Dear Mr. McEldowney,

I was very glad to have your letter of July 17
and to learn that a representative from your Department
will be in our area on Priest Lake the last week of
August and the first week of September.

During those two weeks I will be at our place on
Priest Lake part of the time, but not all of the time. But
your representative can examine our domestic system any
time during that period. If I am not there, one of the
other members of our group can show him the system. The
best one for this purpose would be Dr. Harry Marshall.
He helped construct the system, has been serviced by it
since the beginning and knows more about it than anyone
else except myself.

Dr. Marshall's cabin is the 8th one south of the
mouth of Beaver Creek. The dock on the point is his.
You can tie up your boat there. My cabin is the next
one west of his.

We will be looking forward to seeing you.

Dear Mr. Hobson:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Priest River Times all submitted in proof of completion of works and beneficial use on Permit No. 30283.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. 30283

Karl Hobson
2100 Upper Drive
Pullman, Washington

Dear Mr. Hobson:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 30283. The proofs are to be made at 9 o'clock, on the 7th day of November, 19 66, before R. Loucks Notary Public.

As of this date, we have mailed the Notice to the Priest River Times, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Very truly yours,

Re: Permit No. **30283**

Date:

Sept. 1, 1966

**Karl Hobson
2100 Upper Drive
Pullman, Washington**

Dear Sir:

Under the terms of your Permit No. 30283 you are required to make proofs of completion of works and application of water to beneficial use on or before **Nov. 10, 1966**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.
