License and Certificate of Water Right

Water License No. 19714

Amount 8 second feet

Water District No.

Priority November 6, 1945

. THIS IS TO CERTIFY that THE DIAMOND MATCH COMPANY
of New York, N. Y., made application for a permit to appropriate the
public waters of the State of Idaho, dated November 6, 1945; that Permit No. 19714
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
eight second feet, was issued thereunder on July 6, 1951, showing that said works
were completed on the 12th day of September, 1949; and that on the 12th
day of September, 1949,

THE DIAMOND MATCH COMPANY

of New York, State of New York, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of South fork
Indian Creek, a tributary of Priest Lake, for the purpose of transportation of logs,
other timber products
poles and /, under Use Permit No. 19714 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 4775, on the 6th day of July, 1951;

The right hereby confirmed dates from November 6, 1945;

The Point of Diversion is located

in the SW 1/4 SE 1/4, Sec. 13, Tp. 61 N., R. 4 W., B. M. Bonner County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed eight cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

6th day of July, 1951.

APPLICATION FOR PERMIT To Appropriate the Public Waters of the State of Idaho

H. A. Sewell
Newport, Washington

Application No. 27250
Permit No. 19714
District No.

1. Name of Applicant: THE DIAMOND MATCH COMPANY

Postoffice address: 30 Church St., New York County:

State: N. Y.

I. If applicant is a corporation, give:

(a) Date and place of incorporation: Dec. 26, 1930- State of Delaware

(b) Amount of capital stock: 26,337,500.00

(c) Amount paid in: 26,337,500.00

(d) Names and addresses of directors: William A. Fairburn, Elisha Walker, Howard F. Holman, F. Austin Lidburg, Henry G. Lucas, Manning Jacob, Robert G. Fairburn, Edward T. Gardner; C/o Diamond Match Co. 30 Church St., New York, N. Y.

II. The financial resources of the applicant are:

(a) Cash on hand: \$2,688,113.50- Dec. 31, 1944

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources: \$33,264,382.16

2. Quantity of water claimed: Eight (8) cubic feet per second.

3. Source of water supply: Indian Creek, South fork which is a tributary of Priest Lake

4. Location of point of diversion: As shown by map- Point "A" feet distant from the corner of Section , T. , R. , B. M., and is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 20 , T. 61 N. , R. 3 W. , B. M., County of Boundary

5. Water is to be used for Transportation of logs, poles and other timber products

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: As shown by map- ~~map~~ ~~at distant from~~ Point "A" corner of Section

T. , R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to Priest Lake, ~~at a point~~ ^{meander line} as shown by map, at a point outside feet/

~~distant from the~~ ~~corner of Section~~ , T. , R. , B. M., in the of Lot 1 of Section 27 , T. 61 N. , R. 4 W. . B. M.

7. Estimated cost of works: \$ 150,000.00 including Applications 27251 to 27263 inclusive.

8. Kind of works: Dam and V logging flume 48" side

9. Height of dam 10 feet; length of dam at top 80 feet; length of dam at bottom 30 feet; material used in dam: Timber crib sealed with brush, rocks and earth

10. Size of headgate: Width 7 feet; height 7 feet;

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet; dimensions of flume: 48" V

Diameter of pipe inches; length of conduit entire project 7.37 miles.

Average grade per mile 200 to 600 feet.

12. The time required for the completion of such work is Five (5) years.

13. The time required for the complete application of the water to the proposed use is Five (5) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? No If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

THE DIAMOND MATCH CO.

Applicant.

Remarks: This water right is one of a system serving Indian Creek Logging Flume and consisting of diversions at points A, B, C, D, E, F, G, H, J, K, L, M, N & P

14.

Twp.	Range	Sec.	NE ¹ / ₄				NW ¹ / ₄				SW ¹ / ₄				SE ¹ / ₄				Totals
			NE ¹ / ₄	NW ¹ / ₄	SW ¹ / ₄	SE ¹ / ₄	NE ¹ / ₄	NW ¹ / ₄	SW ¹ / ₄	SE ¹ / ₄	NE ¹ / ₄	NW ¹ / ₄	SW ¹ / ₄	SE ¹ / ₄	NE ¹ / ₄	NW ¹ / ₄	SW ¹ / ₄	SE ¹ / ₄	
			APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. 19714 Comes now THE DIAMOND MATCH CO. and represents to the State Reclamation Engineer of the State of Idaho: That it is the owner and holder of Permits to appropriate the Public Waters of the State of Idaho, Nos. 19714, 19715, 19716, 19717, 19718. That the points of diversion are described in said Permits as shown by map points "A", "B", "C", "D" and "E" in NW¹/₄ of SW¹/₄, (3) of Sec. 20, and SE¹/₄ of NE¹/₄, SW¹/₄ of NE¹/₄ of Sec. 19, T. 61 N., R. 3 W. B.M. and conveyed to the place of use through 48" V Flume & various feeders, as per map filed herewith. That it now requests that the point of diversion be changed to a point located as shown by map Point "S" in SW¹/₄ of SE¹/₄ of Sec. 13, T. 61 N., R. 4 W. B.M., and conducted to the place of use through the Feeder flume 5'x1.5' and main 48" V Flume, as per map above referred to. That his reasons for desiring to make such change are as follows: South Fork of Indian Creek can be logged more economically by truck than by flume, and water is needed in main 48" V flume on Indian Creek. That no one will be injured by such change, and that such change will be made at Permit Holder's own risk. Signed at Newport, Wash, this 26 day of October, 1948. THE DIAMOND MATCH CO. By: H. A. Sewell, Agent Date of Receipt at Department of Reclamation - October 30, 1948. APPROVAL OF STATE RECLAMATION ENGINEER I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, do hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, Nos. 19714, 19715, 19716, 19717, 19718. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby. MARK R. KULP State Reclamation Engineer																

Permit No. 19714
CERTIFICATE OF COMPLETION OF WORKS

To All Whom It May Concern:

This is to certify that THE DIAMOND MATCH COMPANY of New York, County of _____, and State of New York, the holder of Permit No. 19714, issued upon Application No. 27250 bearing date of priority of November 8, 1945, authorizing the diversion of Eight (8) second feet of the waters of Indian Creek (South fork), a tributary of Priest Lake, County of Bonner, State of Idaho, for transportation of logs, poles and other timber products, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use eight (8) second feet of the waters of South fork of Indian Creek; that the point of diversion of said waters is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 13, Twp. 61 North, Range 4 West, B.M.

Witness my hand this 6th day of July, A. D. 1951.

MARK R. KULP
State Reclamation Engineer

Proof of Completion of Works made September 12, 1949.

Re: Idaho Water Right License Nos. 97-2030, 97-2031, 97-2056,
97-2058, 97-2060, 97-2061, 97-2062 and 97-2063

Gentlemen:

On April 26, 1985, the Idaho Water Resource Board filed an Application for Permit to develop a minimum instream flow water right on Indian Creek tributary to Priest Lake in Idaho. In the course of investigation of water rights related to Indian Creek, we have discovered the eight above-referenced licenses in the name of the Diamond Match Co. The purpose of this letter is to solicit information regarding the currency and validity of the licensed water rights.

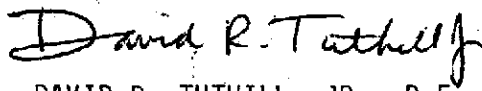

For your information, we have enclosed copies of each of the licenses, and a copy of a map of the "Indian Creek Logging Flume," which was prepared in 1951. At the time of our field examination, which was conducted in 1951, the logging flume was functioning for the purpose of conveying logs to the match factory located along the banks of Priest Lake.

It is our understanding that this logging flume and the associated match factory have not been in existence for many years. Pursuant to Section 42-222, Idaho Code, a copy of which is enclosed, "All rights to the use of water acquired under this chapter or otherwise shall be lost and forfeited by a failure for a term of five (5) years to apply it to the beneficial use for which it was appropriated and when any right to the use of water shall be lost through nonuse or forfeiture such rights to such water shall revert to the State and be again subject to appropriation under this chapter." Based on this statute, it appears likely that the above-referenced licensed water rights have been forfeited.

Diamond Match Co.
May 1, 1985
Page 2

For the purpose of clarifying the record on this matter, we ask that you provide information regarding when the match factory along Priest Lake last utilized the Indian Creek logging flume. Based on information that you provide, the file can be better documented regarding the availability of flows for instream flow purposes. I would ask that you please provide this information to my attention by June 1, 1985, so that we may proceed in a timely manner with processing the minimum stream flow application.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

Re: Permits Nos. 19714 to 19727, inclusive

Mr. H. A. Sewell
Consulting Engineer
Newport, Washington

Dear Mr. Sewell:

Your letter of June 16, enclosing applications for amendment to the points of diversion described in Permits Nos. 19719 to 19725, inclusive, of the Diamond Match Company, has been received and the amendments have been approved and recorded.

These corrections in no way invalidate the proofs that have been made on these several Permits, and upon receipt of the statutory fees, final papers will be issued for the amounts applied for in these several Permits, as follows:

Licenses on Permits Nos. 19715 to 19718 inclusive, Nos. 19720 to 19725 inclusive and No. 19727, on which Certificates of Completion of Works were issued and sent you on October 10, 1949. The License fee on each of these amounts to \$5.00.

Certificate of Completion of Works and License on Permit No. 19714 for 8 second feet - total fees \$10.00, or \$5.00 for each proof.

Certificate of Completion of Works and License on Permit No. 19719 for 10 second feet - total fees \$10.00, or \$5.00 for each proof.

Certificate of Completion of Works and License on Permit No. 19726 for 25 second feet, - fee of Completion of Works amounts to \$9.50, being at the rate of \$5.00 for the first 10 second feet and \$.30 for each additional second foot, and \$5.00 for the License fee, or a total of \$14.50.

In other words, the total fees amount to \$89.50.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permits nos. 19714 to 19727 inclusive

Dear Sir:

Replying to your letter of June 11, we have made the necessary amendments on the blanks furnished by you and are forwarding same together with revised maps.

Since these corrections of points of diversion are made to correct the record only, we assume they will not invalidate the proofs of beneficial use or completion of works.

Yours truly,

Form 23

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

BOISE, IDAHO

REPORT OF ENGINEER

Permit No. 19714

This proof is for Completion of works and beneficial use In Water District No.

1. Name of applicant. Diamond Match Co., C/o H. A. Sewell, Newport, Washington

2. Source of water supply: South fork Indian Creek

3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13

T. 61 N. R. 4 W. County of Bonner

4. Describe works as they exist, giving dimensions and capacities of same: Water is picked up by feeder flume 18" deep x 62" wide x 80' long in the mouth of the S. Fork of Indian Creek and dumped into the main flume described in Permit 19719. The pool is formed by a small wooden dam approx. 4' high across the mouth of the stream. Boards have been fastened to a heavy log for backing and support.

5. Water is used for: Transportation of logs, poles and other timber products in Main 48" V flume known as Indian Creek Logging Flume

6. State whether or not water has been turned into works of diversion: yes

P. D. is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

This is a non-consumptive use and water returns to the lake at the mouth of Indian Creek where the logs are fed into the lake.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Priest Lake

Remarks: Water filed on in these permits merely add to that already in the large flume for transport of logs.

This examination was made on the 5th day of June, 1951

(Signed) E. M. Humphrey Examiner.

in this flume.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Subject: Diamond Match Permits #19714-19727 Inclusive

Dear Sir:

Replying to your favor of May 21, we will go over the permits with you here in our office which is located in the Sowder Building and then we will take you over to the Diamond Match Company where we have arranged for Mr. Geo. Ellersick to accompany you on your field trip.

Yours truly,

H. A. Sewell

Diamond Match Company
Newport, Washington

ATT: Mr. H. A. Sewell

Dear Mr. Sewell:

I intend to be in Newport the morning of Tuesday, June 5, ready to make inspection as required by law on the Permits being brought to License by the Diamond Match Company.

Will you or someone delegated to represent the Diamond Match Company please be prepared to accompany me on the inspection.

If the points of diversion and places of use cannot be reached with the State car I drive, will you please furnish necessary transportation.

If for any reason inspection cannot be made as intended, please advise this office immediately.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Mr. Sewell:

Last year we had so many inspections to make that we were unable to get to those due on the Permits of the Diamond Match Company.

This year we plan to do it without fail, probably the last of May or in June, depending upon road conditions and weather.

Will you please plan to accompany me on the inspection and also advise me when it can be made.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Subject: Diamond Match Co. permits

Dear Sir:

Under date of October 15th you wrote me that it was probably too late for your field engineer to examine these permits. It is yet a little early this spring as the snow is just going out up there, but if he can schedule the trip for June he can go up on the boat from Cavanaugh Bay and make the trip very nicely.

Yours truly,

HAS:L

Newport, Washington.

Dear Mr. Sewell:

Your letter of October 10th is received, in regard to inspection on permits of the Diamond Match Company.

If our Field Engineer is in that vicinity again this season he will contact you in order that the necessary arrangements may be made; but it is now so late that it is hardly probable that he will be able to make the inspection this year.

Very truly yours,

MARK H. KUIP
State Reclamation Engineer

Mr. Mark R. Kulp
State Reclamation Engineer
State Capitol
Boise, Idaho

Subject: Permits Nos. 19714 to 19727 incl.

Dear Sir:

In regard to examination by your field engineer, it will not be impossible to make the trip providing he gets here before the Diamond Match Co. shuts down its logging operations as they have a boat which can be used. It leaves Cavanaugh Bay each morning at 7:00 o'clock and returns in the afternoon. Also, transportation will be available at Indian Creek. However this takes longer for the inspection and probably comes at more inconvenient hours than using the direct road which is very uncertain as they have already had some snow which has melted we understand.

They will probably continue to log there until Thanksgiving and possibly until Christmas if we get a favorable season. If you will let me know when he is coming I will make the proper arrangements for him to see this work as the Diamond Match Company is anxious to conclude these matters.

Yours truly,

H. A. Sewell
Consulting Engineer

Re: Permits Nos. 19714 and 19727, inclusive

Mr. H. A. Sewell
Consulting and Contracting Engineer
Newport, Washington

Dear Mr. Sewell:

We acknowledge receipt of your letter of September 22, enclosing Proofs of Completion of Works under Permits Nos. 19714, 19719, and 19726, also Proofs of Beneficial Use under Permits Nos. 19714 to 19727, inclusive, all in the name of the Diamond Match Company.

These proofs have been duly filed, but as you know, before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We note your request that this examination be made at once, but as our Field Engineer is now making a scheduled trip into the Northern part of the State, it is hardly probable that he will be able to return for this examination during this present season. In this case, the examination will, of course, be made sometime next year, but since the priority is established and the proofs made, this will probably make no difference to the Permit holder.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permit No. 19714

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. H. A. SEWELL, Newport, Washington, Civil Engineer, Newport, Wash.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf. THE DIAMOND MATCH CO. 30 Church St. New York

Ans. I am its agent authorized to represent it in all matters pertaining to Water Rights on tributaries of Priest Lake, Idaho.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 19714, Date Nov. 8, 1945, Date of Priority 9:00 A.M. Nov. 6, 1945

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source: Indian Creek, South Fork Location: As shown by map point "S", SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 13, T. 61N., R. 4 W.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Dam, feeder flume and V. Flume, Dam--5' High, length at top 25', length at bottom 10', Material used logs, plank, rocks, brush and earth. Capacity of reservoir 0.01, Headgate size, Width 5', Height 1.5'. Flume--Width 5' Depth of Water 1.5'. Length 100' feeder. Said works are capable of conducting to the place of intended use 18 second feet of water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Transportation of logs, poles and other timber products in Main 48" V flume known as Indian Creek Logging Flume.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. This water right is one of a system Nos. 19714 to 19727, inclusive, appropriating water for use in said Indian Creek logging flume.

19714

RMH

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. For efficient operation at least 50 second feet including storage must be available above loss for sluicing same.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All available water under permits 19714 to 19727 is being used.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other waters are available except flood waters, which are used when available to eliminate curtailment of operations due to having to use storage.

(Sign) _____

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Priest River, County of Bonner,

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. L. J. Peterson, 46, Coolin, Idaho, Boat Operator & Contractor
Coolin Idaho

Ques. 2. Are you acquainted with H. A. Sewell, Agent of The Diamond Match Co., the holder of Permit No. 19714? How long have you known him and where does he reside?

Ans. 8 Years Newport, Washington

Ques. 3. Have you read or heard read said Permit No. 19714, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Indian Creek, or its tributaries, at place described in permit, by dam and flume as described in permit

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 18 second feet of water.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Transportation of logs, poles and other timber products in Main 48" V flume known as Indian Creek Logging Flume.

19714

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. This water right is one of a system Nos. 19714 to 19727, inclusive,
appropriating water for use in said Indian Creek logging flume.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have observed operation of flume and sluicing many times.

Dear Mr. Sewell:

We acknowledge receipt of your letter of August 22,
with enclosures as stated.

No doubt you have received copy of letter we addressed
Mr. Robert E. Dow on August 22, enclosing the necessary forms
for making Proof of Beneficial Use under the 14 permits of the
Diamond Match Company.

However, in sending these proofs, we overlooked the
fact that on 3 of the permits, Proof of Completion of Works re-
quired depositions of the Holder and two witnesses, being Per-
mits Nos. 19714, 19719 and 19726, and we enclose forms for these
proofs herewith.

The fees for Completion of Works Proof on these 3 per-
mits and for Beneficial Use Proof on all the permits will not be
due until field inspection and report have been made, at which
time we will advise you.

Very truly yours,

MARK R. KULP

Affidavit of Holder

STATE OF IDAHO)
County of Bonner)

H. A. Sewell, Agent of The Diamond Match Co., being first duly sworn, upon his oath deposes and says:

First: That he is ^{the agent of} the holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 19714, and that his postoffice address is Newport State of Wash.

Second: That the name of the stream from which said water is to be diverted is Indian Creek, South Fork

Third: That the point of diversion of said water is as shown by map point "S", SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 13, T. 61 N., R. 4 W.B.M.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by November 8 1950

Fifth: That the use for which said water is intended is Transportation of logs, poles and other timber products

Sixth: That on the date above mentioned, the works constructed under said permit were (~~or were not~~) fully completed and consisted of the following:

I. Kind of works Dam, feeder flume and V. Flume
(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam 5 feet, length of dam at top 25 feet, length of dam at bottom 10 feet. Material used in construction logs, plank, rocks, brush and earth

(State whether earth, wood, stone or concrete)

(b) Capacity of reservoir 0.01 acre feet.

(c) Size of headgate: Width 5 feet, Height 1.5 feet,

(d) Conduit width at bottom 5 feet. width

(State whether ditch, flume or pipe)

at water line 5 feet, depth of water 1.5 feet;

diameter of pipe _____ inches, average grade per

mile is _____ feet. Length of conduit is 100 ft ~~feet~~ feeder

Seventh: That said works are capable of conducting to the place of intended use 18 second feet of water.

Eighth: That water appropriated under said permit is available for ~~uses of land described as follows~~ Transportation of logs,

poles and other timber products in Main 48" V flume known as Indian Creek

Logging Flume.

Ninth: Remarks: That this water right is one of a system Nos. 19714 to 19727, inclusive, appropriating water for use in said Indian Creek logging flume.

NOTARY PUBLIC FOR THE STATE OF IDAHO
RESIDING AT PRIEST RIVER, IDAHO
MY COMMISSION EXPIRES OCT. 16, 1952

19714

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. 19714

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. E. J. Elliot, Coolin, Idaho, Boat Operator and Contractor
Coolin, Idaho

Ques. 2. Are you acquainted with H. A. Sewell, Agt. of The Diamond Match Co, the holder of Permit No. 19714, authorizing the diversion of 18 second-feet of the waters of Indian Creek, South Fork map point "S", SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 13, T. 61N. R4 W1E1 for transportation purposes? How long have you known him, and where does he reside?

Ans. 20 Years Newport, Washington

Ques. 3. Have you read or heard read said Permit No. 19714, and are you familiar with its terms and conditions?

Ans. Yes

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. Dam, feeder flume and v. Flume, Dam--5' High, length at top 25', length at bottom 10', Material used logs, plank, rocks, brush and earth. Capacity of reservoir 0.01. Headgate size, Width 5', Height 1.5' Flume--Width 5' Depth of Water 1.5', Length 100' feeder. Said works are capable of conducting to the place of intended use 18 second-feet of water.

Subject: Permits Nos. 19714 to 19727 incl. Diamond Match Co.

Dear Sir:

This is to notify you that there were no objectors present at Mr. Dow's office and we are enclosing the proofs of completion of works on the above permits.

We were under the impression that the forms for proof of application to Beneficial use had been sent to Mr. Dow but since he did not have them we checked your letter of July 19 and find that you inquired whether they should be sent to him or to us. Therefore, if you will send the forms to us at Newport, Washington we will have them filled in correctly and have them signed by Mr. Dow as of August 22nd. We are also enclosing affidavit of publication of Mr. K. L. Woods of the Priest River Times. Also enclosed is check of the Diamond Match Co. covering proofs of completion of works.

Please advise as to what fees are necessary for Proof of Beneficial Use. We hope to get this matter concluded as soon as possible now that the hearing has been held.

Very truly yours,

H. A. Sewell, Consulting Engineer

Mr. Robert E. Dow
Notary Public
Priest River, Idaho

Dear Mr. Dow:

On checking our calendar this morning, we find that this is the date set for making Proof of Beneficial Use under Permits Nos. 19714 to 19727 inclusive, of the Diamond Match Company.

Under date of July 19, we asked Mr. Sewell to advise whether the forms for making this proof were to be sent direct to you or to him, but we have received no reply from Mr. Sewell and for that reason, no forms have been sent.

We enclose the necessary forms herewith, which, of course, will reach you too late to take these proofs on August 22. It will therefore be necessary for you to note a continuance and accompany the proof with your affidavit stating that your office was open at the time set for proof and that no protests were received, if such is the case.

Very truly yours,

MARK R. KULP

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 22nd. ~~18th~~ day of August, 1949, at Priest River County of Bonner State of Idaho, before Robert L. Dow, Notary Public, proof will be submitted of the completion of works for the diversion of Eight (8) cubic feet per second of the waters of South fork Indian Creek and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 19714 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Diamond Match Company, No. 30 Church St., New York, N.Y. and its agent is H. A. Sewell, of Newport, Washington
2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of use, in accordance with the plans accompanying the application for such permit, is eight (8) cubic feet per second.
3. The use to which said water has been applied is transportation of logs, timber products poles and other/ purposes, and the amount applied to beneficial use is eight (8) cubic feet per second.
4. The place where said water is used is Indian Creek Logging Flume
5. The date of priority which said user is prepared to establish is November 6, 1945.

MARK R. KULP

Re: Permits Nos. 19714 to 19727, inc.
Diamond Match Company

Mr. H. A. Sewell
Consulting Engineer
Newport, Washington

Dear Mr. Sewell:

Your letter of July 14, 1949, has just reached us, enclosing Notices in connection with proofs under Permits Nos. 19714 to 19727, inclusive.

It is now too late for the four weeks publication prior to August 15, so we have changed the date to August 22, and are sending copies of the several Notices to the Priest Lake Times with instructions to publish once a week for four consecutive weeks prior to that date and to send you the Affidavits of Publication, together with statement of costs.

If for any reason the date of August 22, is not satisfactory, will you please notify the newspaper of another date and advise us accordingly; but in any event, since publication cannot start until July 28th., the date cannot be earlier than August 20.

Please advise whether the necessary forms for making these proofs should be sent to you or the Notary Public, Robert E. Dow.

Very truly yours,

MARK H. KULP

July 14th, 1949

Mr. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Subject: Permits No. 19717 to 19727 incl.
Diamond Match Co.

Dear Sir:

Enclosed herewith find Forms 10 and 11 covering notices of beneficial use and authority to publish same.

In checking over the water rights we notice that the points of diversion of Permits No. 19719 to 19724 inclusive, and 19726 and 19727 are in Boundary County, Idaho although the major portion of the flume is located in Bonner County, and the other points of diversion are located in Bonner County. Since this territory is all tributary to Priest Lake and Priest River we believe that notice in the Priest River Times will be sufficient, but if it should be necessary to publish in the other county to comply with the law, the notices in the above mentioned permits should be published in the Bonners Ferry Herald at Bonners Ferry, Idaho.

Should you think this necessary, kindly change the name of the paper in the authority to publish in the above mentioned permits and do the same in the notices for proof of completion of work already sent you. Or, if you think best, publish these notices in both counties since part of the construction work for applying the water to beneficial use is located in each county.

Yours truly,

H. A. Sewell
Consulting Engineer

Re: Permits Nos. 19714 to 19727, inc.
Diamond Match Co.

Mr. H. A. Sewell
Consulting Engineer
Newport, Washington

Dear Mr. Sewell:

We are just in receipt of your letter of July 6th, enclosing notices in connection with completion of works proof on Permits Nos. 19714, 19719 and 19726, and stating that you will send proofs of completion of works on the other permits of the Diamond Match Co. at the same time on Form 6 previously sent you.

We note that you are prepared to make final proof on all these permits and request the necessary forms for notice.

On Permits Nos. 19714, 19719 and 19726, which require publication for completion of works proof, we have prepared new notices, combining both proofs, and enclose a copy herein for your files, retaining the other two for our use.

Under separate cover we are sending you a supply of Form 10 and Form 11. There are sufficient of Form 10 to enable you to make the notices of beneficial use on the other eleven permits in triplicate, retaining one for your files, and returning the other two duplicate copies to this department, together with Form 11 for each, authorizing publication.

Since the date is set for August 15th, it is necessary that these forms be returned promptly in order to obtain the necessary four weeks' publication, as publication must commence not later than the July 21st issue.

We shall transmit all forms promptly to the Priest River Times with instructions in regard to publishing, and shall send you the proper forms for making the various proofs.

Very truly yours,

MARK R. KEMP
State Reclamation Engineer

November 20, 1948

Mr. H. A. Sewell
Consulting Engineer
Newport, Washington

Dear Mr. Sewell:

We are in receipt of your letter of November 18 in reply to office letter addressed to you on November 15 in regard to proof which you wish to make on Permits Nos. 19714 to 19727, inclusive, in the name of the Diamond Match Company.

It is not necessary to make beneficial use proof at this time which is the reason we were not entirely clear as to your first letter requesting forms for final proof.

According to our records, Permits Nos. 19714, 19719 and 19726 are for more than 6.4 cfs of a cubic foot per second and require four weeks publication before making proof of completion of works. We are sending you, under separate cover, nine Form 8 and six Form 11. As you know this notice should be made in duplicate on Form 8, naming the time, place and Notary Public, and two copies returned to this Department together with Form 11 which is authorization for us to have the notice published at permit holder's expense.

On the remaining eleven permits, being for a less amount, the proof can be made on Form 6 without publication. We therefore are sending you 22 copies of Form 6.

A statutory fee of \$5.00 should accompany each of these proofs.

Beneficial use proof is not due on these permits until 1955, but of course can be made at any time prior thereto.

Very truly yours,

HANK R. KULP
State Reclamation Engineer

Subject: Diamond Match Company water rights

Dear Sir:

In our letter of November 11th we requested a certain number of forms for proof of completion of works, ordering enough so that we could keep a copy of each for our files. If it is necessary to immediately make final proof of beneficial use, please send some additional forms as we already had about ten of the other forms on hand.

The water rights involved are Numbers 19714 to 19727 inclusive, so please send sufficient supply as we are anxious to proceed.

Yours truly,

Re: Permits -Diamond Match Company

Mr. H. A. Sewell
Consulting Engineer
Newport, Washington

Dear Mr. Sewell:

In reference to your letter and inquiry relative to change in point of diversion of permits in the name of the Diamond Match Company.

Provided change in points of diversion have been made, it will be necessary under the Statutes in order to complete and perfect said rights into a license right to amend permits by showing new points of diversion, prior to the filing or completion of proofs.

We are enclosing herewith several forms for this purpose.

Our records show that completion of works proof on Permits of the Diamond Match Company on their Indian Creek filings are not due until November 8, 1950. Provided additional changes in points of diversion are contemplated soon, it would be advisable to delay the filings of proofs for the reason that after license is issued, the procedure of changing points of diversion are more complicated. See Statute 41-216, Idaho Code Annotated.

Very truly yours,

Subject: Permits 19⁷14 to 19⁷27 inclusive
Diamond Match Company

Dear Sir:

The above permits were made out to cover all of the water in Indian Creek water shed, but when the Diamond Match Co. logging operators actually made use of the water, they used all of the water at only four points of diversion, and these points of diversion in most cases, do not correspond to points named in the original permits.

We are now ready to make final proof for these waters and would like to know whether it will be necessary to amend the permits to change the points of diversion, or whether it will be possible to include these changes in our final proof. The Diamond Match Co. is now making use of all of the water and would like to perfect their rights, and it should be understood that they may make further changes in points of diversion if necessary for their logging operations. Your advice in this matter will be appreciated.

November 3, 1945

Commissioner of Reclamation
State Capitol
Boise, Idaho

Dear Sir:

Enclosed herewith find fourteen applications for permits from the Diamond Match Company for water rights on Indian Creek, a tributary of Priest Lake.

The maps are in the form of blue prints marked in red to show the particular water rights. Since the amount of these water rights is small, and since the Diamond Match Company and the State of Idaho are the only owners involved, I did not believe that the preparation of detail maps for each site was justified.

I am enclosing tracings for your files and would suggest that you file it under water right "A" which is at the head of the main flume.

This type of filing has been accepted by your office on former water rights filed in behalf of the Diamond Match Company.

Yours truly,

H. A. Sewell
