Priority April 2, 1959

THIS IS TO CERTIFY that DEPARTMENT OF AGRICULTURE; U.S. FOREST SERVICE
of Sandpoint, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated April 2, 1959; that Permit No. 27895
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
0.03 second feet, was issued thereunder on May 3, 1960, showing that said works
were completed on the 18th day of April, 1960; and that on the 4th
day of April, 1962, DEPARTMENT OF AGRICULTURE; U.S. FOREST SERVICE

of Sandpoint, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of Unnamed Creek
River, a tributary of Lower West Branch Pries, for the purpose of Domestic use
, under Use Permit No. 27895 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
12 of Licenses at page 7509, on the 5th day of November, 1962;
The right hereby confirmed dates from April 2, 1959;

The Point of Diversion is located
in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, Tp. 57 N, R. 5 W, B. M. Bonner County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 0.03 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
57 N	4 W	22 15	NW $\frac{1}{4}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ For domestic use only		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

5th day of November, 1962.

/s/ RALPH W. THOMAS
Deputy State Reclamation Engineer.

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 27895

This proof is for Beneficial Use In Water District No. _____1. Name of applicant: U. S. Forest Service, Sandpoint, Idaho2. Source of water supply: Unnamed Creek, tributary of West Branch Priest River3. Location of point of diversion: Is in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 21
T. 57 N R. 5 W. County of Bonner4. Describe works as they exist, giving dimensions and capacities of same: Concrete Dam 14' long x 7' high with 3' above ground. Pond side excavated to bottom of cement back filled with 3" gravel around a 18" x 12' perforated Culvert collection sump. Back fill is graduated down to sand being top course within 3" top of concrete that is slightly dished to center of wall. 300' x 1 1/2" plastic pipe from5. Water is used for: Domestic6. State whether or not water has been turned into works of diversion: yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

DOMESTIC USE; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 22; SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 15, T. 57 N., R. 5 W., B. M.sump to 5,000 gallon storage tank that has a room for a chlorinator to be added later. 4000' x 1 1/2" plastic pipe to another 10,000 gallon tank with a return pipe to fire hydrant 940' x 3" reduced to 360' x 2". Residence is on a mole above office building and under 10,000 gal tank. Pressure at Residences 35' and 56' at offices

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Priest RiverRemarks: Ranger Andy Arvish alongWater is used for domestic, lawns, and large amounts are used when crews of men are stationed there.This examination was made on the 13th day of September, 1962

Re: 5650

Forest Supervisor
Kanikeu National Forest
Sandpoint, Idaho

Dear Sir:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Sandpoint News Bulletin, all submitted in proof of ~~completion of work and~~ beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER

Permit No. 27895

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Gordon W. Cordes, 333 Euclid Avenue, Sandpoint, Idaho, Employee of
U.S. Forest Service at Forest Supervisor's Office, Sandpoint, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. U.S. Forest Service, Sandpoint, Idaho - Employed as a Forestry Technician.
Obtaining water permits is part of my job assignment.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 27895, April 23, 1959. Date of priority April 2, 1959.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Unnamed Creek, Point of diversion is 2,719.5 feet - S 18° 34' W of Sec. 21, T. 57 N., R. 5 W, B.M. in the SE 1/4 NE 1/4, Sec. 21, T. 57 N, R. 5 W, B.M. Bonner County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Water is diverted by a 1 foot high plank wall into a 3-inch pipe. The pipe is reduced down to 1 1/2 inches in its length of 0.76 miles. Water is stored in a 10,000 gallon concrete tank.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for domestic use at the Falls Ranger Station in the NW 1/4, Sec. 22, and the SW 1/4, Section 15, T. 57 N, R. 5 W, B.M.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Not a ground water permit

27895

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 4,150 gallons per day

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not applicable

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The works were complete at the date of application for the permit. Water is supplied to 3 houses, cookhouse, office, bathhouse, and garage. An estimated 4,150 gallons of water per day are used.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder:

Ans. None.

PERMIT NO. 27895

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Aubrey J. Arthurs, 124 South Fourth, Sandpoint, Idaho, Forester

Age 56

Ques. 2. Are you acquainted with the United States Forest Service, the holder of Permit No. 27895? How long have you known him and where does he reside?

Ans. Yes, I have been acquainted with the Forest Service for 30 years.

Forest Supervisor's Office, Kaniksu National Forest, Sandpoint, Idaho

Ques. 3. Have you read or heard read said Permit No. 27895, and are you familiar with its provisions and conditions?

Ans. I have read Permit No. 27895 and am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source is an unnamed creek. The point of diversion is in the SE $\frac{1}{4}$ NB $\frac{1}{4}$, Sec. 21, T. 57 N., R. 5 W.B.M.. Water is diverted by a 12-inch plank and carried by a 3-inch pipe reduced down to 1 $\frac{1}{2}$ inches to a 10,000 gallon concrete storage tank.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Capacity approximately .03 second feet which I have seen conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for domestic purposes at the Falls Ranger Station in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 22, and the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 15, T. 57 N., R.5 W, B.M.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water is used for domestic purposes. It is piped to dwellings, office, cookhouse, bath house and a garage.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. None

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have stopped at the Falls Ranger Station on numerous occasions and have witnessed water being used in the buildings.

PERMIT NO. 27895

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Kenneth A. Nelson, 311 St. Claire, Sandpoint, Idaho, Forest Dispatcher

Age 57

Ques. 2. Are you acquainted with the U.S. Forest Service, the holder of Permit No. 27895? How long have you known him and where does he reside?

Ans. Yes, I have been acquainted with the Forest Service for 35 years.

Located at the Forest Supervisor's office, Sandpoint, Idaho.

Ques. 3. Have you read or heard read said Permit No. 27895, and are you familiar with its provisions and conditions?

Ans. I have read Permit No. 27895 and I am familiar with it.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is supplied from an unnamed creek. Water is diverted in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, T. 57 N., R. 5 W.B.M. The works consists of a 12-inch plank barrier diverting water into a three-inch pipe which is later reduced to 1 $\frac{1}{2}$ inches. This pipe terminates at a 10,000 gallon concrete tank.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The works should carry .03 second feet. I have seen the capacity of the works being conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for domestic purposes at the Falls Ranger Station located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 22, and the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 15, T. 57 N, R. 5 W, B.M.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water has been piped to three dwellings, office, cookhouse, bath house, and garage. Water is used regularly at these places.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not for irrigation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I occasionally visited the Falls Ranger Station and have used, and seen used, the water delivered by the works constructed under this permit.

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
2:00 P.M. on the 4th day of April,
1962, at Sandpoint, County of Bon-
ner, State of Idaho, before Wilma
Mae McArthur, 300 1/2 North First
Avenue, proof will be submitted of
the application to beneficial use of
.03 cubic feet per second of the
waters of an unnamed creek in ac-
cordance with the terms and condi-
tions of Permit No. 27895 heretofore
issued by the Department of Recla-
mation of the State of Idaho.

The name and post office address
of the person or corporation hold-
ing said permit: U. S. Forest Serv-
ice—Department of Agriculture,
Sandpoint, Idaho.

The use to which said water has
been applied is domestic use.

The amount applied to beneficial
use is .03 cubic feet per second.

The point of diversion of said
water is SE 1/4 NE 1/4, Section 21, T.
57 N., Range 5 W., B.M. approxi-
mately 2,719.5 feet from the North-
east corner of said Section 21.

The place where said water is
used (legal description) NW 1/4 NW 1/4,
Section 22, SW 1/4 SW 1/4, Section 15,
T. 57 N., Range 5 W., B.M.

The date of priority which said
user is prepared to establish is
April 2, 1959.

GEO. N. CARTER,
State Reclamation Engineer.

Re: Permit No. 27895

U. S. Forest Service,
Department of Agriculture,
Sandpoint, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of ~~Completion of Works~~ and Application of Water to Beneficial Use under Permit No. 27895. The proofs are to be made at 2:00 o'clock P.M., on the 4th day of April, 19 62 before Wilma Mae McArthur, 300 1/2 North First Avenue, Sandpoint, Idaho, Notary Public.

As of this date we have mailed the Notice to the Sandpoint News Bulletin Sandpoint, Idaho with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

DEPARTMENT OF RECLAMATION

Re: Permit No. 27895

Date: February 1, 1962

Forest Supervisor
Sandpoint, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 27895 is due not later than April 23, 1962. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Very truly yours,

GEO. N. CARTER

State Reclamation Engineer

AFFIDAVIT OF HOLDER

STATE OF IDAHO

SS.

County of Bonner

Fred A. Currie, Administrative Officer, representing Dept. of Agriculture, U.S. Forest Service, Sandpoint, Idaho, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 27895, and that his postoffice address is Sandpoint, Idaho.

Second: That the name of the stream from which said water is to be diverted is Unnamed Creek which is a tributary of Lower West Branch Priest River.

Third: That the point of diversion of said water is 2,719.5 feet from the Northeast corner of Section 21, Twp. 57 N., R. 5 W. B.M. in the Southeast quarter of the Northeast quarter of Section 21, Twp. 57 N., R. 5 W. B.M. Bonner County, Idaho.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by April 23, 1960.

Fifth: That the use for which said water is intended is Domestic purposes.

Sixth: That on the date above mentioned, the works constructed under said permit were (now completed) fully completed and consisted of the following:

I. Kind of works: pipe line (Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam feet, length of dam at top feet, length of dam at bottom feet. Material used in construction.

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width feet, height feet.

(d) Conduit pipe line width at bottom feet, width at water line 2 inches, 1 1/2 inches, feet, depth of water feet; diameter of pipe 3 inches/average grade per mile is 90 feet. Length of conduit is 0.76 miles.

Seventh: That said works are capable of conducting to the place of intended use .03 second feet of water.

Eighth: That water appropriated under said permit is available for domestic use ~~purpose of land~~ described as follows: in the Northwest quarter of the Northwest quarter of Section 22 and in the Southwest quarter of the Southwest quarter in section 15, Twp. 57 N., R. 5 W. B.M.

Ninth: Remarks: That Source of supply is on Government owned land, except in periods of spring run off, this tributary does not supply any appreciable amount of water to the west branch at Priest River. Water is presently being used for beneficial domestic purposes

U. S. Forest Service

2510

Andrew J. Arvish
Dist. Forest Ranger
Falls Ranger Station
Route #5, Priest River, Ida.

Dear Mr. Arvish:

The Forest Service, by Harold F. Horschel, Sandpoint filed April 2, 1959, on 0.03 cubic feet per second, or 13.5 gallons per minute of water from an unnamed stream. Point of diversion is 2719.5 feet from the NE $\frac{1}{4}$ corner Sec. 21 and in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, T. 57 N., R. 5 W. Water is for domestic purposes to be used in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 22; SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 15, T. 57 N., R. 5 W. The easterly branch was selected instead of the west branch you mentioned in your letter. The map shows the stream in the E $\frac{1}{2}$ E $\frac{1}{2}$ of Sec. 21.

There does not appear to be any other rights on record of water from unnamed streams in that vicinity.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Dear Sirs:

We are considering the need for a water right to protect the system which serves the buildings here at the Falls Ranger Station. We can find no past record of Forest Service or private acquisition of such a right to the source we have in mind and request your aid to assure a clear interest. The stream involved starts in the center of Section 21 and runs NE through the section to the Lower West Branch Creek. It is possible that you may have recorded water rights for Mr. Chester Peterson and Mr. W. J. Lindstrom in approximately the same location but they are not on the same stream system.

We are unfamiliar with the procedure for filing water and would appreciate any information and/or forms which may be necessary.

DEPARTMENT OF RECLAMATION

BOISE

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho

Feb. 1, 1960

U. S. Forest Service
Attn: Harold F. Horschell, Agent
Sandpoint, Idaho

Dear Mr. Horschell:

Dear Sir:

Under the terms of your permit No. 27895 you are required to complete your diversion works on or before April 23, 1960. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

STATE RECLAMATION ENGINEER
