Dear Mr. Posey:

We are in receipt of the affidavit of beneficial use submitted in connection with the above referenced permit.

Please be advised, however, that there is a discrepancy in item 4b on the proof form. You have listed the point of diversion as being in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 26, T. 56 N, R. 6 W, B. M. on your proof; whereas, your permit lists it as being in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, T. 56 N, R. 6 W, B. M. Please advise us by return mail as to which is correct.

We are withholding processing of your permit until we have a response from you on this matter.

Gentlemen:

One of the conditions of the approval of your permit no. G-32486/97-2050 was that proof of application of the water to beneficial use be submitted to this office on or before August 20, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

We acknowledge receipt of the affidavit of publication submitted in connection with the above referenced permit. Since proof of beneficial use of the water is not required until August 20, 1970, the Department will notify you sixty days in advance of this date as to further requirements. We wish to advise you, however, that if you have fulfilled the requirements under the permit you may submit proof anytime prior to the above date.

Very truly yours,

Donald W. McEldowney

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear Mr. Colwell:

Returned herewith is your application for permit with
attached check for \$5.00 filing fee.

There is a discrepancy between the answer to No. 4 and
6 of the application and the maps. The application shows
the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, T. 56 N., R. 5 W., B.M. and the maps
show no scale but probably the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, T. 50 N.,
R. 6 W., B.M.

Kindly make the necessary corrections and return with the
filing fee.

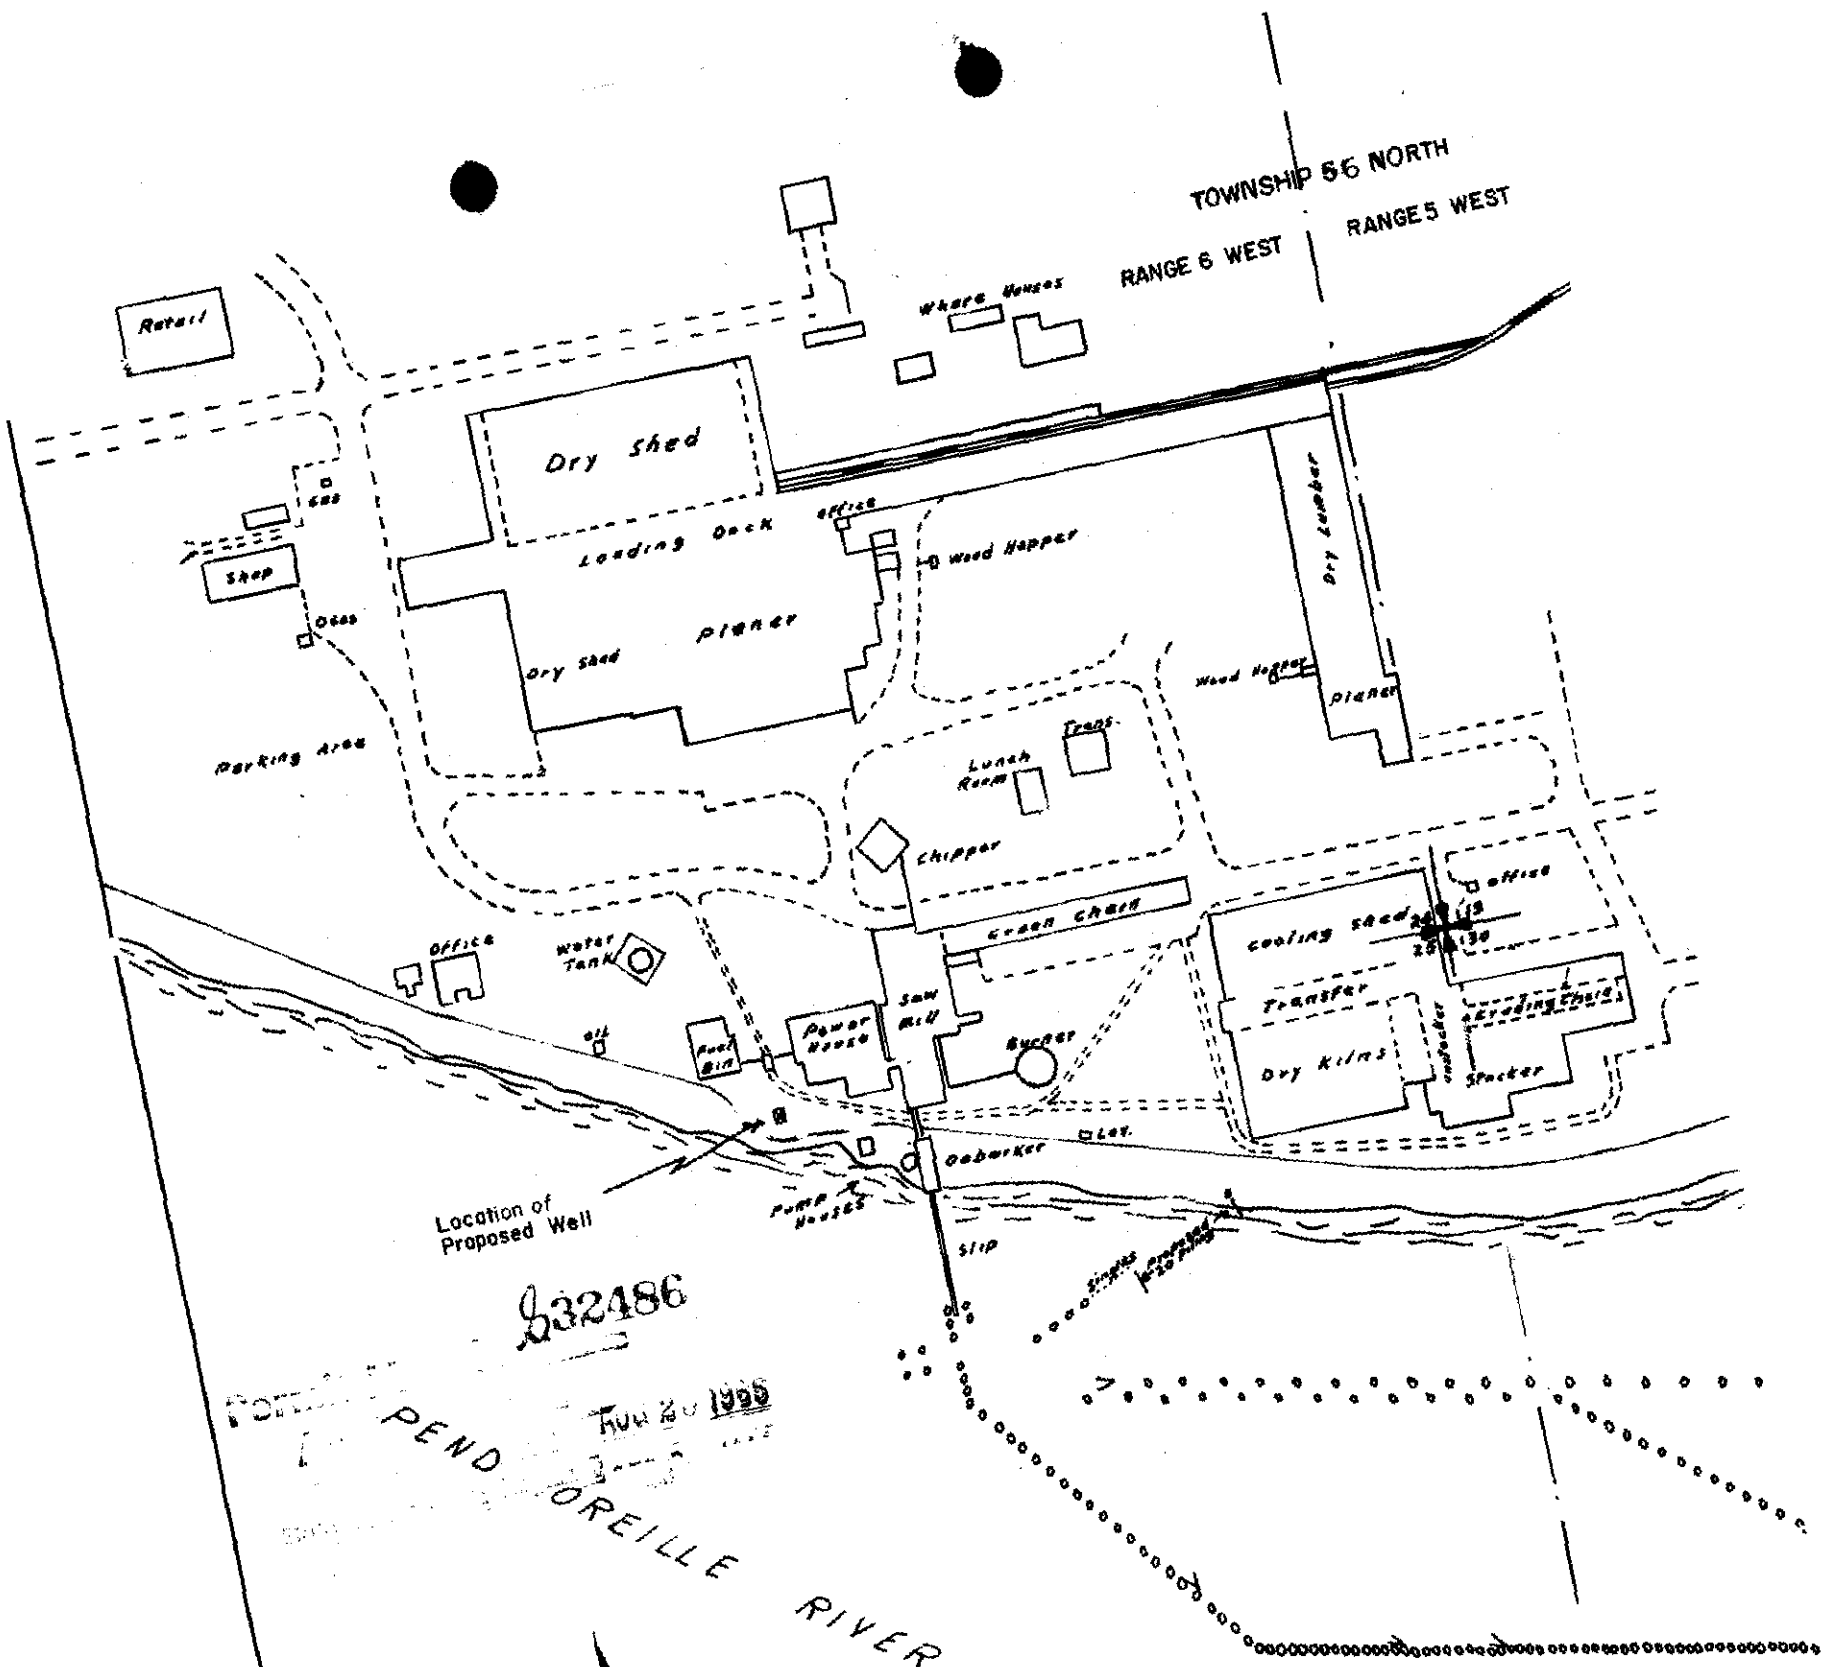

Very truly yours,

Dear Mr. Thomas:

Reference is made to your letter of July 29th received by our Albeni Falls office relative to a well we had drilled adjacent to our mill at that location.

I regret that we were not aware of the law which requires a permit for drilling a well; therefore, you will find enclosed our check for \$5.00 for the filing fee, an application for the permit, as well as three copies of a plat showing the location of the well. Water from this well is serving our manufacturing facilities at this location.

If additional information is required, please advise.

Gentlemen:

We have received a log on a well drilled for you in the NE/4NE/4, Sec. 25, T. 56 N., R. 5 W., B.M. The test shows that the well is capable of supplying 500 gallons per minute. We find no record of a permit for this well.

Idaho Code, 42-229, as amended by the 1963 Session of the Legislature, provides that a permit to divert subterranean water must be obtained from this office in all cases where over 13,000 gallons per day or 9 gallons per minute will be diverted.

Idaho Code, 42-237a, provides that the State Reclamation Engineer may commence action to enjoin the illegal opening or excavation of wells, or withdrawal or use of water therefrom.

Form 3, Application for Permit to Appropriate Subterranean Water, with Instructions, is enclosed. May we hear from you in the matter?

Very truly yours,

RALPH W. THOMAS
