the matter was
continued until 11:00 A.M. September 12, 1949, in order to permit
the completion of proper proofs.

License and Certificate of Water Right

Water License No. 19719 Amount 10 second feet
Water District No. Priority November 6, 1945

THIS IS TO CERTIFY that THE DIAMOND MATCH COMPANY
of New York, N. Y. , made application for a permit to appropriate the
public waters of the State of Idaho, dated November 6, , 19 45 ; that Permit No. 19719
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
10 second feet, was issued thereunder on July 6, , 19 51 , showing that said works
were completed on the 12th day of September , 19 49 ; and that on the 12th
day of September , 19 49 ,

THE DIAMOND MATCH COMPANY
of New York , State of New York , made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of North fork Indian
Creek , a tributary of Priest Lake , for the purpose of transportation of logs, poles,
and other / timber products , under Use Permit No. 19719 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 4780 , on the 6th day of July , 19 51 ;
The right hereby confirmed dates from November 6, , 1945 ;
The Point of Diversion is located

in the SW 1/4 SW 1/4, Sec. 8 , Tp. 61 N. , R. 3 W. , B. M. Boundary County
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed ten (10) cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

APPLICATION FOR PERMIT To Appropriate the Public Waters of the State of Idaho

Application No. 27255
Permit No. 19719
District No.

1. Name of Applicant: THE DIAMOND MATCH COMPANY

Postoffice address 30 Church St., New York County: State: N. Y.

I. If applicant is a corporation, give:

(a) Date and place of incorporation: Dec. 26, 1930- State of Delaware

(b) Amount of capital stock: \$26,337,500.00

(c) Amount paid in: \$26,337,500.00

(d) Names and addresses of directors: William A. Fairburn, Elisha Walker, Howard F. Holman,
F. Austin Lidburg, Henry G. Lucas, Manning Jacob, Robert G. Fairburn, Edward T. Gardner;
C/o Diamond Match Co., 300 Church St., New York, N. Y.

II. The financial resources of the applicant are:

(a) Cash on hand: \$2,688,113.50- Dec. 31, 1944

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources: \$33,264,382.16

2. Quantity of water claimed: Ten (10) cubic feet per second.

3. Source of water supply: Indian Creek, North fork which is a tributary of Priest Lake

4. Location of point of diversion: As shown by map-Point "F" feet distant from the
corner of Section , T. , R. , B. M., and is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$
of Section 9 , T. 61 N. , R. 3 W. , B. M., County of Boundary

5. Water is to be used for Transportation of logs, poles, and other timber products

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: As shown by map feet distant from corner of Section

T. , R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to Priest Lake, as shown by map at a point outside meander line feet
distant from the corner of Section --, T. --, R. --, B. M., in the
of Lot 1 of Section 27 , T. 61 N. , R. 4 W. . B. M.

7. Estimated cost of works: \$ 150,000.00, including Applications 27250 to 27254, and 27256 to 27263, inclusive

8. Kind of works: Dam and V Logging flume 48" side

9. Height of dam 10 feet; length of dam at top 80 feet; length of dam at bottom 30
feet; material used in dam: Timber crib sealed with brush, rocks and earth

10. Size of headgate: Width 7 feet; height 7 feet;

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
dimensions of flume: 48" V

Diameter of pipe inches; length of conduit entire project 7.37 miles.

Average grade per mile 200 to 600 feet.

12. The time required for the completion of such work is Five (5) years.

13. The time required for the complete application of the water to the proposed use is Five (5) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? No If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Re: Idaho Water Right License Nos. 97-2030, 97-2031, 97-2056,
97-2058, 97-2060, 97-2061, 97-2062 and 97-2063.

Gentlemen:

On April 26, 1985, the Idaho Water Resource Board filed an Application for Permit to develop a minimum instream flow water right on Indian Creek tributary to Priest Lake in Idaho. In the course of investigation of water rights related to Indian Creek, we have discovered the eight above-referenced licenses in the name of the Diamond Match Co. The purpose of this letter is to solicit information regarding the currency and validity of the licensed water rights.

For your information, we have enclosed copies of each of the licenses, and a copy of a map of the "Indian Creek Logging Flume," which was prepared in 1951. At the time of our field examination, which was conducted in 1951, the logging flume was functioning for the purpose of conveying logs to the match factory located along the banks of Priest Lake.

It is our understanding that this logging flume and the associated match factory have not been in existence for many years. Pursuant to Section 42-222, Idaho Code, a copy of which is enclosed, "All rights to the use of water acquired under this chapter or otherwise shall be lost and forfeited by a failure for a term of five (5) years to apply it to the beneficial use for which it was appropriated and when any right to the use of water shall be lost through nonuse or forfeiture such rights to such water shall revert to the State and be again subject to appropriation under this chapter." Based on this statute, it appears likely that the above-referenced licensed water rights have been forfeited.

Diamond Match Co.

May 1, 1985

Page 2

For the purpose of clarifying the record on this matter, we ask that you provide information regarding when the match factory along Priest Lake last utilized the Indian Creek logging flume. Based on information that you provide, the file can be better documented regarding the availability of flows for instream flow purposes. I would ask that you please provide this information to my attention by June 1, 1985, so that we may proceed in a timely manner with processing the minimum stream flow application.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. _____

Comes now THE DIAMOND MATCH CO. and represents to
the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the
Public Waters of the State of Idaho, No. 19719, 19720, 19721, 19722, 19723, 19724

That the points of diversion ~~are~~ described in said Permit as
~~being located~~ shown by map points "F", "G", "H", "J", "K" & "L" in SW $\frac{1}{4}$ of NW $\frac{1}{4}$ Sec.
SE $\frac{1}{4}$ of NE $\frac{1}{4}$, NW $\frac{1}{4}$ of SE $\frac{1}{4}$ (2), and SE $\frac{1}{4}$ of SW $\frac{1}{4}$ (2), and conveyed to the place
of use through the 48" flume & various feeders of Sec. 8, T 61 N.R. 3 W.B.M.
filed herewith.

That ~~it~~ now requests that the point of diversion be changed
to a point located as shown on Map Point "Q" in SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Sec. 8, T 61,
N.R. 3 W.B.M., and conducted to the place of
use through the 48" V Flume ~~thence~~ as per map above referred
to.

That his reasons for desiring to make such change are as fol-
lows: Timber above point "Q" has mostly been destroyed by bugs so that flume
is unnecessary above point "Q". (Former Amendment showed wrong point of diversion)

That no one will be injured by such change, and that such
change will be made at Permit Holder's own risk.

Signed at Newport, Wash. this 18 day of June 19 51

Re: Permits Nos. 19714 to 19727, inclusive.

Mr. H. A. Sewell
Consulting Engineer
Newport, Washington

Dear Mr. Sewell:

In checking the reports of our Field Engineer on his inspection of the above numbered Permits, we find that the point of diversion from North Fork Indian Creek, described in Permits Nos. 19719 to 19724 inclusive as being in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 8, Township 61 North, Range 3 West, B.M., is in error as the point of diversion is actually located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section.

Also, that the point of diversion described in Permit No. 19725 as in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 18, Township 61 North, Range 3 West, B.M. is really in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of said Section.

Before final action can be taken on these Permits, it will be necessary to amend the points of diversion and we enclose herein, forms of application for such amendment. These should be executed by you and returned to this Department for approval and record.

Following this, we shall write you in regard to the statutory fees required for the issuance of Certificates of Completion of Works and Licenses under all of the above numbered Permits.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

Chief Clerk

This applies also to Permits, 19720,1,2,3, and 4
Also see Permits Nos. 19721 to 19727.

Form 23

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 19719

This proof is for Completion of works and Beneficial use In Water District No.

1. Name of applicant Diamond Match Co., C/o H. A. Sewell, Newport, Washington

2. Source of water supply: No. fork Indian Creek

3. Location of point of diversion: Is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8

T. 61 N. R. 3 W. County of Bonner

4. Describe works as they exist, giving dimensions and capacities of same: These permits are for use of water in transport of logs thru a flume. This is the highest P.D. in the system. The dam is approx. 18' high by 120' long. It is made lumber against heavy log cribbing. There is a layer of 2" planks covered with roofing paper and that covered again with 1" boards. The spillway is a wooden headgate approx. 8' wide and full depth of dam in center of dam. The flume inlet is made of wood planks with opening 50" wide by approx. 11' deep. The flume is all wooden construction, built of 1" boards on 4" x 6" timbers all mounted on 5" x 10" stringers. Supports are 4' apart. Side dimension is 48", depth is 3', and top width is 65". Flume extends down Indian Creek to Priest Lake.

Transportation of logs, poles and other timber products in Main

5. Water is used for: 48" V flume known as Indian Creek Logging Flume

yes

6. State whether or not water has been turned into works of diversion:

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Water use is non-consumptive. Water flows into lake at end of flume.

P. D. is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8

(Submit map on attached plat, showing location and details of above description.)

Priest Lake

8. What large stream would the water here appropriated finally reach?

Remarks: At time of inspection flume was carrying water to a depth of approx. one foot. A small board dropped into the flume floated 272 feet in 17 seconds. Logs have been clocked at 25 minutes for 4 3/4 miles of travel.

The flumes will carry much more water than has been filed on.

Stations for putting the logs into the flume are constructed at all vantage points along the main flume.

This examination was made on the 5 th day of June, 19 51

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Twp. 61 N. R. 3 W. B.M.

STATE OF IDAHO
COUNTY OF BONAIRE

I, ROBERT E. DOW, Notary Public for the State of Idaho
residing at Priest River Idaho hereby certify that
at 11:00 A.M. in the matter of Proof of Completion of Works and
of Application of Water to Beneficial Use on Permits Nos. 197
19727 inclusive issued by State of Idaho to The Diamond Water
no protests were received, and H. A. SMITH, Agent of Diamond
Company was present prepared to make the required deposit, and
necessary forms of Affidavit not being on hand, the matter was
continued until 11:00 A.M. September 12, 1949, in order to
the completion of proper proofs.

ROBERT E. DOW, Notary Public

Permit No. 19719

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. H. A. SEWELL, Newport, Washington, Civil Engineer, Newport, Wash.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf. THE DIAMOND MATCH CO. 30 Church St. New York

Ans. I am its agent authorized to represent it in all matters pertaining to Water Rights on tributaries of Priest Lake, Idaho.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 19719, Date Nov 8, 1945, Date of Priority 9:00 A.M. Nov. 6, 1945

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Indian Creek, North Fork Location: As shown by map point "Q" in SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Sec. 8, T. 61 N. R. 3 W.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Dam and V Flume Height of dam 20', length at top 124', length at bottom 46'. Material used in construction logs, plank, brush, earth and rocks. Reservoir capacity 9 acre feet. Headgate size: Width 9', Height 4.5' Conduit width at water line 5.66', depth of water 2.83', average grade per mile 200-600' Length 5 miles. Said works are capable of conducting to the place of intended use 20 second feet of water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Transportation of logs, poles and other timber products in main 48" flume known as Indian Creek logging flume.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. This water right is one of a system Nos. 19714 to 19727 inclusive, appropriating water for use in said Indian Creek Logging Flume.

19719

[Handwritten signature]

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. For efficient operation at least 50 second feet including storage must be available above logs for sluicing same.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All available water under pemits 19714 to 19727 is being used.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other waters are available except flood waters, which are used when available to eliminate curtailment of operations due to having to use storage.

(Sign) _____

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Priest River, County of Bonner, State of Idaho, on this 12 day of September, A. D. 19 49.

PERMIT NO. 19719**Proof of Application of Water to Beneficial Use****Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. L. J. Paterson, 40, Coolin, Idaho, Boat Operator & Contractor
Coolin, Idaho

Ques. 2. Are you acquainted with H. A. Sewell, Agent of The Diamond Match Co., the holder of Permit No. 19719? How long have you known him and where does he reside?

Ans. 8 Years Newport, Washington

Ques. 3. Have you read or heard read said Permit No. 19719, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Indian Creek, North Fork at place described in permit, by dam and flume
as described in permit

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 20 second feet of water

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Transportation of logs, poles and other timber products in main 48" flume
known as Indian Creek logging flume.

19719

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. This water right is one of a system Nos. 19714 to 19727, inclusive
appropriating water for use in said Indian Creek Logging flume

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have observed operation of flume and sluicing many times.

STATE OF IDAHO
Department of Reclamation

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of Bonner

SS.

H. A. Sewell, Agent of
The Diamond Match Co.

being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 19719, and that his postoffice address is Newport

State of Wash.

Second: That the name of the stream which said water is to be diverted is Indian Creek, North Fork

Third: That the point of diversion of said water is as shown by map point "Q" in SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Sec. 8, T. 61 N., R. 3 W.B.M.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by November 8, 1950

Fifth: That the use for which said water is intended is transportation of logs, poles and other timber products

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of works: Dam and V Flume

(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam 20 feet, length of dam at top 124 feet, length of dam at bottom 46 feet. Material used in construction logs, plank, brush, earth and rocks.

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir 5 acre feet.

(c) Size of headgate: Width 9 feet, height 4.5 feet.

(d) Conduit width at bottom feet, width at water line 5.66

(State whether ditch, flume or pipe)
feet, depth of water 2.83 feet; diameter of pipe inches, average grade per mile is 200-600 feet. Length of conduit is 5 miles.

Seventh: That said works are capable of conducting to the place of intended use 20 second feet of water.

Eighth: That water appropriated under said permit is available for increase of land described as follows transportation of logs, poles and other timber products in main 48" flume known as Indian Creek logging flume.

Ninth: Remarks: That this water right is one of a system Nos. 19714 to 19727 inclusive, appropriating water for use in said Indian Creek Logging Flume.
