Permit Map No. 18038

As Approved

NOV 9 1934

R. W. FARIS

Commissioner of Reclamation

State of Idaho
License and Certificate of Water Right

Water License No. 18038 Amount 0.4 second foot
Water District No. Priority August 6, 1934

THIS IS TO CERTIFY that RALPH V. LAMBERT
of Nordman, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated August 6, 1934; that Permit No. 18038
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2 second feet, was issued thereunder on October 24, 1936, showing that said works
were completed on the 2nd day of October, 1936; and that on the 30th
day of November, 1937,

RALPH V. LAMBERT
of Nordman, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of Reeder Creek
, a tributary of Priest Lake, for the purpose of Irrigation only
, under Use Permit No. 18038 of the Commissioner of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 7
of Licenses, at page 3946, on the 15th day of April, 1939;
The right hereby confirmed dates from August 6, 1934;

The Point of Diversion is located approximately 1800 ft. distant from the NE corner of
Section 21, T. 61 N., R. 5 W., B.M.
in the SE 1/4 NE 1/4, Sec. 21, Tp. 61 N., R. 5 W., B. M. Bonner County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 0.4
cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
61 N.	5 W.	21	SE 1/4 NE 1/4	20	1
			NE 1/4 SE 1/4	20	19
			Total Number of Acres Irrigated-		20

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use
herein described, as provided by the laws of Idaho.

No. 18038

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

97-2025

Application No. 25191
Permit No. 18038
District No.

1. Name of Applicant: RALPH V. LAMBERT

Postoffice address: Nordman

County: Bonner

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
(b) Amount of capital stock:
(c) Amount paid in:
(d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
(c) Bonds to be issued:

- (b) Treasury stock:
(d) Other resources:

2. Quantity of water claimed: 2 cubic feet per second.

3. Source of water supply: Reeder Creek which is a tributary of Priest Lake

4. Location of point of diversion: approximately 1800 feet distant from the NE
corner of Section 21, T. 61 N., R. 5 W., B. M., and is in the SE $\frac{1}{4}$ NE $\frac{1}{4}$
of Section 21, T. 61 N., R. 5 W., B. M., County of Bonner

5. Water is to be used for: Irrigation and power for lighting purposes.

6. If for mining, milling, power or manufacturing purposes, give:

only used for power-approximately 1800
(a) Point of use/of water:/ feet distant from NE

corner of Section 21

T. 61 N., R. 5 W., B. M., in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 21, T. 61 N., R. 5 W., B. M.

(b) Amount of power generated: one H. P., under three feet head.
used for power

(c) Water is to be returned to Reeder Creek at a point 1820 feet

distant from the NE corner of Section 21, T. 61 N., R. 5 W., B. M., in the SE $\frac{1}{4}$ NE $\frac{1}{4}$
of Section 21, T. 61 N., R. 5 W., B. M.

7. Estimated cost of works: \$ 100.00

8. Kind of works: Dam, ditch & headgate.

9. Height of dam 3 feet; length of dam at top 5 feet; length of dam at bottom 5
feet; material used in dam: lumber

10. Size of headgate: Width 1 foot; height 2 feet.

11. Ditch: Width at bottom 2 feet; width at water line 2 $\frac{1}{2}$ feet; depth of water 1 foot.
feet; dimensions of flume:

Diameter of pipe inches; length of conduit approx. 3500' miles

Average grade per mile feet.

12. The time required for the completion of such work is 2 years.

13. The time required for the complete application of the water to the proposed use is 1 additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? No If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Ralph V. Lambert Applicant.

By _____ Agent.

Date of first receipt at Department of Reclamation: 9:00 A. M. August 6, 1934

Returned to applicant for correction: August 18, 1934

Corrected application received: September 3, 1934

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is 18038
Recorded in Book 65 Page 18038 Approved November 9, 1934
This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and
hereby approve the same, subject to the following limitations and conditions:
Bond in the sum of \$ to be filed on or before
Work to begin on or before January 8, 1935 and to continue diligently and uninterruptedly to completion,
unless temporarily interrupted by circumstances over which permit holder has no control.
One-fifth of the work above specified to be completed on or before November 9, 1935
The whole of said work to be completed on or before November 9, 1936
Beneficial use of water appropriated in accordance herewith, to be made on or before November 9, 1937

Witness my hand this 9th day of November, 1934.

R. W. FARIS
Commissioner of Reclamation.

Remarks: Wish to take from Reeder Creek two cubic feet of water for irrigation purposes; also to be able to erect a small dam built of lumber to create a head of water sufficient to run a small water wheel to pull a car generator to enable me to light house and barn.

Re: permit No. 18038

Mr. Ralph V. Lambert,
Mordman, Idaho.

Dear Sir:-

We are enclosing herewith License and Certificate of Water Right issued under the above numbered permit, confirming your right to use 0.4 second foot of the waters of Reeder Creek, a tributary of Priest Lake, with a date of priority date of August 6, 1934, for irrigation purposes only, on the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 21, Township 61 North, Range 5 West.

The Department's Receipt No. 16950 for the \$4.00 fee which you paid in connection with final proof is also enclosed.

Very truly yours,

JAMES SPOTTORD
Commissioner of Reclamation

Attention Jeanne L. Anderson, Chief Clerk.

RE: PERMIT No. 18038.

Gentlemen:

Per your letter of March 22nd, I am
enclosing herewith my check in the amount of
\$4.00.

Will you kindly send me my license
as mentioned in your letter.

Yours very truly,

R.V. Lambert,

Nordman, Idaho.

Re: Permit No. 18038

Ralph V. Lambert,
Nordman, Idaho.

Dear Sir:-

A short time ago we received the report of our field engineer on examination for beneficial use under the above numbered permit.

This report shows that you are irrigating 20 acres in two 40-acre legal subdivisions.

Therefore, your fee will be \$4.00, upon receipt of which a license will be issued.

Very truly yours,

JAMES SPOTFORD
Commissioner of Reclamation

REPORT OF ENGINEER

Permit No. 18038

✓ This proof is for Beneficial Use In Water District No. _____

✓ 1. Name of applicant Ralph V. Lambert

✓ 2. Source of water supply: Reader Creek

✓ 3. Location of point of diversion: Is in the SE 1/4 NE 1/4 of Section 21

T. 61 N. R. 5 W. B.M., County of Bonner

✓ 4. Describe works as they exist, giving dimensions and capacities of same: Diversion dam
25 ft long x 4 ft high x 3 ft thick built of rail road ties
set vertical and filled with rock and earth.
Ditch 12" wide x 12" deep

✓ 5. Water is used for: Irrigation and power for lighting purposes

✓ 6. State whether or not water has been turned into works of diversion: yes

✓ 7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): SE 1/4 & NE 1/4 of Sec. 21, T. 61 N., R. 5 W., B. M.

(Submit map on attached plat, showing location and details of above description.)

✓ 8. What large stream would the water here appropriated finally reach? Pixot Lake

Remarks: Land under this filing is mostly natural
swampy hay meadow which does not require much
irrigation under present conditions of swamp
drainage

This examination was made on the 3rd day of October, 1938

Examination for Beneficial Use

County Bonner

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make a plain statement of them under remarks.
5. Always see the bolder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

Re: Permit No. 18038.

Mr. Ralph V. Lambert
Nordman, Idaho

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office you will be further notified as to fees due before the issuance of your license.

Very truly yours,

R. W. FARIS
Commissioner of Reclamation

PERMIT NO. 18038.

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ralph V. Lambert, 39 years, Nordman, Idaho, Farmer - Nordman, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not a corporation.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 18038 dated November 9, 1934. Priority August 6th, 1934.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Reader Creek, SE $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ of Section 21, Twp 61 North Range 5 WBM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Dam, Ditch and headgate. Water carried from point of diversion through ditches capable of handling two cubic feet per second.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation and power for lighting purposes also domestic use.

Used to irrigate land situated SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 21, T 61N- R5 WBM, which consists of both cultivated and natural meadow land. As result of application of water was able to produce more.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For lighting purposes, generates 3/4 H.P.

18038 OK P. A. B.

✓ Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Two cubic feet per second.

✓ Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

✓ Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water applied during July and August 1935. Also same months during '36 and '37, to extent of two cubic feet per second through ditches.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None other than for domestic use.

(Sign)

Ralph V. Lambert

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was sub-

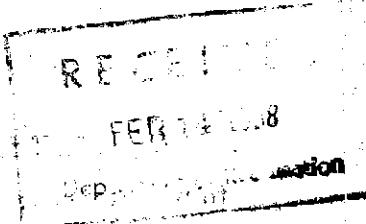

and sworn to before me, at my office in Priest River, County of Bonner,

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. ~~Kreszenz~~ Kramer, Priest River, Idaho, Farmer, Priest River, Idaho.

Ques. 2. Are you acquainted with Ralph V. Lambart, the holder of Permit No. 18038? How long have you known him and where does he reside?

Ans. About 15 years. Besides at Nordman, Idaho.

Ques. 3. Have you read or heard read said Permit No. 18038, and are you familiar with its provisions and conditions? Yes.

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

1800' from N.E. Corner S21, T61NR5 WBM, and is used on Reader Creek, SE $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ of Section 21, TWP 61 North Range 5 WBM.

dam, ditch and headgate. Water carried from point of diversion through ditches capable of handling two cubic feet per second.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Two cubic feet per second.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. For irrigation and power for lighting purposes, used to irrigate land situated SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 21 T61 NR5 WBM, which consists of cultivated and natural

meadow land. As result of application of water land produced more.

Irrigated land in following subdivisions: 77 $\frac{1}{2}$ acres in SE $\frac{1}{4}$

20
97 $\frac{1}{2}$

18038

OK P.H.B.

✓ Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. Power for lights.

✓ Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Natural meadow and cultivated land. Two cubic feet per second would be sufficient.

✓ Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

✓ Ans. I have known this place for about 15 years. The water is needed for irrigation. I have seen the dam and ditch on the place.

proof of app of
beneficial use?

January 4, 1938

Mr. Ralph V. Lambert
Mordman, Idaho

Dear Mr. Lambert:

I am in receipt of the depositions for proof of application of water to beneficial use, however, they are very vague and the questions set forth in these depositions have not all been answered. In the deposition of holder, that is your deposition, the answer to question three should set forth the number of the permit, the date when the permit was approved, and the date of priority, which is that date on which the application was first received in the Department of Reclamation. Question four has been answered correctly. Question five is answered correctly, except that you have not named the type of diversion works used. Question six has not been answered fully, you have named the purpose for which the water is used, but you have not named the legal subdivision on which the water is used. This is very important, since this deposition is for beneficial use and if you do not name the land on which the water is used, we have no way of telling whether or not the water is being used on the lands for which it is appurtenant. Question seven is incomplete in that you have not named the horse power generated. Question ten is incomplete in that you have not stated the date when the water was first applied to beneficial use, nor have you stated the amount applied.

In the depositions of the witnesses there should be several corrections made. The first question should be answered completely. The second question in Mr. Wright's deposition has been answered correctly. The fourth answer is incomplete. The sixth question has not been answered in the deposition of either witness, and should be answered completely, since this is the question on which the whole proof of beneficial use depends. In Mr. Wright's deposition, question nine has not been answered at all, and it must be answered. The same corrections should be made in Mr. Kramer's deposition as have been made in Mr. Wright's.

I am inclosing the proper forms for deposition of holder and the depositions of two witnesses, which I would like to have you fill out and sign before the same notaries who notarized your former depositions. I believe it would be advisable to have the same date shown as is shown on the former depositions, that is December 30, 1937. If you will do this as quickly as possible, and return the depositions, the Department will cause an inspection to be made in the early part of this coming season.

I trust that you will attend to this as quickly as possible.

Very truly yours,

Supervisor of Water Distribution

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 30th day of December, 1937, at Priest River, County of Bonner, State of Idaho, before Ricka McLean, Notary Public, proof will be submitted of the application to beneficial use of 2 cubic feet per second of the waters of Reeder Creek in accordance with the terms and conditions of Permit No. 18038 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Ralph V. Lambert, Nordman, Idaho.

The use to which said water has been applied is irrigation and power for lighting purposes.

The amount applied to beneficial use is 2 second feet.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) SE $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ of Section 21, T. 61 N., R. 5 W., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No. 18038.

The source of supply from which such water is diverted is Reeder Creek.

The date of priority which said user is prepared to establish is September 26, 1934.

R. W. FARIS
Commissioner of Reclamation.

DEPARTMENT OF RECLAMATION BOISE

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO,

December 20, 1937

Ricka McLean, Notary Public
Priest River, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 18038

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On December 30, 1937, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Priest River, Idaho before Ricka McLean, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

R. W. FARIS
Commissioner of Reclamation.

November 23, 1937

Re: Permit No. 18038.

Mr. Ralph V. Lambert
Nordman, Idaho

Dear Sir:

This will acknowledge receipt of notice in duplicate for publication in connection with beneficial use proof, and also your authorization to have the notice published in The Priest River Times, Priest River, Idaho, all in connection with Permit No. 18038.

A copy of the notice has been mailed to the newspaper with instructions to publish it once a week for four consecutive weeks prior to December 30, 1937. About ten days prior to this date depositions consisting of one for the holder and one each for two witnesses will be mailed to Nicka McLean, Notary Public, Priest River, Idaho, so that he will have them in ample time for the proof.

On the date designated you should appear at Mr. McLean's office with two disinterested witnesses who are familiar with the terms of the permit and the works constructed thereunder, for the purpose of executing the depositions.

Very truly yours,

Deputy Commissioner of Reclamation

jl

18038

Permit No.

STATE OF IDAHO
Department of Reclamation

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO, }
County of Bonner, } ss

Ralph V. Lambert, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the state of Idaho, No. 18038, and that his postoffice address is Nordman, Idaho
State of Idaho.

Second: That the name of the stream from which said water is to be diverted is Reeder Creek, which is a tributary to Priest Lake

Third: That the point of diversion of said water is approximately 1800 feet distant from the NE Corner of Section 21, T 61, N.R. 5W B.M. and is in the SE¹/₄ NE¹/₄ of S 21, T61 NR 5 WBM County of Bonner, Idaho.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by November 9, 1936.

Fifth: That the use for which said water is intended is Irrig. and Power for Lights.

Sixth: That on the date above mentioned, the works constructed under said permit were (~~are~~ were not) fully completed and consisted of the following:

I. Kind of works: dam, ditch and headgate

(Reservoir, dam, ditch, flume, pipe or otherwise.)

II. Dimensions of work:

(a) Height of dam 3 feet, length of dam at top 5 feet, length of dam at bottom 5 feet. Material used in construction lumber

(State whether wood, earth, stone or concrete.)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width one feet, height two feet.

(d) Conduit Ditch width at bottom two feet, width at water line 2 1/2
(State whether ditch, flume or pipe.)
feet, depth of water one feet; diameter of pipe inches, average grade per mile is feet. Length of conduit is 3500' ~~rather~~

Seventh: That said works are capable of conducting to the place of intended use two cubic
 second feet of water.

Eighth: That water appropriated under said permit is available for 97 1/2 acres of land described as follows: 20 acres in SE¹/₄ NE¹/₄ S 21, T 61, R 5 W.B.M.

20	"	NE ¹ / ₄ SE ¹ / ₄	do
17 1/2	"	NW ¹ / ₄ SE ¹ / ₄	do

SEP 5 - 1936

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

RALPH V. LAMBERT
Nordman, Idaho

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. 18038.....you are required to complete your diversion works on or before Nov. 9, 1936..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided, the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARNS

Commissioner of Reclamation.

Dear Sir:

You will find enclosed notices in duplicate of the above application to appropriate 2 cubic feet per second of the waters of REEDER CREEK for irrigation and power for lighting purposes, all in accordance with the provisions of Section 41-203, Idaho Code Annotated. Will you please acknowledge service upon both copies and return them to this department at your earliest convenience.

The above section provides that this notice shall be posted in a conspicuous place in the Department of Reclamation for a period of 60 days from the date of said notice. During this time, any one whose water right would be affected by the approval of this application would have a chance to protest. In the event that no protests are filed, the application will be approved and permit issued thereunder immediately after November 3rd which is the end of the 60 day period. In the event that someone protests, a hearing will be held at a time and place designated by the Commissioner of Reclamation, in which case you will be advised in ample time to make your appearance.

The fee of \$5.25 which accompanied this application will be held until the date for approval.

Very truly yours,

R. A. ZAPIS
Commissioner of Reclamation
