

STATE OF IDAHO) ss
COUNTY OF BOWNE)

I, ROBERT E. DOW, Notary Public for the State of Idaho
residing at Priest River, Idaho, hereby certify that on August 22, 1949
at 11:00 A.M. in the matter of Proof of Completion of Works and Proof
of Application of Water to Beneficial Use on Permits Nos. 19714 to
19727 inclusive issued by State of Idaho to The Diamond Match Company,
no protests were received, and H. A. SEWELL, Agent of Diamond Match
Company was present prepared to make the required proofs, but the
necessary forms of Affidavit not being on hand, the matter was
continued until 11:00 A.M. September 12, 1949, in order to permit
the completion of proper proofs.

License and Certificate of Water Right

Water License No. 19727 Amount Two second feet
Water District No. Priority November 6, 1951

THIS IS TO CERTIFY that THE DIAMOND MATCH COMPANY
of New York, N. Y., made application for a permit to appropriate the
public waters of the State of Idaho, dated November 6, 1945; that Permit No. 19727
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
two second feet, was issued thereunder on August 29, 1949, showing that said works
were completed on the 22nd day of August, 1949; and that on the 12th
day of September, 1949,

THE DIAMOND MATCH COMPANY
of New York, State of New York, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of an unnamed
tributary of Indian Creek, a tributary of, for the purpose of transportation of logs,
poles and other timber products, under Use Permit No. 19727 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 4788, on the 6th day of July, 1951;

The right hereby confirmed dates from November 6, 1945;
The Point of Diversion is located
in the SW 1/4 NW 1/4, Sec. 23, Tp. 61 N., R. 4 W., B.M. Bonner County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed Two (2) cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

6th day of July, 1951.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

H. A. Sewell
Newport, Washington

Application No. 27263
Permit No. 19727
District No.

1. Name of Applicant: THE DIAMOND MATCH COMPANY

Postoffice address: 30 Church St, New York County:

State: N. Y.

I. If applicant is a corporation, give:

(a) Date and place of incorporation: Dec. 26, 1930 State of Delaware

(b) Amount of capital stock: \$26,337,500.00

(c) Amount paid in: \$26,337,500.00

(d) Names and addresses of directors: William A. Fairburn, Elisha Walker, Howard F. Holman,
F. Austin Lidburg, Henry G. Lucas, Manning Jacob, Robert G. Fairburn, Edward T. Gardner;
C/o Diamond Match Co., 30 Church St., New York, N. Y.

II. The financial resources of the applicant are:

(a) Cash on hand: \$2,688,113.50 Dec. 31, 1944

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources: \$33,264,382.16

2. Quantity of water claimed: Two (2) cubic feet per second.

3. Source of water supply: Indian Creek, unnamed tributary which is a tributary of Priest Lake

4. Location of point of diversion: As shown on map-Point "P" feet distant from the

corner of Section , T. , R. , B. M., and is in the NE $\frac{1}{4}$ NE $\frac{1}{4}$

of Section 23 , T. 61 N. , R. 4 W. , B. M., County of Bonner

5. Water is to be used for Transportation of logs, poles, and other timber products.

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: As shown by map feet distant from corner of Section-

T. , R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to Priest Lake, as shown by map at a point outside meander line feet

distant from the corner of Section , T. , R. , B. M., in the-

of Lot 1 of Section 27 , T. 61 N. , R. 4 W. , B. M.

7. Estimated cost of works: \$150,000.00 including Applications 27250 to 27262 inclusive

8. Kind of works: Feeder dam and flume

9. Height of dam 3 feet; length of dam at top 10 feet; length of dam at bottom 5

feet; material used in dam: Timber crib sealed with brush, rocks and earth

10. Size of headgate: Width 2 feet; height 1 feet;

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume: 2' X 1' Feeder; 48" V main.

Diameter of pipe inches; length of conduit entire project 7.37 miles.

Average grade per mile 200 to 600 feet. Feeder 0.1 %

12. The time required for the completion of such work is Five (5) years.

13. The time required for the complete application of the water to the proposed use is Five (5) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? No If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

			APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. 19727 Comes now THE DIAMOND MATCH CO. and represents to the State Reclamation Engineer of the State of Idaho: That it is the owner and holder of Permits to appropriate the Public Waters of the State of Idaho, Nos. 19726 and 19727. That the points of diversion are described in said Permit as being located as shown by map Points "N" and "P" in SW$\frac{1}{4}$ of SE$\frac{1}{4}$ of Sec. 13, and NE$\frac{1}{4}$ of NE$\frac{1}{4}$ of Sec. 23, T. 61 N., R. 4 W. B.M., and conveyed to the place of use through 48" V flume and feeders, as per map filed herewith. That he now requests that the point of diversion be changed to a point located as shown by map Point "T" in SW$\frac{1}{4}$ of NW$\frac{1}{4}$ of Sec. 23, T. 61 N., R. 4 W. B.M., and conducted to the place of use through the Feeder flume 5'x2' and main 48" V Flume, as per map above referred to. That his reasons for desiring to make such change are as follows: The leakage of Main Flume being considerable it is thought better to pick up leakage and inflow of tributaries at a point further down the flume. That no one will be injured by such change, and that such change will be made at Permit Holder's own risk. Signed at Newport, Wash. this 26 day of Oct. 1948. THE DIAMOND MATCH CO. By H. A. Sewell, Agent Date of receipt at Department of Reclamation - October 30, 1948. APPROVAL OF STATE RECLAMATION ENGINEER I, MARK R. KULP, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, Nos. 19726 and 19727. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby. MARK R. KULP State Reclamation Engineer																

Permit No. 19727
CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that THE DIAMOND MATCH COMPANY of New York, County of _____, and State of New York, the holder of Permit No. 19727, issued upon Application No. 27263 bearing date of priority of November 6, 1945, authorizing the diversion of Two second feet of the waters of Indian Creek, unnamed tributary, which is a tributary of Priest Lake, County of Bonner, State of Idaho, for transportation of logs, poles, and other timber products, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use Twenty-seven second feet of the waters of said stream; that the point of diversion of said waters is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 23, Township 61 North, Range 4 West, B.M.

Witness my hand this 29th day of August, A. D. 1949.

MARK R. KULP

Re: Idaho Water Right License Nos. 97-2030, 97-2031, 97-2056,
97-2058, 97-2060, 97-2061, 97-2062 and 97-2063

Gentlemen:

On April 26, 1985, the Idaho Water Resource Board filed an Application for Permit to develop a minimum instream flow water right on Indian Creek tributary to Priest Lake in Idaho. In the course of investigation of water rights related to Indian Creek, we have discovered the eight above-referenced licenses in the name of the Diamond Match Co. The purpose of this letter is to solicit information regarding the currency and validity of the licensed water rights.

For your information, we have enclosed copies of each of the licenses, and a copy of a map of the "Indian Creek Logging Flume," which was prepared in 1951. At the time of our field examination, which was conducted in 1951, the logging flume was functioning for the purpose of conveying logs to the match factory located along the banks of Priest Lake.

It is our understanding that this logging flume and the associated match factory have not been in existence for many years. Pursuant to Section 42-222, Idaho Code, a copy of which is enclosed, "All rights to the use of water acquired under this chapter or otherwise shall be lost and forfeited by a failure for a term of five (5) years to apply it to the beneficial use for which it was appropriated and when any right to the use of water shall be lost through nonuse or forfeiture such rights to such water shall revert to the State and be again subject to appropriation under this chapter." Based on this statute, it appears likely that the above-referenced licensed water rights have been forfeited.

Diamond Match Co.

May 1, 1985

Page 2

For the purpose of clarifying the record on this matter, we ask that you provide information regarding when the match factory along Priest Lake last utilized the Indian Creek logging flume. Based on information that you provide, the file can be better documented regarding the availability of flows for instream flow purposes. I would ask that you please provide this information to my attention by June 1, 1985, so that we may proceed in a timely manner with processing the minimum stream flow application.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 19727

This proof is for Beneficial Use In Water District No.

1. Name of applicant. Diamond Match Company, C/o H. A. Sewell, Newport, Washington
2. Source of water supply: Unnamed tributary Indian Creek
3. Location of point of diversion: Is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 23
T. 61 N. R. 4 W. County of Bonner.

4. Describe works as they exist, giving dimensions and capacities of same: This permit and 19726 are additional feeders for the large log flume down Indian Creek. The feeder flume is 5' w. x 2' deep x 200' long. It enters the main flume on the North side of the flume. Flume extends from a pool approx. 5' deep made by a wooden dam similar to the other dams up stream.

5. Water is used for: Transportation of logs, poles and other timber products in main 48" flume known as Indian Creek Logging Flume.

6. State whether or not water has been turned into works of diversion: Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

F. D. is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 23 and approx. 350' above the steel bridge across the stream.

This is non-consumptive use of water which is returned to the stream or lake at the mouth of Indian Creek where it enters the lake.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Priest Lake.

Remarks: Five large loading docks and seven smaller ones have been used along the side of the flume for dumping logs in for transport.

This method of transport is especially useful in foul wet weather when use of roads is impossible.

Stations for putting the logs into the flume are constructed at all vantage points along the main flume.

This examination was made on the 5th day of June, 1951

(Signed) E. M. Humphrey
Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Permit No. 19727

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. H. A. Sewell, Newport, Washington, Civil Engineer, Newport, Washington

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf. THE DIAMOND MATCH CO. 30 Church St. New York

Ans. I am its agent authorized to represent it in all matters pertaining to Water Rights on tributaries of Priest Lake, Idaho

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 19727, Date Nov. 8, 1945, Date of Priority 9:00 A.M. Nov. 6, 1945

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source: Indian Creek, unnamed tributary. Location: As shown by map point "T" in SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Sec. 23, T. 61N. R. 4 W.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Feeder dam and flume and V flume Height of dam 3', length of dam at top 50', length at bottom 20', Material used timber crib sealed with brush, rocks and earth. Reservoir capacity 0.01 acre feet. Headgate Size: Width 5', Height 2', Conduit width at bottom 5', width at water line 5', depth of water 2', Length is 200' feeder. Said works are capable of conducting to the place of intended use 27 second feet of water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Transportation of logs, poles and other timber products in main 48" flume known as Indian Creek Logging Flume

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc. This water right is one of a system Nos. 19714 to 19727 inclusive

Ans. appropriating water for use in said Indian Creek Logging Flume

19727

TAM

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. For efficient operation at least 50 second feet including storage must be available above logs for sluicing same

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All available water under permits 19714 to 19727 is being used.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other waters are available except flood waters, which are used when available to eliminate curtailment of operations due to having to use storage.

(Sign)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was

subscribed and sworn to before me, at my office in Priest River, County of Bonner,

State of Idaho, on this 12th day of September, A. D. 1949.

PERMIT NO. 19727**Proof of Application of Water to Beneficial Use****Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. L. J. Peterson, 40, Coolin, Idaho, Boat Operator & Contractor

Coolin, Idaho

Ques. 2. Are you acquainted with H. A. Sewell, Agent of The Diamond Match Co., the holder of Permit No. 19727? How long have you known him and where does he reside?

Ans. 8 Years Newport, Washington

Ques. 3. Have you read or heard read said Permit No. 19727, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Indian Creek or its tributaries, at place described in permit, by dam and flume as described in permit

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 27 second feet of water

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Transportation of logs, poles and other timber products in main 48" flume known as Indian Creek Logging Flume

19727

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. This water right is one of a system Nos. 19714 to 19727, inclusive
appropriating water for use in said Indian Creek Logging Flume

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have observed operation of flume and sluicing many times.

Ans. 27 second feet of water

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Transportation of logs, poles and other timber products in main 48" flume known as Indian Creek Logging Flume

19727

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. This water right is one of a system Nos. 19714 to 19727, inclusive
appropriating water for use in said Indian Creek Logging Flume

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have observed operation of flume and sluicing many times.

(Signed) E. J. Ellis
